Roman Rhetoric Revolution And The Greek Influence:

Roman Rhetoric Richard Leo Enos, 2008-10-17 Greek and Roman traditions dominate classical rhetoric. Conventional historical accounts characterize Roman rhetoric as an appropriation and modification of Greek rhetoric, particularly the rhetoric that flourished in fifth and fourth centuries BCE Athens. However, the origins, nature, and endurance of this Greco-Roman relationship have not been thoroughly explained. Roman Rhetoric Revolution and the Greek Influence reveals that while Romans did benefit from Athenian rhetoric, their own rhetoric was also influenced by later Greek and non-Hellenic cultures, particularly the Etruscan civilization that held hegemony over all of Italy for hundreds of years before Rome came to power.

An Introduction to Classical Rhetoric James D. Williams, 2009-05-04 An anthology of primary texts in translation. An Introduction to Classical Rhetoric offers an overview of the social, cultural, and intellectual factors that influenced the development and growth of rhetoric during the classical period. Uses primary source material to analyze rhetoric from the Sophists through St. Augustine. Provides an in-depth introduction to the period as well as introductions to each author and each selection. Includes study guides to help students develop multiple perspectives on the material, stimulate critical thinking, and provide starting points for dialogue. Highlights include Gorgias's Palamedes, Antiphon's Truth, Isocrates' Helen, and Plato's Protagoras. Each selection is followed by suggested writing topics and a short list of suggested additional readings.

Rhetoric before and beyond the Greeks Carol S. Lipson, Roberta A. Binkley, 2012-02-01 Focusing on ancient rhetoric outside of the dominant Western tradition, this collection examines rhetorical practices in Egypt, Mesopotamia, Israel, and China. The book uncovers alternate ways of understanding human behavior and explores how these rhetorical practices both reflected and influenced their cultures. The essays address issues of historiography and raise questions about the application of Western rhetorical concepts to these very different ancient cultures. A chapter on suggestions for teaching each of these ancient rhetorics is included.

Rhetorical Adaptation in the Greek Historians, Josephus, and Acts vol. I John M. Duncan, 2022-10-24 Greco-Roman rhetorical theorists insist that speakers must adapt their speeches to their audiences in order to maximize persuasiveness and minimize alienation. Ancient historians adorn their narratives with accounts of attempts at such rhetorical adaptation, the outcomes of which decisively impact the subsequent course of events. These depictions of speaker-audience interactions moreover convey crucial didactic/persuasive insights to the historians' own audiences. This monograph presents a detailed comparative analysis of the intra- and extra-textual functions of speeches and audience responses in Greek historiography, Josephus, and Acts, with special emphasis on Luke's distinctive depiction of the apostles as adaptable yet frequently alienating orators. This is volume I of a set of two volumes.

Greek Rhetoric Before Aristotle Richard Leo Enos, 2011-11-29 Recent archaeological discoveries coupled with long lost but now available epigraphical evidence and a more expansive view of literary sources provide new and dramatic evidence of the emergence of rhetoric in ancient Greece. Many of these artifacts gathered through onsite fieldwork in Greece are analyzed in this revised

and expanded edition of *Greek Rhetoric Before Aristotle* This new evidence along with recent developments in research methods and analysis reveal clearly that long before Aristotle's Rhetoric long before rhetoric was even stabilized into formal systems of study in Classical Athens nascent pre disciplinary rhetorics were emerging throughout Greece *A Synoptic History of Classical Rhetoric* James J. Murphy, Richard A. Katula, Michael Hoppmann, 2013-07-24 Continuing its tradition of providing students with a thorough review of ancient Greek and Roman rhetorical theory and practices *A Synoptic History of Classical Rhetoric* is the premier text for undergraduate courses and graduate seminars in the history of rhetoric Offering vivid examples of each classical rhetor rhetorical period and source text students are led to understand rhetoric's role in the exchange of knowledge and ideas Completely updated throughout Part I of this new edition integrates new research and expanded footnotes and bibliographies for students to develop their own scholarship Part II offers eight classical texts for reading study and criticism and includes discussion questions and keys to the text in Part I **Feminist Circulations**

