

HISTORY OF WARFARE ♦ VOLUME 81

A Companion to Roman Imperialism

Edited by Dexter Hoyos

BRILL

Roman Imperialism

Donald Walter Baronowski

Roman Imperialism:

A Companion to Roman Imperialism, 2012-11-09 The Roman empire extended over three continents and all its lands came to share a common culture bequeathing a legacy vigorous even today A Companion to Roman Imperialism written by a distinguished body of scholars explores the extraordinary phenomenon of Rome's rise to empire to reveal the impact which this had on her subject peoples and on the Romans themselves The Companion analyses how Rome's internal affairs and international relations reacted on each other sometimes with violent results why some lands were annexed but others ignored or given up and the ways in which Rome's population and power elite evolved as former subjects east and west themselves became Romans and made their powerful contributions to Roman history and culture Contributors are Eric Adler Richard Alston Lea Beness Paul Burton Brian Campbell Arthur Eckstein Peter Edwell Tom Hillard Richard Hingley Benjamin Isaac Jos Luis Lopez Castro J Majbom Madsen Susan Mattern Sophie Mills David Potter Jonathan Prag Steven Rutledge Maurice Sartre John Serrati Tom Stevenson Martin Stone and James Thorne *The Roman Empire* Colin Michael Wells, 1995 This sweeping history of the Roman Empire from 44 BC to AD 235 has three purposes to describe what was happening in the central administration and in the entourage of the emperor to indicate how life went on in Italy and the provinces in the towns in the countryside and in the army camps and to show how these two different worlds impinged on each other Colin Wells's vivid account is now available in an up to date second edition **Roman Imperialism** Sir John Robert Seeley, 1871 **The Roman Empire** Neville Morley, 2010-06-04 Over a millennium after the end of its unrivalled dominance the spectre of Rome figures highly in western culture This book explores what the empire meant to its subjects The idea of Rome has long outlived the physical empire that gave it form and now holds sway over vastly more people and a far greater geographical area than the Romans ever ruled It continues to shape our understanding of the nature of imperialism and influence the workings of the world It is through the lens of Rome that we answer questions such as How do empires grow How are empires ruled Do empires exploit their subjects or civilise them Rejecting the simplistic narrative of military triumph followed by decline and fall the book analyses the origins of Roman imperialism its wide ranging impact on the regions it conquered and its continuing influence in debates about modern imperialism **Roman Imperialism** Craige B. Champion, 2003-11-07 This broad ranging reader on Roman imperialism brings together ancient documents in translation and a selection of the best recent scholarly essays in order to introduce students to the major problems and controversies in studying this central aspect of Roman history A broad ranging reader on Roman imperialism combining ancient documents in translation and a selection of the best recent scholarship on the subject Introduces students to the major problems and controversies in the study of Roman imperialism Examines diverse aspects of Roman imperialism from the Romans' motivations in acquiring an empire and their ideological justifications for imperial domination to the complex political economic and cultural interactions between the Romans their allies and the subjected peoples An introduction surveys

modern work on Roman imperialism and provides the context of recent theoretical and methodological approaches to the study of empires in general Includes notes with suggestions for further reading

The Fall of the Roman Empire Peter Heather, 2007-06-11 The death of the Roman Empire is one of the perennial mysteries of world history Now in this groundbreaking book Peter Heather proposes a stunning new solution Centuries of imperialism turned the neighbors Rome called barbarians into an enemy capable of dismantling an Empire that had dominated their lives for so long A leading authority on the late Roman Empire and on the barbarians Heather relates the extraordinary story of how Europe's barbarians transformed by centuries of contact with Rome on every possible level eventually pulled the empire apart He shows first how the Huns overturned the existing strategic balance of power on Rome's European frontiers to force the Goths and others to seek refuge inside the Empire This prompted two generations of struggle during which new barbarian coalitions formed in response to Roman hostility brought the Roman west to its knees The Goths first destroyed a Roman army at the battle of Hadrianople in 378 and went on to sack Rome in 410 The Vandals spread devastation in Gaul and Spain before conquering North Africa the breadbasket of the Western Empire in 439 We then meet Attila the Hun whose reign of terror swept from Constantinople to Paris but whose death in 453 ironically precipitated a final desperate phase of Roman collapse culminating in the Vandals' defeat of the massive Byzantine Armada the west's last chance for survival Peter Heather convincingly argues that the Roman Empire was not on the brink of social or moral collapse What brought it to an end were the barbarians

Roman Imperialism Sir John Robert Seeley, 1889

Decolonizing Roman Imperialism Danielle Hyeonah Lambert, 2024-06-30 Investigates how postcolonialism has motivated Roman scholars to question the paradigm of Romanization

Roman Imperialism Paul J. Burton, 2019-05-13 Rome engaged in military and diplomatic expansionistic state behavior which we now describe as imperialism since well before the appearance of ancient sources describing this activity Over the course of at least 800 years the Romans established and maintained a Mediterranean wide empire from Spain to Syria and sometimes farther east and from the North Sea to North Africa How and why they did this is a perennial source of scholarly controversy Earlier debates over whether Rome was an aggressive or defensive imperial state have progressed to theoretically informed discussions of the extent to which system level or discursive pressures shaped the Roman Empire Roman imperialism studies now encompass such ancillary subfields as Roman frontier studies and Romanization

