Welch, 2007-09-10 This is the first book to analyze the evolution of the Roman amphitheatre as an architectural form Katherine Welch addresses the critical period in the history of this building type its origins and dissemination under the Republic from the third to first centuries BC its monumentalization as an architectural form under Augustus and its canonization as a building type with the Colosseum AD 80 The study then shifts focus to the reception of the amphitheatre in the Greek East a part of the Empire deeply fractured about the new realities of Roman rule *Of the Roman Amphitheater at Dorchester..* William Stukeley, 1723 **The Complete Idiot's Guide to the Roman Empire** Eric Nelson, 2002 You're not an idiot of course The battle scenes in *Gladiator* had you on the edge of your seat and wondering where you could find more information on the rise and fall of ancient Rome But so far your search has left you feeling like a blundering barbarian Pick yourself up off the coliseum floor Consult *The Complete Idiot's Guide to the Roman Empire* a fun to read introduction to the fascinating history people and culture of ancient Rome In this *Complete Idiot's Guide* you get The history of the Roman Empire's rise and fall An idiot proof introduction to the great epic literature of the Roman Republic A survey of the Romans in arts and popular culture Fascinating details of some of history's most nefarious emperors including Nero Caligula and Commodus *A Monument to Dynasty and Death* Nathan T. Elkins, 2019-09-03 Go behind the scenes to discover why the Colosseum was the king of amphitheaters in the Roman world a paragon of Roman engineering prowess Early one morning in 80 CE the Colosseum roared to life with the deafening cheers of tens of thousands of spectators as the emperor Titus inaugurated the new amphitheater with one hundred days of bloody spectacles These games were much anticipated for the new amphitheater had been under construction for a decade Home to spectacles involving exotic beasts elaborate executions of criminals gladiatorial combats and even when flooded small scale naval battles the building itself was also a marvel Rising to a height of approximately 15 stories and occupying an area of 6 acres more than four times the size of a modern football field the Colosseum was the largest of all amphitheaters in the Roman Empire In *A Monument to Dynasty and Death* Nathan T. Elkins tells the story of the Colosseum's construction under Vespasian its dedication under Titus and further enhancements added under Domitian The Colosseum Elkins argues was far more than a lavish entertainment venue it was an ideologically

charged monument to the new dynasty its aspirations and its achievements A Monument to Dynasty and Death takes readers on a behind the scenes tour of the Colosseum from the subterranean tunnels where elevators and cages transported gladiators and animals to the blood soaked arena floor to the imperial viewing box to the amphitheater's decoration and amenities such as fountains and an awning to shade spectators Trained as an archaeologist an art historian and a historian of ancient Rome Elkins deploys an interdisciplinary approach that draws on contemporary historical texts inscriptions archaeology and visual evidence to convey the layered ideological messages communicated by the Colosseum This engaging book is an excellent resource for classes on Roman art architecture history civilization and sport and spectacle **The**

Digital Heritage and Archaeology in Practice Ethan Watrall, Lynne Goldstein, 2022-06-28 Bloody Entertainment in the Roman Arenas - Ancient History Picture Books | Children's Ancient History Baby Professor, 2017-03-15 The Romans were not only creative when it comes to building infrastructures fashion and art They were also pretty creative when it comes to entertainment Unfortunately their creativity in this area is a lot more than anyone today can handle There raised gladiators who would fight to death Slaves were treated like animals and it was all for fun Curious You better be ready for this book

The city guide for Cagliari (Italy) YouGuide Ltd, **Data Science, Human Science, and Ancient Gods** Sandra Blakely, Megan Daniels, 2023-05-01 The studies in this volume share a focus on religion in the ancient Mediterranean world How ritual myth spectatorship and travel reflect the continual interaction of human beings with the richly fictive beings who defined the boundaries of groups access to the past and mobility across land and seascapes They share as well the methodological exploration of the intersection between human science the integration of numerous disciplines around the study of all aspects of human life from the biological to the cultural and the study of the past In so doing they continue a long dialogue that engages with critical models derived from specializations within history philology archaeology sociology and anthropology and addresses increasingly the potentialities and pitfalls of quantitative and digital analyses Many of the threads in this long conversation inform these chapters the comparative project human social evolution disciplinary reflexivity religion as an embedded functional and structural system and the role for agency networks and materiality