Adaptive Rhetoric Alex C. Parrish, 2013-11-07 Rhetorical scholarship has for decades relied solely on culture to explain persuasive behavior While this focus allows for deep explorations of historical circumstance it neglects the powerful effects of biology on rhetorical behavior how our bodies and brains help shape and constrain rhetorical acts Not only is the cultural model incomplete but it tacitly endorses the fallacy of human exceptionalism By introducing evolutionary biology into the study of rhetoric this book serves as a model of a biocultural paradigm Being mindful of biological and cultural influences allows for a deeper view of rhetoric one that is aware of the ubiquity of persuasive behavior in nature Human and nonhuman animals and even some plants persuade to survive to live love and cooperate That this broad spectrum of rhetorical behavior exists in the animal world demonstrates how much we can learn

from evolutionary biology By incorporating scholarship on animal signaling into the study of rhetoric the author explores how communication has evolved and how numerous different species of animals employ similar persuasive tactics in order to overcome similar problems This cross species study of rhetoric allows us to trace the origins of our own persuasive behaviors providing us with a deeper history of rhetoric that transcends the written and the televised and reveals the artifacts of our communicative past

Contest(ed) Writing Mary Lamb,2013-01-14 This collection is about writing contests a vibrant rhetorical practice traceable to rhetorical performances in ancient Greece In their discussion of contests cultural work the scholars who have contributed to this collection uncover important questions about our practices For example educational contests as epideictic rhetoric do indeed celebrate writing but does this celebration merely relieve educators of the responsibility of finding ways for all writers to succeed Contests designed to reward single winners and singly authored works admirably celebrate hard work but do they over emphasize exceptional individual achievement over shared goals and communal reward for success Taking a cultural rhetorical approach to contests each chapter demonstrates the cultural work the contests accomplish The essays in Part I examine contests and riddles in classical Greek and Roman periods educational contests in eighteenth century Scotland and the Lyceum movement in the Antebellum American South The next set of essays discusses how contests leverage competition and reward in educational settings medieval universities American turn of the century women s colleges twenty first century scholarship essay contests and writing contests for speakers of other languages at the University of Portsmouth The last set of essays examines popular contests including poetry contests in Youth Spoken Word popular American contests designed by marketers and twenty first century podcasting competitions This collection then takes up contests as a cultural marker of our values assumptions and relationships to writing contests and competition

Expel the Pretender Eve Wiederhold, 2015-04-01 Political fights are not waged over who is speaking the truth but over whether any given claim seems to be authentic Expel the Pretender Rhetoric Renounced and the Politics of Style examines how rhetorical style influences judgments about how to communicate integrity and good will Eve Wiederhold argues that attitudes about style's significance to judgment are both undertheorized and over determined especially when style is regarded as an embellishment rather than as a constitutive aspect of language use Examining news reports covering controversial speakers including President Bill Clinton Linda Tripp and the Rev Jeremiah Wright she demonstrates how rhetorical style is both belittled and yet remains a focal point for assessing public figures who have been publicly rebuked and discredited Expel the Pretender claims style as a conflicted site of materiality critiquing contemporary rhetorical theories that configure style as a dependable resource for democratic inquiry Wiederhold argues that conceptions of style's significance to judgment must be reframed to understand how we make decisions about who and what to believe

Time and Ancient Medicine Kassandra J. Miller,2023-08-08 Time and Ancient Medicine is the first monograph to explore on the one hand how the introduction of new timekeeping technologies namely sundials and water clocks affected the practice rhetoric and philosophy of ancient medicine and on the other hand how medical timekeeping practices affected engagement with time elsewhere in society The study seeks first to offer a chronological narrative of how timekeeping technologies and medical practices evolved and influenced one another in ancient Greece and Rome with consideration of relevant Pharaonic Egyptian and Assyro Babylonian precedents Kassandra J Miller turns to a series of case studies drawn from the Roman Imperial period to investigate thematic questions asking how debates over medical timekeeping interacted with debates over proper scientific methodology the status of medicine as a formal art and the relationships between medicine and other disciplines like mathematics astronomy and astrology Throughout this study places epigraphic artistic

and other material evidence for hourly timekeeping in dialogue with selections from medical literature some of which has not previously been published in modern language translation Ultimately this study reveals that time and timekeeping played fundamental roles in ancient medical debates and practices and challenges the traditional narrative that the social history of clock time only begins with the invention of the mechanical clock in the Medieval period It offers new insights into the specific ways that physicians of the ancient Mediterranean engaged with their evolving temporal landscapes and raises questions about the relationships between time and medicine in the modern day
