Self, Text, and Romantic Irony Frederick Garber, 2014-07-14 Frederick Garber takes up in detail several problems of the self broached in his previous book *The Autonomy of the Self* from Richardson to Huysmans Princeton 1982 Using patterns in Byron s canon as models he focuses on the relations of self making and text making as a central Romantic issue For Byron and many of his contemporaries putting a text into the world meant putting a self there along with it and it also meant that the difficulties of establishing the one inevitably reflect the parallel difficulties in the other Professor Garber discusses some of Byron s key texts and shows how their development leads to an impasse involving both self and text Byron s way out of these dilemmas was the mode of Romantic irony of which he is one of the greatest exemplars The study then moves into broader areas of Anglo European literature its ultimate purpose being to argue not only for the efficacy of such irony but for its position as something more than a mere alternative to Romantic organicism Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of

the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Romantic Rocks, Aesthetic Geology Noah Heringman, 2011-02-23 Why are rocks and landforms so prominent in British Romantic poetry Why for example does Shelley choose a mountain as the locus of a voice to repeal large codes of fraud and woe Why does a cliff in the boat stealing episode of Wordsworth's *Prelude* chastise the young thief Why is petrification or stonifying in Blake's coinage the ultimate figure of dehumanization Noah Heringman maintains that British literary culture was fundamentally shaped by many of the same forces that created geology as a science in the period 1770-1820 He shows that landscape aesthetics the verbal and social idiom of landscape gardening natural history the scenic tour and other forms of outdoor improvement provided a shared vernacular for geology and Romanticism in their formative stages *Romantic Rocks Aesthetic Geology* reexamines a wide range of eighteenth and nineteenth century poetry to discover its relationship to a broad cultural consensus on the nature and value of rocks and landforms Equally interested in the initial surge of curiosity about the earth and the ensuing process of specialization Heringman contributes to a new understanding of literature as a key forum for the modern reorganization of knowledge

Experimental American Poetry and the New Organic Form João Paulo Guimarães, 2025-01-09 Arguing that the 19th century concept of living form the idea that like an organism a poem develops itself from within according to an internal logic is not as some critics have argued anathema to avant garde writing this book contends that the concept survived and flourished in the work of a number of contemporary experimental poets Indebted to 19th century science the notion of a living form endured throughout the 20th century and the poetic vanguard s word games and collages mirrored the disjunctive frameworks that redefined how scientists made sense of life in the age of networks and non linear systems Featuring readings of texts from poets including Ed Dorn A M J Crawford P Inman Chris Vitiello and Christian B k this book shows how a number of vanguardist poets explores the commonalities they detected between nature s processes of creation and their own methods of composition In doing so it highlights devices like punning paragrammatic play metamorphic figuration and memetic repetition mechanisms these poets find at work in the cybernetic genetic and digital systems they investigate in their poems

The Truth about Romanticism Tim Milnes, 2010-06-03 How have our conceptions of truth been shaped by romantic literature This question lies at the heart of this examination of the concept of truth both in romantic writing and in modern criticism The romantic idea of truth has long been depicted as aesthetic imaginative and ideal Tim Milnes challenges this picture demonstrating a pragmatic strain in the writing of Keats Shelley and Coleridge in particular that bears a close resemblance to the theories of modern pragmatist thinkers such as Donald Davidson and Jürgen Habermas Romantic pragmatism Milnes argues was in turn influenced by recent developments within linguistic empiricism This book will be of interest to readers of romantic literature but also to philosophers literary theorists and intellectual historians
