Rome: Continuing Encounters between Past and Present Dorigen Caldwell, 2016-12-05 Few other cities can compare with Rome's history of continuous habitation nor with the survival of so many different epochs in its present This volume explores how the city's past has shaped the way in which Rome has been built rebuilt represented and imagined throughout its history Bringing together scholars from the disciplines of architectural history urban studies art history archaeology and film studies this book comprises a series of studies on the evolution of the city of Rome and the ways in which it has represented and reconfigured itself from the medieval period to the present day Moving from material appropriations such as spolia in the medieval period through the cartographic representations of the city in the early modern period to filmic representation in the twentieth century we encounter very different ways of making sense of the past across Rome's historical spectrum The broad chronological arrangement of the chapters and the choice of themes and urban locations examined in each allows the reader to draw comparisons between historical periods An imaginative approach to the study of the urban and architectural make up of Rome this volume will be valuable not only for historians of art and architecture but also for students of cultural history and film studies

Ruins of Ancient Rome Roberto Cassanelli, 2002 Traditionally a critical component of the education of any architect was to draw the ruins of ancient Rome reconstructing either from ancient sources or more often pure fantasy what the original structures must have looked like From this training emerged generations of architects imbued with the aesthetic ideals that would form the Neoclassical and Beaux Arts building styles In this magnificently printed volume are reproduced some of the most extraordinarily handsome drawings of the ruins of ancient Rome made by French Prix de Rome architects from 1775 through 1925 Accompanied by text that explains how the Prix de Rome was awarded and the significance of the prize in the history of architecture as well as how the study of ancient models formed the basis for nineteenth and early twentieth century architectural styles these drawings provide an invaluable understanding of how the modern imagination recorded
