Rosewell,2008 Surveying the images and iconography that made the medieval church a riot of colour this book brings together many of the best surviving examples of medieval church wall paintings It uses new technologies to allow us to visualise these works as the artists first intended Rosewell s text accompanies the images *Hastening Toward Prague* Lisa Wolverton,2012-10-09 This is the first comprehensive study in English of Czech society and politics in the High Middle Ages It paints a vivid portrait of a flourishing Christian community in the decades between 1050 and 1200 Bohemia s social and political landscape remained remarkably cohesive centered on a throne in Prague the Premyslid duke who occupied it a society of property owning freemen and the ascendant Catholic church In decades fraught with political violence these provided a focal point for Czech identity and political order In this the Czechs heavenly patron Saint Vaclav and the German emperor beyond their borders too had a role to play An impressive systematic dissection of a medieval polity *Hastening Toward Prague* is based on a close rereading of written and material artifacts from the eleventh and twelfth centuries Arguing against a view that puts state or nation formation at heart Wolverton examines interactions among dukes emperors freemen and the church on their own terms asking what powers the dukes of Bohemia possessed and how they were exercised within a broader political community Evaluating not only the foundations and practice of ducal lordship but also the form and progress of resistance to it she argues in particular that violence was not a sign of political instability but should be interpreted as reflecting a dynamic economy of checks and balances in a fluid mature political system This also reveals the values and strategies that sustained the Czech Lands as a community The study honors the complexity and dynamism of the medieval exercise of power **Romanesque Painting from the Eleventh to the Thirteenth Century** André Grabar,Carl Adam Johan Nordenfalk,1958 *Dictionary Catalog of the Art and Architecture Division* New York Public Library. Art and Architecture Division,1975 **Gothic Architecture** Paul Frankl,Paul Crossley,2000-01-01 This magisterial study of Gothic architecture traces the meaning and development of the Gothic style through medieval churches across Europe Ranging geographically from Poland to Portugal and from Sicily to Scotland and chronologically from 1093 to 1530 the book analyzes changes from Romanesque to Gothic as well as the evolution within the Gothic style and places these changes in the context of the creative spirit of the Middle Ages In its breadth of outlook its command of detail and its theoretical enterprise Frankl s book has few equals in the ambitious Pelican History of Art series It is single minded in its pursuit of the general principles that informed all aspects of Gothic architecture and its culture In this edition Paul Crossley has revised the original text to take into account the proliferation of recent literature books reviews exhibition catalogues and periodicals that have emerged in a variety of languages New illustrations have also been included **Art of the Medieval World** George Zarnecki,1975 **The Apocalypse and the Shape of Things to Come** Frances Carey,1999-01-01 The Book of Revelation s legacy of visual imagery is evaluated here from the 11th century to the end of World War 2 illuminated manuscripts books prints and drawings of apocalyptic phases are examined **Catalogue of the**
