**Friedrich Schlegel and the Emergence of Romantic Philosophy** Elizabeth Millán, 2012-02-01 This book addresses the philosophical reception of early German Romanticism and offers the first in depth study in English of the movement's most important philosopher Friedrich Schlegel presenting his philosophy against the background of the controversies that shaped its emergence Elizabeth Millán Zañabert begins by distinguishing early German Romanticism from classical German Idealism under which it has all too often been subsumed and then explores Schlegel's romantic philosophy and his rejection of first principles by showing how he responded to three central figures of the post-Kantian period in Germany Jacobi Reinhold and Fichte as well as to Kant himself She concludes with a comprehensive critique of the aesthetic and epistemological consequences of Schlegel's thought with special attention paid to his use of irony

*Shakespeare and the Romantics* David Fuller, 2021-02-11 Romantic criticism of which Shakespeare is the central figure invented many of the modes of modern criticism It is also distinct from many contemporary academic norms Engaged with the social and intellectual currents of an age of

revolutionary change it is experimental writerly and individually expressive Above all it is creative in response to the difficulties of understanding aesthetic experience in new ways and in setting those experiences in new cultural and political contexts that Shakespeare's work helped to shape This book presents the main currents of these exciting but relatively little known engagements with Shakespeare and through Shakespeare with the theory and practice of criticism in England Germany and France from the 1760s in Germany to the aftermath of the Romanticism in France It also discusses Shakespeare in the theatre of the period realist stagings which prefigure Shakespeare films adaptations which fitted Shakespeare to contemporary tastes and bare stage experiments which foreshadow modes of contemporary theatre A chapter on scholarship in the period shows Shakespeare as central to modern editing and historical criticism Much of the writing discussed is by men and women whose focus is not primarily critical but creative poetry Coleridge Keats Heine fiction Stendhal drama Lessing or all three Goethe Hugo cultural critique Jameson de Sta l philosophy Hamann Herder politics Hazlitt Guizot aesthetics the Schlegel circle or new original work in other media Berlioz Delacroix Chass riau It is writing directed to new modes of creating as well as new modes of understanding Metaphors of Depth in German Musical Thought Holly Watkins, 2011-09-01 What does it mean to say that music is deeply moving Or that music's aesthetic value derives from its deep structure This study traces the widely employed trope of musical depth to its origins in German language music criticism and analysis From the Romantic aesthetics of E T A Hoffmann to the modernist theories of Arnold Schoenberg metaphors of depth attest to the cross pollination of music with discourses ranging from theology geology and poetics to psychology philosophy and economics The book demonstrates that the persistence of depth metaphors in musicology and music theory today is an outgrowth of their essential role in articulating and transmitting Germanic cultural values While musical depth metaphors have historically served to communicate German nationalist sentiments Watkins shows that an appreciation for the broad connotations of those metaphors opens up exciting new avenues for interpretation

**The Cambridge Companion to Edmund Burke** David Dwan, Christopher Insole, 2012-10-22 Edmund Burke prided himself on being a practical statesman not an armchair philosopher Yet his responses to specific problems rebellion in America the abuse of power in India and Ireland or revolution in France incorporated theoretical debates within jurisprudence economics religion moral philosophy and political science Moreover the extraordinary rhetorical force of Burke's speeches and writings quickly secured his reputation as a gifted orator and literary stylist This Companion provides a comprehensive assessment of Burke's thought exploring all his major writings from his early treatise on aesthetics to his famous polemic Reflections on the Revolution in France It also examines the vexed question of Burke's Irishness and seeks to determine how his cultural origins may have influenced his political views Finally it aims both to explain and to challenge interpretations of Burke as a romantic a utilitarian a natural law thinker and founding father of modern conservatism

**Writing Time** Sean Franzel, 2023-11-15 Cowinner of the Aldo and Jeanne Scaglione Prize for Studies in Germanic

Languages and Literatures Writing Time shows how serial literature based in journals and anthologies shaped the awareness of time at a transformative moment in the European literary and political landscapes Sean Franzel explores how German speaking authors and editors write time both by writing about time and by mapping time itself through specific literary formats Through case studies of such writers as F J Bertuch K A B ttinger J W Goethe Ludwig B rne and Heinrich Heine Franzel analyzes how serial writing predicated on open ended continuation becomes a privileged mode of social commentary and literary entertainment and provides readers with an ongoing history of the present or Zeitgeschichte Drawing from media theory and periodical studies as well as from Reinhart Koselleck s work on processes of temporalization and untimely models of historical time Writing Time presents smaller literary forms the urban tableau cultural reportage and caricature as new ways of imagining temporal unfolding recentering periodicals and other serial forms at the heart of nineteenth century print culture

**Contemporary German Fiction: Hans Bender, Gerhard Köpf, Siegfried Lenz, and Others** A. Leslie Willson, 1996-07-01 *Moderate and Radical Liberalism* Nathaniel Wolloch, 2022-01-31 This book provides a new reading of one of the most significant chapters in the history of social and political thought the transition from the late Enlightenment to early liberalism In contrast with prevailing interpretations of the emergence of liberalism which emphasize the conservative liberal reaction of the nineteenth century it presents a more optimistic depiction of how formerly radical principles of the Enlightenment were eventually adopted by the mainstream of moderate early liberalism To substantiate this innovative interpretation the book provides a detailed history of late Enlightenment and early liberal social and political thought on both sides of the Atlantic See inside the book

