This companion provides a state of the art assessment of the influence of the foremost iconographers as well as the methodologies employed and themes that underpin the discipline. The first section focuses on influential thinkers in the field while the second covers some of the best known methodologies. The third and largest section looks at some of the major themes in medieval art. Taken together the three sections include thirty eight chapters each of which deals with an individual topic. An introduction, historiographical evaluation and bibliography accompany the individual essays.
