between the upheavals of the Stuart century and the reformation of the Victorian era **The Mental Universe of the English Nonjurors** John William Klein, 2021-09-21 The Glorious Revolution of 1688 which pushed James II from the throne of England was not glorious for everyone in fact for many it was a great disaster Those who had already taken an oath of allegiance to James II and to his heirs and lawful successors now pondered how they could take a second oath to William and Mary Those who initially refused to swear the oaths were called Nonjurors In 1691 Archbishop Sancroft eight bishops and four hundred clergy of the Church of England as well as a substantial number of scholars at Oxford and Cambridge were deprived removed from their offices and their license to practice removed The loss of this talent to the realm was incalculable Ten different paradigms shaped the English Nonjurors worldview Passive Obedience was paramount the Apostolic Succession essential a Cyprianist mentality colored everything they held a conscientious regard for oaths the Usages Controversy brought Tradition to the fore printing presses replaced lost pulpits patronage was a means of protection and proliferation they lived with a hybridized conception of time creative women spiritual writers complemented male bishops and a global ecumenical approach to the Orthodox East was visionary These ten operated synergistically to create an effective tool for the Nonjurors survival and success in their mission The Nonjurors influence out of all proportion to their size was due in large measure to this mentality Their unique circumstances prompted creative thinking and they were superb in that endeavor These perspectives constituted the infrastructure of the Nonjurors world and they help us to see the early eighteenth century not only as a time of rapid change but also as an era of persistent older religious mentalities adapted to new circumstances The Destruction of the Christian Tradition, Updated and Revised Rama P. Coomaraswamy, 2006-01-27 Concentrating on the post Vatican II revisions of its teachings this book tells the story of the destruction of the Roman Catholic tradition a defining event of the twentieth century Catholic Devotion in Victorian England Mary Heimann, 1995 Heimann offers a controversial analysis of the influence of long established recusant devotions and attitudes in the new context of the reestablishment of Roman Catholicism in England from the mid nineteenth century **The Tory World** Jeremy Black, 2016-03-03 Political decisions are never taken in a vacuum but are shaped both by current events and historical context In other words long term developments and patterns in which the accumulated memory of what came earlier can greatly and sometimes subconsciously influence subsequent policy choices Working forward from the later seventeenth century this book explores the deep history of the changing and competing understandings within the Tory party of the role Britain has aspired to play on a world stage Conservatism has long been one of the major British political tendencies committed to the defence of established institutions with a strong sense of the national interest and embracing both liberal and authoritarian views of empire The Tory party has moreover at several times been deeply divided if not convulsed by different perspectives on Britain's international orientation and different positions on foreign and imperial policy Underlying Tory beliefs upon which views of Britain's global role were built were often not stated but assumed As a result they tend to

be obscured from historical view This book seeks to recover and reconsider those beliefs and to understand how the Tory party has sought to navigate its way through the difficult pathways of foreign and imperial politics and why this determination outlasted Britain's rapid decolonisation and was apparently remarkably little affected by it With a supporting cast from Pitt to Disraeli Churchill to Thatcher the book provides a fascinating insight into the influence of history over politics Moreover it argues that there has been an inherent politicisation of the concept of national interests such that strategic culture and foreign policy cannot be understood other than in terms of a historically distorted political debate

The Church's Worship Thaddaeus A. Schnitker, 2009-11-01 A Bibliography of British History, 1914-1989 Keith Robbins, American Historical Association, Royal Historical Society (Great Britain), 1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index

Edward Bouverie Pusey and the Oxford Movement Rowan Strong, Carol Engelhardt Herringer, 2012-10-15 The Oxford Movement initiating what is commonly called the Catholic Revival of the Church of England and of global Anglicanism more generally has been a perennial subject of study by historians since its beginning in the 1830s But the leader of the movement whose name was most associated with it during the nineteenth century Edward Bouverie Pusey has long been neglected by historical studies of the Anglican Catholic Revival This collection of essays seeks to redress the negative and marginalizing historiography of Pusey and to increase current understanding of both Pusey and his culture The essays take Pusey's contributions to the Oxford Movement and its theological thinking seriously most significantly they endeavour to understand Pusey on his own terms rather than by comparison with Newman or Keble The volume reveals Pusey as a serious theologian who had a significant impact on the Victorian period both within the Oxford Movement and in wider areas of church politics and theology This reassessment is important not merely to rehabilitate Pusey's reputation but also to help our current understanding of the Oxford Movement Anglicanism and British Christianity in the nineteenth century

The Papacy in the Age of Totalitarianism, 1914-1958 John Pollard, 2014-10-30 The Papacy in the Age of Totalitarianism 1914 1958 examines the most momentous years in papal history Popes Benedict XV 1914 1922 Pius XI 1922 1939 and Pius XII 1939 1958 faced the challenges of two world wars and the Cold War and threats posed by totalitarian dictatorships like Italian Fascism German National Socialism and Communism in Russia and China The wars imposed enormous strains upon the unity of Catholics and the hostility of the totalitarian regimes to Catholicism lead to the Church facing persecution and martyrdom on a scale similar to that experienced under the Roman Empire and following the French Revolution At the same time these were years of growth development and success for the papacy Benedict healed the wounds left by the modernist witch hunt of his predecessor and re established the papacy as an influence in international affairs through his peace diplomacy during the First World War Pius XI resolved the Roman Question with Italy and put papal finances on a sounder footing He also helped reconcile the Catholic Church and science by establishing the Pontifical Academy of Sciences and took the first steps to move the Church away from entrenched anti Semitism Pius XI continued his predecessor's policy of the indigenisation of the missionary churches in preparation for decolonisation Pius XII fully embraced the media and other means of publicity and with his infallible promulgation of the Assumption in 1950 he took papal absolutism and centralism to such heights that he has been called the last real pope Ironically he also prepared the way for the Second Vatican Council
