Roman Italy

Ray Laurence

Roman Italy:

The Roman Family in Italy Beryl Rawson, Paul Richard Carey Weaver, 1999 The family continues to be seen as a central institution in Roman as well as modern Western society The Roman family is often used as a stereotype sometimes of severity sometimes of decadence with its decline often cited as a cause of wider decline and fall Definitions and concepts continue to be modified and nuanced however as the availability of new evidence and new methodologies make possible a much less simplistic picture In this volume the study of family draws on a wide range of disciplines to develop the intertwined themes of status sentiment and space For example on status there are contributions about Junian Latins and a survey of senators monuments while sentiment is represented by a gloomy but convincing picture of old age and a paper on the sentimental ideal which argues that conflict as well as concord is a feature of family life Space is represented among others by the contribution on who commemorates whom in Roman Italy pointing up the regional variations in custom and the difficulties in tracing complete families The final contributions focus on the house how people lived in the Roman house the use of rooms and the artefacts that might indicate this use The book makes use of many types of evidence from the legal and literary to the iconographical and archaeological Visual and material evidence play an important role in reconstructing real lives in considerable colour and variety The book moves beyond the city of Rome to the rest of Roman Italy and even into the provinces just as Roman culture moved outwards and mingled with other cultures Chronologically too there are new directions towards the later Empire and Christianity So although the contributors do not abandon any of the territory already gained in Rome nor literary and epigraphical sources nor the late Republic or early Empire there is an exciting sense of new discovery

Roselaar, 2019-09-19 The Roman

conquest of Italy in the Republican period from c 400 to 50 BC led to widespread economic changes in which the conquered Italians played an important role Italy's Economic Revolution analyses the integration of Italy during this period and explores the interplay between economic activities and unification in its civic legal social and cultural senses On one hand it investigates whether Italy became more integrated economically following the Roman conquest and traces the widely varying local reactions to the globalization of the Italian economy on the other it examines whether and how economic activities carried out by Italians contributed to the integration of the Italian peoples into the Roman framework Throughout the Republican period Italians were able to profit from the expansion of the Roman dominion in the Mediterranean and the new economic opportunities it afforded which led to gradual changes in institutions culture and language through overseas trade and commercial agriculture they had gained significant wealth which they invested in the Italian landscape and they were often ahead of Romans when it came to engagement with Hellenistic culture However their economic prosperity and cultural sophistication did not lead to civic equality nor to equal opportunities to exploit the territories the Italians had conquered under Rome's lead Eventually the Italians rose in rebellion against Rome in the Social War of 91-88 BC after which they were finally granted Roman citizenship This volume investigates not only whether and how economic interaction played a role in this civic integration but also highlights the importance of Roman citizenship as an instrument of further economic political social and cultural integration between Romans and Italians