Jesus, Paul, Luke-Acts, and 1 Clement David L. Balch, 2023-06-19 In this book the author draws on two original sources on a Greek biographer historian and rhetorician Dionysius of Halicarnassus as well as on Pompeian domestic art and architecture Generally NT scholars read texts but Greeks and ancient Romans loved beauty The walls and floors of their houses were decorated with thousands of colorful frescoes and mosaics art that two millennia later is still on display in Pompeii Christians lived and worshipped in those typical houses relating the art to NT texts generates many intriguing new

questions What stories myths did Greeks and Romans see every day What were their sports and how violent were they Many NT scholars know as much or more Latin than they do Greek and they therefore cite the Latin historian Livy rather than the Greek Dionysius who wrote a century before the first Christian historian Luke Dionysius rhetoric expressed values shared across cultures by Greeks Romans and Jews e g by the historian and rhetorician Josephus some values that Luke also shares Dionysius makes clear that cities and ethnic groups had to praise how they treated emigrant foreigners questions handled differently by Josephus and by Luke This enables new interpretations of Jesus inaugural speech in Luke 4 and of Peter s second Pentecost speech in Acts 10

We Look for a Kingdom Carl Sommer,2010-01-05 Carl Sommer presents a popular study of the faith and life of the early Christians in the first two centuries after Christ Using documentary evidence and archaeological records Sommers reconstructs the lives of the early Christians in order to introduce the treasures of early Christianity to a large number of modern readers By studying how the early Christians believed and lived we can learn many valuable lessons on what to avoid and what to strive for today The Roman world had many facets that are strikingly similar to elements of modern life Sommer s aim is to help the reader learn how to transform modern culture with the power of the Gospel as was first done in the centuries of the early Church

Dying to be Men L. Stephanie Cobb,2008 At once brave and athletic virtuous and modest female martyrs in the second and third centuries were depicted as self possessed gladiators who at the same time exhibited the quintessentially womanly qualities of modesty fertility and beauty L Stephanie Cobb explores the double embodiment of male and female gender ideals in these figures connecting them to Greco Roman virtues and the construction of Christian group identities Both male and female martyrs conducted their battles in the amphitheater a masculine environment that enabled the divine combatants to showcase their strength virility and volition These Christian martyr accounts also illustrated masculinity through the language of justice resistance to persuasion and more subtly but most effectively the juxtaposition of unmanly individuals usually slaves the old or the young with those at the height of male maturity and accomplishment such as the governor or the proconsul Imbuing female martyrs with the same strengths as their male counterparts served a vital function in Christian communities Faced with the possibility of persecution Christians sought to inspire both men and women to be braver than pagan and Jewish men Yet within the community itself traditional gender roles had to be maintained and despite the call to be manly Christian women were expected to remain womanly in relation to the men of their faith Complicating our understanding of the social freedoms enjoyed by early Christian women Cobb s investigation reveals the dual function of gendered language in martyr texts and its importance in laying claim to social power

Penalty Giosuè Ghisalberti,2021-12-03 The slaughter of animals as a religious ritual and the execution of human beings as a judicial one was an interrelated phenomenon in the ancient world Writings from different traditions had to be interpreted in relation to each other for the connection between two sacred rituals to be made The history of the death penalty within the textual traditions of Judaism and ancient Greece could be traced to specific commandments beginning in Genesis and in laws specified as early as in Hesiod s Theogony in each case however with far from unambiguous conclusions despite their divine origins in YHWH or Zeus An ever present uncertainty in the nature of the death penalty pervades the writings of the Bible from Genesis to the Gospels of Jesus as well as in the mytho poetic world of Hesiod the tragedy of Aeschylus and Socratic philosophy as represented in Plato s dialogues Scholarship has not considered the importance of these two interrelated traditions insofar as both expose the specific characteristics of violence and killing within the institutions of religion and the law The creation of religious rituals and the acts of the law are inseparable and essential to the authority of the politico religious state Animal sacrifice and the death penalty serve as the pillars of social legitimacy in the ancient world