**Works of Love** Robert L. Perkins, 1999 To claim that Works of Love is an important philosophical essay is to assume hazardous burden of proof The book s title is an allusion to the Bible s injunction that we should love our neighbor as we love ourselves a far cry far instance from Diotima s ladder of erotic desire up which we climb from the love of bodies until we catch a vision of that single sea of beauty beauty itself Plato Symposium This contrast given that some of some of our neighbors may not be particularly likable or one may even be a determined enemy suggests immediately to some that a book with such an obviously religious title must be excessively moralistic and at best full of sermon helps for the harried clergy or at worst laden with rules for the unlearned laity A casual perusal of a few paragraphs however shows these put down views of the book to be unfounded

*Gaither's Dictionary of Scientific Quotations* Carl C. Gaither, Alma E. Cavazos-Gaither, 2008-01-08 Scientists and other keen observers of the natural world sometimes make or write a statement pertaining to scientific activity that is destined to live on beyond the brief period of time for which it was intended This book serves as a collection of these statements from great philosophers and thought influencers of science past and present It allows the reader quickly to find relevant quotations or citations Organized thematically and indexed alphabetically by author this work makes readily available an unprecedented collection of approximately 18 000 quotations related to a broad range of scientific topics

**Malicious Objects, Anger Management,**

**and the Question of Modern Literature** Jörg Kreienbrock, 2013 Why do humans get angry with objects Why is it that a malfunctioning computer a broken tool or a fallen glass causes an outbreak of fury How is it possible to speak of an inanimate object's recalcitrance obstinacy or even malice When things assume a will of their own and seem to act out against human desires and wishes rather than disappear into automatic unconscious functionality the breakdown is experienced not as something neutral but affectively as rage or as outbursts of laughter Such emotions are always psychosocial public rhetorically performed and therefore irreducible to a private feeling By investigating the minutest details of life among dysfunctional household items through the discourses of philosophy and science as well as in literary works by Laurence Sterne Jean Paul Friedrich Theodor Vischer and Heimito von Doderer Kreienbrock reconsiders the modern bourgeois poetics that render things the way we know and suffer them

**Philosophy and Revolution** Stathis Kouvelakis, 2019-01-29 Throughout the nineteenth century German philosophy was haunted by the specter of the French Revolution Kant Hegel and their followers spent their lives wrestling with its heritage trying to imagine a specifically German path to modernity a revolution without revolution Trapped in a politically ossified society German intellectuals were driven to brood over the nature of the revolutionary experience In this ambitious and original study Stathis Kouvelakis paints a rich panorama of the key intellectual and political figures in the effervescence of German thought before the 1848 revolutions He shows how the attempt to chart a moderate reformist path entered into crisis generating two antagonistic perspectives within the progressive currents of German society On the one side were those socialists among them Moses Hess and the young Friedrich Engels who sought to discover a principle of harmony in social relations bypassing the question of revolutionary politics On the other side the poet Heinrich Heine and the young Karl Marx developed a new perspective articulating revolutionary rupture proletarian hegemony and struggle for democracy thereby redefining the very notion of politics itself

*German Aesthetics* J. D. Mininger, Jason Michael Peck, 2016-09-22 German Aesthetics provides English speaking audiences with accessible explanations of fundamental concepts from the German tradition of philosophical aesthetics Organized with the understanding that aesthetic concepts are often highly contested intellectual territory and that the usage and meanings of terms often shift within historical cultural and political debates this volume brings together scholars of German literature philosophy film studies musicology and history to provide informative and creative interpretations of German aesthetics that will be useful to students and scholars alike

**Democracy and the Divine** Alexandra Aidler, 2019-10-10 Advancing the thesis that a contract between the political members of a community must lead to the highest form of social inclusion Thomas Hobbes's *Leviathan* 1651 has provided the groundwork for democracies around the world Yet Hobbes also states that this contract can only be upheld by a strong sovereign whose authority is derived from God How can a democracy be defined then as truly inclusive when it essentially grows out of a theocracy that thinks about human beings in terms of reduction In *Democracy and the Divine* The Phenomenon of Political Romanticism Alexandra Aidler argues

that despite modern democracy's problematic heritage one should not abandon its claims to religion. Articulating a democracy that is based on the religious principle of giving oneself to another, Adorno develops a political theology of democracy that is built upon two traditions in political thought that have rarely been examined thus far side by side for their contributions to this field: German Romanticism as exemplified by Franz von Baader and Friedrich Schlegel and the theological turn in French philosophy as represented by Jacques Derrida and Jacques Rancière. *Heinrich Heine* Jeffrey L. Sammons, 2006

*The Myth and Identity of the Romantic Artist in European Literature* Elena Anastasaki, 2022-08-04 This study addresses the question of artistic identity and the myth of the artist as it has been shaped by the artists themselves. While the term artist is to be understood in a broad sense, the focus of this study is the literature of the Romantic tradition. Identity is largely perceived as a construct, and a central hypothesis of this book concerns its aesthetic value and the ways it creates dominant narratives of self-perception that produce powerful myths. The construction of the artist's identity, be it collective or personal, rests on a series of aesthetic praxes. Caught between the mythic idealisation of poetic genius and its social devaluation, the Romantic artist seeks to create a place for himself and in doing so he engages in his own mythmaking. This process is studied in an interdisciplinary perspective, approaching texts and writers from different traditions. The study analyses various typologies of the artist, numerous mythmaking strategies as well as several postural techniques, all of which have sketched major direct or indirect fictional self-portraits in the European tradition.

**European Intellectual History from Rousseau to Nietzsche** Frank Miller Turner, 2014-01-01 Turner's lectures distilled modern European history from the Enlightenment to the dawn of the twentieth century and conveyed the turbulence of a rapidly changing era in European history through its ideas and leading figures.