Roman Imperialism Tenney Frank, 1914

Roman Imperialism Tenney Frank, 1921

War and Imperialism in Republican Rome, 327-70 B.C. William Vernon Harris, 1985 Between 327 and 70 B.C. the Romans expanded their empire throughout the Mediterranean world This highly original study looks at Roman attitudes and behavior that lay behind their quest for power How did Romans respond to warfare year after year How important were the material gains of military success land slaves and other riches commonly supposed to have been merely an incidental result What value is there in the claim of the contemporary historian Polybius that the Romans were driven by a greater and greater ambition to

expand their empire The author answers these questions within an analytic framework and comes to an interpretation of Roman imperialism that differs sharply from the conventional ones

Roman Imperialism and Civic Patronage Brenda Longfellow, 2011 In this book Brenda Longfellow examines one of the features of Roman Imperial cities the monumental civic fountain Built in cities throughout the Roman Empire during the first through third centuries AD these fountains were imposing in size frequently adorned with grand sculptures and often placed in highly trafficked areas Over twenty five of these urban complexes can be associated with emperors Dr Longfellow situates each of these examples within its urban environment and investigates the edifice as a product of an individual patron and a particular historical and geographical context She also considers the role of civic patronage in fostering a dialogue between imperial and provincial elites with the local urban environment Tracing the development of the genre across the empire she illuminates the motives and ideologies of imperial and local benefactors in Rome and the provinces and explores the complex interplay of imperial power patronage and the local urban environment

A Companion to Roman Imperialism Dexter Hoyos, 2012-11-09 A Companion to Roman Imperialism written by a distinguished body of scholars explores Rome's rise to empire and its vast historical impact on her subject peoples and equally momentous on the Romans themselves an impact still felt today

Polybius and Roman Imperialism Donald Walter Baronowski, 2013-05-09 Examines the complex reaction of the Greek historian Polybius to the expansion of Roman power embracing admiration and support tempered by detachment of different kinds personal cultural patriotic and intellectual

Studies of Roman Imperialism William Thomas Arnold, Mrs. Humphry Ward, Charles Edward Montague, 1906

Paul's Letter to the Romans and Roman Imperialism Ian E Rock, 2017-05-25 Ian E Rock demonstrates that the Letter to the Romans may be seen as an attempt by a subordinate group to redress actual and potential issues of confrontation with the Empire and to offer hope even in the face of death Paul demonstrates that it is God's peace and not Rome's peace that is important that loyalty to the exalted Jesus as Lord and to the kingdom of God not Jupiter and Rome leads to salvation that grace flows from Jesus as Christ and Lord and not from the benefactions of the Emperor If the resurrection of Jesus the crucified criminal of the Roman Empire demonstrates God's power over the universe and death the very instrument of Roman control then the Christ believer is encouraged to face suffering and death in the hope of salvation through this power Paul's theology emerges from and is inextricably bound to the politics of his day the Scriptures of his people and to the critical fact that the God who is One and Lord of all is still in charge of the world

Roman Imperialism Andrew Erskine, 2010-05-28 The transformation of Rome from a small central Italian city state into the sole Mediterranean superpower has long proved fascinating and controversial At its height the Roman Empire extended from Britain in the North to Libya in the South and from Spain in the West to Syria in the East It has impressed not only by its extent but also by its longevity Andrew Erskine examines the course and nature of Roman expansion focusing on explanations ancient and modern the impact of Roman rule on the subject and the effect of empire on the imperial power All

these topics have created a tremendous amount of discussion among scholars not least because the study of Roman imperialism has always been informed by contemporary perceptions of international power relations The book is divided into two halves Part I treats some of the main issues in modern debates about Roman imperialism while Part II offers a selection of the most important source material allowing readers to enter these debates themselves **Acts of the Apostles and the Rhetoric of Roman Imperialism** Drew W. Billings, 2017-07-25 Acts of the Apostles is normally understood as a historical report of events of the early church and serves as the organizing centerpiece of the New Testament canon In this book Drew W Billings demonstrates that Acts was written in conformity with broader representational trends and standards found on imperial monuments and in the epigraphic record of the early second century Bringing an interdisciplinary approach to a text of critical importance he compares the methods of representation in Acts with visual and verbal representations that were common during the reign of the Roman emperor Trajan 98 117 CE Billings argues that Acts adopts the rhetoric of Roman imperialism as articulated in the images and texts from the period His study bridges the fields of classics art history gender studies Jewish studies and New Testament studies in exploring how early Christian texts relate to wider patterns in the cultural production of the Roman Empire **Primitive Italy and the Beginnings of Roman Imperialism** Léon Homo, 1926

Eventually, you will agreed discover a further experience and realization by spending more cash. yet when? complete you take on that you require to get those all needs taking into consideration having significantly cash? Why dont you try to get something basic in the beginning? Thats something that will lead you to understand even more approximately the globe, experience, some places, taking into account history, amusement, and a lot more?

It is your very own era to ham it up reviewing habit. along with guides you could enjoy now is **Roman Imperialism** below.
