Roman Epic Anthony J. Boyle, 2003-09-02 Distinguished Latinists examine the formation and evolution of Roman epic from its beginnings in the third century BC to the high Italian Renaissance **Roman Epic** M. von Albrecht, 2018-07-17 The author's approach to Roman epic is interpretative the reader is invited to study a choice of typical texts from the beginnings to the end of Antiquity Famous poets are given the attention they deserve but also some minor authors are discovered as precious missing links between the ages Special heed is paid to intertextual relationships between different epochs cultures literary genres linguistic and literary patterns The book is meant for students and teachers of classical and modern literatures but also for all those interested in the history of literary genres and cultural ideas **Women and War in**

Roman Epic Elina Pyy, 2020-11-04 In *Women and War in Roman Epic* Elina Pyy discusses the narrative and ideological functions of gender in the works of Virgil Lucan Statius Silius Italicus and Valerius Flaccus By examining the themes of violence death guilt grief and anger in their epics she offers an account of the intertextual tradition of the genre and its socio-political background Through a combination of classical narratology and Julia Kristeva's subjectivity theory Pyy scrutinises how gendered marginality is constructed in the genre and how it contributes to the fashioning of Roman imperial identity Focusing on the ambiguous elements of epic the study looks beyond the binary oppositions between the Self and the Other male and female and Roman and barbarian Artificial Intelligence in Greek and Roman Epic Andriana Domouzi, Silvio Bär, 2024-05-16 This is the first scholarly exploration of concepts and representations of Artificial Intelligence in ancient Greek and Roman epic including their reception in later literature and culture Contributors look at how Hesiod Homer Apollonius of Rhodes Moschus Ovid and Valerius Flaccus crafted the first literary concepts concerned with automata and the quest for artificial life as well as technological intervention improving human life Parts one and two consider respectively archaic Greek and Hellenistic and Roman epics Contributors explore the representations of Pandora in Hesiod and Homeric automata such as Hephaestus wheeled tripods the Phaeacian king Alcinous golden and silver guard dogs and even the Trojan Horse Later examples cover Artificial Intelligence and automation including Talos in the *Argonautica* of Apollonius and Valerius Flaccus and Pygmalion's ivory woman in Ovid's *Metamorphoses* Part three underlines how these concepts benefit from analysis of the ekphrasis device within which they often feature These chapters investigate the cyborg potential of the epic hero and the literary implications of ancient technology Moving into contemporary examples the final chapters consider the reception of ancient literary Artificial Intelligence in contemporary film and literature such as the Czech science fiction epic *Starvoyage* or *Small Cosmic Odyssey* by Jan Kr esadlo 1995 and the British science fiction novel *The Holy Machine* by Chris Beckett 2004 Claudian and the Roman Epic Tradition Catherine Ware, 2012-05-24 The historical importance of Claudian as writer of panegyric and propaganda for the court of Honorius is well established but his poetry has been comparatively neglected only recently has his work been the subject of modern literary criticism Taking as its starting point

Claudian's claim to be the heir to Virgil; this book examines his poetry as part of the Roman epic tradition. Discussing first what we understand by epic and its relevance for late antiquity, Catherine Ware argues that like Virgil and later Roman epic poets, Claudian analyses his contemporary world in terms of classical epic. Engaging intertextually with his literary predecessors, Claudian updates concepts such as *furor* and *concordia*, redefining Romanitas to exclude the increasingly hostile east, depicting enemies of the west as new Giants, and showing how the government of Honorius and his chief minister Stilicho have brought about a true golden age for the west. *Epic in Republican Rome* Sander M. Goldberg, 1995. Epic in Republican Rome is the first extended literary treatment of early Latin epic. Goldberg views the creators of these now fragmentary works not simply as predecessors of Vergil, who in important ways stands outside their tradition, but as pioneers and poets in their own right. Still, he goes beyond practical criticism, exploring the literary experiments of Andronicus, Naevius, Ennius, and Cicero. Goldberg examines issues of poetry and patronage, cultural assimilation, and national ideology, modeling and originality that both come to characterize Roman literature of all periods and continue to shape modern responses to that literature. The aesthetic questions raised are thus inseparable from the wider cultural context that encouraged poets to develop and Roman society to value an epic tradition in Latin. The book combines traditional literary and philological methods with modern techniques of cultural studies and contemporary inquiries into the formation of national literatures. What emerges from Goldberg's study is a fresh perspective on Vergil's achievement, with new insights into the cultural dynamics of Republican Rome. The Cambridge Companion to Roman Satire Kirk Freudenburg, 2005-05-12. Satire as a distinct genre of writing was first developed by the Romans in the second century BCE. Regarded by them as uniquely their own, satire held a special place in the Roman imagination as the one genre that could address the problems of city life from the perspective of a real Roman. In this Cambridge Companion, an international team of scholars provides a stimulating introduction to Roman satire's core practitioners and practices, placing them within the contexts of Greco-Roman literary and political history. Besides addressing basic questions of authors' content and form, the volume looks to the question of what satire does within the world of Greco-Roman social exchanges and goes on to treat the genre's further development, reception, and translation in Elizabethan England and beyond. Included are studies of the prosimetric Menippean satires that would become the models of Rabelais, Erasmus, More, and narrative satire's crowning jewel, Swift. The Roman Self in Late Antiquity Marc Mastrangelo, 2008-01-21. The Roman Self in Late Antiquity for the first time situates Prudentius within a broad intellectual, political, and literary context of fourth-century Rome. As Marc Mastrangelo convincingly demonstrates, the late fourth-century poet drew on both pagan and Christian intellectual traditions, especially Platonism, Vergilian epic poetics, and biblical exegesis, to define a new vision of the self for the newly Christian Roman Empire. Mastrangelo proposes an original theory of Prudentius's allegorical poetry and establishes Prudentius as a successor to Vergil. Employing recent approaches to typology and biblical exegesis, as well as the most current theories of allusion and intertextuality in Latin poetry, he interprets the

