Muller,2017-02-01 Staking out new territory in the history of art this book presents a compelling argument for a lost link between the panel painting tradition of Greek antiquity and Christian paintings of Byzantium and the Renaissance While art historians place the origin of icons in the seventh century Thomas F Mathews finds strong evidence as early as the second century in the texts of Irenaeus and the Acts of John that describe private Christian worship In closely studying an obscure set of sixty neglected panel paintings from Egypt in Roman times the author explains how these paintings of the Egyptian gods offer the missing link in the long history of religious painting Christian panel paintings and icons are for the first time placed in a continuum with the pagan paintings that preceded them sharing elements of iconography technology and religious usages as votive offerings Exciting discoveries punctuate the narrative the technology of the triptych enormously popular in Europe traced by the authors to the construction of Egyptian portable shrines such as the Isis and Serapis of the J Paul Getty Museum the discovery that the egg tempera painting medium usually credited to Renaissance artist Cimabue has been identified in Egyptian panels a millennium earlier and the reconstruction of a ring of icons on the chancel of Saint Sophia in Istanbul This book will be a vital addition to the fields of Egyptian Graeco Roman and late antique art history and more generally to the history of painting **Christian art** Giovanni Battista de Rossi,1879 **Early Christian Art** André Grabar,1969 The beginnings of any historical movement are bound to be mysterious So it is with Christianity and so it is with Christian art Into the ordered world of late classicism came the arresting voice and disturbing gaze of men heavy with conscience for whom art was only a medium for higher truth Andr Grabar traces the emergence of this art from its pagan background and shows the social and spiritual forces that governed its growth Early Christian Art covers a vast area from Spain to Syria and a vast theme since content and meaning are inseparable from expression Chapters are devoted to painting and sculpture during the persecutions to the great Roman basilicas and Old St Peter s to the mosaics of Saint Costanza and to the haunting and still too little known sarcophaguses of the 4th century The book also includes a section of ancient texts relating to art a chronological table and a glossary index and
