Orality, Literacy, and Colonialism in Antiquity Jonathan A. Draper,2004 Religious scholars take up various questions relating to the relationship between orality and literacy in the context of colonized people in antiquity and explore the role of orality in relation to this hegemony Among the topics are theoretical and methodological foundations Mithra's cult as an example of religious colonialism in Roman times th

Christianity, Empire, and the Making of Religion in Late Antiquity Jeremy M. Schott,2013-04-23 In *Christianity Empire and the Making of Religion in Late Antiquity* Jeremy M Schott examines the ways in which conflicts between Christian and pagan intellectuals over religious ethnic and cultural identity contributed to the transformation of Roman imperial rhetoric and ideology in the early fourth century C E During this turbulent period which began with Diocletian's persecution of the Christians and ended with Constantine's assumption of sole rule and the consolidation of a new Christian empire Christian apologists and anti Christian polemicists launched a number of literary salvos in a battle for the minds and souls of the empire Schott focuses on the works of the Platonist philosopher and anti Christian polemicist Porphyry of Tyre and his Christian respondents the Latin rhetorician Lactantius Eusebius bishop of Caesarea and the emperor Constantine Previous scholarship has tended to narrate the Christianization of the empire in terms of a new religion's penetration and conquest of classical culture and society The present work in contrast seeks to suspend the static essentializing conceptualizations of religious identity that lie behind many studies of social and political change in late antiquity in order to investigate the processes through which Christian and pagan identities were constructed Drawing on the insights of postcolonial discourse analysis Schott argues that the production of Christian identity and in turn the construction of a Christian imperial discourse were intimately and inseparably linked to the broader politics of Roman imperialism

The Oxford Handbook of Postcolonial Biblical Criticism R. S. Sugirtharajah,2023 *The Oxford Handbook of Postcolonial Biblical Criticism* is a comprehensive treatment of a relatively new form of scholarship Generally speaking postcolonialism aims to critique and dismantle hegemonic worldviews and power structures while giving voice to previously marginalized peoples and systems of thought This approach has inevitably engaged with the text and reception of the Bible a scripture that Western colonizers introduced to and often imposed upon their colonial subjects With a globally diverse list of contributors the Handbook aims to cover the perspective and context of the authors of the Bible as well as the modern experiences of imperialism resistance decolonization and nationalism

A Literary History of Early Christianity: The heretical sects Charles Thomas Cruttwell,1893 **Encyclopedic Dictionary of Roman Law** Adolf Berger,David R. Clark,1953 This Dictionary explains technical Roman legal terms translates elucidate those Latin words which have a specific connotation when used in a juristic context or in connection with a legal institution or question provides a brief picture of

Roman legal institutions sources as a sort of an introduction to them The objectives of the work not the juristic character of available Latin writings therefore determined the inclusion or exclusion of any single word or phrase This dict is not intended to be a complete Latin English dict for all words which occur in the writings of the Roman jurists or in the various codifications of Roman law The reader must consult a general Latin English lexicon for ordinary words that have no specific meaning in law or juristic language Reprinted 1980

The Colonizers' Idols Christina Harker, 2018-02-02 In this work Christina Harker deconstructs the prevailing treatment of the New Testament as anti imperial by contextualizing both New Testament scholarship and the Galatian experience within imperialist discourses that survived the dissolution of conventional empires in the twentieth century She critiques simplistic treatments of empire as post imperial that is replicating patterns of imperialist ideology albeit unwittingly To solve the problem a new interpretation of Galatians is proposed that reworks and complicates the portrait of the Galatians themselves rather than Paul within what then emerges as a diverse social world peopled by complex individuals with heterogeneous social and cultural identities The author is thus able to show how New Testament scholars who rehabilitate the Bible and Paul as anti empire perpetuate the same imperialist modes of interpretation they seek to repudiate

Ambrose of Milan and Community Formation in Late Antiquity Ethan Gannaway, Robert L. Grant, 2021-03-08 Ambrose the first patrician bishop and a prolific writer of a broad range of works presents numerous opportunities for interdisciplinary research His participation in many social groups sometimes at odds with each other and sometimes overlapping demanded flexibility The result is a protean figure whose motives are not always clear His own works and those of the scholars who contribute to this volume are accordingly multidisciplinary Fields such as theology especially historical theology history classics philosophy linguistics and aesthetics among others and the recent international research that belongs to them nuance the volume s investigation of Ambrose s actions and motivations The reader will find that Ambrose s efforts to create and to strengthen social cohesion included building relationships and erecting social structures set on the foundations of Nicaean Christianity against heresy and paganism A fusion of Graeco Roman and Judeo Christian intellectual traditions reinforced the solidarity Ambrose promoted These endeavors met with success then and continue to do so now as indicated by the modern community of scholars found within this book

