

Class 4 Project

The Romans

This term we are studying the Romans. This project involves you researching a topic and presenting it as a fact sheet or poster.

Due date: Tuesday 24th September

1. Choose one of these topics to research:

- Roman Religion (gods and myths)
- Roman Sports and Leisure (gladiators, competitions)
- Roman Towns (e.g. houses and town planning)
- Roman Homes (e.g. mosaics and food)
- Roman Army (e.g. soldiers, road building)

2. You can visit the library and choose books that will give you some information on your topic or search the Internet.

4. Create a one page fact sheet that has pictures and facts written in sections. You can use a computer, or handwrite it and stick or draw pictures on. Your work should be on A3 paper (no bigger than A3 and not on more than one page, if you don't have A3 paper let us know!), you could of course make your project into a 3D design of a Roman town or soldier - use your imagination!!

5. As always, think carefully about your presentation. How should you set out your facts? Where would your pictures look best? Would a border make it look neat? Remember to include subheadings, a title and colour to make your fact sheet eye-catching.

Be creative and try your best!!!

On the other side are some websites and hints that might help get you started!

Documentary Sources in Ancient Near Eastern and Greco-Roman Economic History Heather D. Baker, Michael

Jursa,2014-08-31 This volume breaks new ground in approaching the Ancient Economy by bringing together documentary sources from Mesopotamia and the Greco Roman world Addressing textual corpora that have traditionally been studied separately the collected papers overturn the conventional view of a fundamental divide between the economic institutions of these two regions The premise is that while controlling for differences texts from either cultural setting can be brought to bear on the other and can shed light through their use as proxy data on such questions as economic mentalities and market development The book also presents innovative approaches to the quantitative study of large corpora of ancient documents The resulting view of the Ancient Economy is much more variegated and dynamic than traditional primitivist views would allow The volume covers the following topics Babylonian house size data as an index of urban living standards the Old Babylonian archives as a source for economic history Middle Bronze Age long distance trade in Anatolia long term economic development in Babylonia from the 7th to the 4th century BC legal institutions and agrarian change in the Roman Empire papyrological evidence for water lifting technology money circulation and monetization in Late Antique Egypt the application of Social Network Analysis to Babylonian cuneiform archives price trends in the ancient Near East and Mediterranean in the Hellenistic and Roman periods as well as the effects of locust plagues on prices **Overloaded and Underprepared**