meaning and influence of Prudentius's work and positions the poet as a vital author for the transmission of the classical tradition to the early modern period This provocative study challenges the view that poetry in the fourth century played a subordinate role to patristic prose in forging Christian Roman identity It seeks to restore poetry to its rightful place as a crucial source for interpreting the rich cultural and intellectual life of the era **A History of Roman Literature** Michael von Albrecht,1997

Aspects of the Speech in the Later Roman Epic Herbert Cannon Lipscomb,1909 *Edinburgh Companion to Ancient Greece and Rome* Edward Bispham,2006-07-24 The Edinburgh Companion newly available in paperback is a gateway to the fascinating worlds of ancient Greece and Rome Wide ranging in its approach it demonstrates the multifaceted nature of classical civilisation and enables readers to gain guidance in drawing together the perspectives and methods of different disciplines from philosophy to history from poetry to archaeology from art history to numismatics and many more **Silius Italicus and the Tradition of the Roman Historical Epos** ,2022-07-04 The aim of this volume

is to study Silius poem as an important step in the development of the Roman historical epic tradition The Punica is analyzed as transitional segment between the beginnings of Roman literature in the Republican age Naevius and Ennius and Claudian's panegyric epic in late antiquity shedding light on its inclusiveness and its peculiar internal dialectic between antiquarian taste and problematic actualization This is an innovative attempt to connect epic poems and authors belonging to different ages to frame the development of the literary genre according to its specific aims and interests throughout the centuries

The Roman Poets of the Augustan Age William Young Sellar,1877 *Engendering Rome* A. M. Keith,Alison Keith,2000-02-24 Heroism has long been recognised by readers and critics of Roman epic as a central theme of the genre from Virgil and Ovid to Lucan and Statius However the crucial role female characters play in the constitution and negotiation of the heroism on display in epic has received scant attention in the critical literature This study represents an attempt to restore female characters to visibility in Roman epic and to examine the discursive operations that effect their marginalisation within both the genre and the critical tradition it has given rise to The five chapters can be read either as self contained essays or as a cumulative exploration of the gender dynamics of the Roman epic tradition The issues addressed are of interest not just to classicists but also to students of gender studies **A Companion to Ancient Epic** John Miles

Foley,2008-11-03 A Companion to Ancient Epic presents for the first time a comprehensive up to date overview of ancient Near Eastern Greek and Roman epic It offers a multi disciplinary discussion of both longstanding ideas and newer perspectives A Companion to the Near Eastern Greek and Roman epic traditions Considers the interrelation between these different traditions Provides a balanced overview of longstanding ideas and newer perspectives in the study of epic Shows how scholarship over the last forty years has transformed the ways that we conceive of and understand the genre Covers recently introduced topics such as the role of women the history of reception and comparison with living analogues from oral tradition The editor and contributors are leading scholars in the field Includes a detailed index of poems poets technical

Elements of Tragedy in Flavian Epic Sophia Papaioannou, Agis Marinis, 2021-01-18 In the light of recent scholarly work on tragic patterns and allusions in Flavian epic the publication of a volume exclusively dedicated to the relationship between Flavian epic and tragedy is timely The volume concentrating on the poetic works of Silius Italicus Statius and Valerius Flaccus consists of eight original contributions two by the editors themselves and a further six by experts on Flavian epic The volume is preceded by an introduction by the editors and it concludes with an Afterword by Carole E Newlands Among key themes analysed are narrative patterns strategies or type scenes that appear to derive from tragedy the Aristotelian notions of hamartia and anagnorisis human and divine causation the transfer of individual characters from tragedy to epic as well as instances of tragic language and imagery The volume at hand showcases an array of methodological approaches to the question of the presence of tragic elements in epic Hence it will be of interest to scholars and students in the area of Classics or Literary Studies focusing on such intergeneric and intertextual connections it will be also of interest to scholars working on Flavian epic or on the ancient reception of Greek and Roman tragedy