Rabbinic Scholarship in the Context of Late Antique Scholasticism Catherine Hezser, 2024-12-12 Based on an understanding of scholasticism as a cross cultural phenomenon undertaken by rabbinic Graeco Roman and Christian scholars in late antiquity this book examines the development of Palestinian rabbinic compilations from social historical and literary historical perspectives The book focuses on the compilation of the Talmud Yerushalmi in the context of late antique scholarly practice aimed at preserving past knowledge for future generations This book provides insight into how rabbinic scholarship in the Land of Israel participated in the wider intellectual practices of Roman Byzantine times Beginning with the social educational and legal contexts that generated rabbinic knowledge Catherine Hezser goes on to investigate the oral and

written transmission of rabbinic traditions to eventually examine the compilation of the Talmud Yerushalmi with a comparative and redaction historical approach Integrating Palestinian rabbinic education and scholarship into the context of late antique Graeco Roman and Byzantine Christian scholarly practices Catherine Hezser demonstrates how rabbinic compilatory techniques resembled but also differed from those of Hellenistic Roman and Christian scholars The book highlights how rabbinic compilations are idiosyncratic and create a distinct rabbinic identity Overall Hezser argues that rabbinic scholarship was an integral part of late antique intellectual life in the Near Middle East and should be recognized as an Eastern equivalent to Western paideia based forms of scholarship in the Roman Byzantine period and beyond

Christian Register and Boston Observer ,1917 *Faith and Fratricide* Rosemary Radford Ruether,1996-09-08 Since the Nazi holocaust took the lives of a third of the Jewish people of the world the Christian Church has been engaged in a self examination of its own historical role in the creation of anti semitism In this major contribution to that search theologian Rosemary Radford Ruether explores the roots of anti semitism from new perspectives A Social and Religious History of the Jews: Ancient times Salo Wittmayer Baron,1952 **Survivals in Christianity** Charles James Wood,1893 *Prejudice and Christian Beginnings* Elisabeth Schussler Fiorenza,Laura Nasrallah,2010-10-01 While scholars of the New Testament and its Roman environment have recently focused attention on ethnicity on the one hand and gender on the other the two questions have often been discussed separately and without reference to the contemporary critical study of race theory This interdisciplinary volume addresses this lack by drawing together new essays by prominent scholars in the fields of New Testament classics and Jewish studies These essays push against the marginalization of race and ethnicity studies and put the received wisdom of New Testament studies squarely in the foreground **Survivals in Christianity: studies in the theology of divine immanence, lectures** Charles James Wood,1893 Paul the Jew Gabriele Boccaccini,Carlos A. Segovia,2016-06-03 The decades long effort to understand the apostle Paul within his Jewish context is now firmly established in scholarship on early Judaism as well as on Paul The latest fruit of sustained analysis appears in the essays gathered here from leading international scholars who take account of the latest investigations into the scope and variety present in Second Temple Judaism Contributors address broad historical and theological questions Paul s thought and practice in relationship with early Jewish apocalypticism messianism attitudes toward life under the Roman Empire appeal to Scripture the Law inclusion of Gentiles the nature of salvation and the rise of Gentile Christian supersessionism as well as questions about interpretation itself including the extent and direction of a paradigm shift in Pauline studies and the evaluation of the Pauline legacy Paul the Jew goes as far as any effort has gone to restore the apostle to his own historical cultural and theological context and with persuasive results *Matthew: An Introduction and Study Guide* Elaine M. Wainwright,2017-01-12 Recent decades have seen significant shifts in biblical scholarship opening up a range of ways of engaging the biblical narrative both methodologically the tools and techniques for engaging the text and hermeneutically the

perspectives that inform an interpreter's approach to the text and to the interpretative task. It is these shifts that give shape to this introduction and study guide so that students encounter not only the text of Matthew itself but also its rich lode of recent interpretation. Among aspects of 1st century life brought to the fore by current social scientific methodology are kinship, the honor and shame culture, and masculinity. Gender is another interpretative lens that has characterized the study of the Gospel of Matthew in recent decades, and the Guide provides pathways through this rich literature. The guide to Matthew concludes with the most recent turn of the hermeneutical lens, namely an ecological perspective on what is perhaps the best known text in Matthew, the Beatitudes. This final chapter is an example of how we can enter an old and familiar text like the Gospel of Matthew from yet another new critical direction.

Cruciform Scripture Christopher W. Skinner, Nijay K. Gupta, Andy Johnson, Drew J. Strait, 2021-01-05. What does it mean to participate in the cruciform of Lord Jesus Christ so that our life together becomes a living exegesis of the gospel? Michael Gorman has been tremendously influential in exploring this question within the New Testament, particularly in the letters of Paul, the Gospel of John, and the book of Revelation. His 2001 book *Cruciformity: Paul's Narrative Spirituality of the Cross* inspired a generation of scholars and was the first in a trilogy of New Testament theology devoted to exploring the role of the cross, participation in Christ, and becoming the gospel in mission. Here, an assemblage of some of the best and brightest current New Testament exegetes honor Gorman's work with contributions of their own, each of which further explores these three critical themes in various passages of the New Testament. *Cruciform Scripture* is more than a tribute to a giant of biblical scholarship. Its contributors, including N. T. Wright, Sylvia Keesmaat, and Richard Hays, are masters in their own right who offer incisive interpretations of essential themes of New Testament theology and the core concerns of Christian life in community. As they reason together in this volume, they amplify one another's voices as well as Gorman's modeling a way that careful reflection on Paul's determination to know nothing except Jesus Christ and him crucified can engender fruitful insights on the nature of discipleship.
