Peter Joseph Chandlery

Rome Palaces And Gardens:

Rome, Palaces and Gardens Sophie Bajard, Raffaello Bencini, 1997 18 of the most stately retreats found in Rome and the surrounding countryside from the Villa Medici to the splendid Villa Farnesina **Palaces and Gardens in Rome** Francesco

Pannini, Gardens of the Roman World Patrick Bowe, 2004 Romans loved their gardens whether they were the grand gardens of imperial country estates or the small private spaces tucked behind city houses They treasured gardens both as places for relaxation and as plots to grow ornamental plants as well as fruits and vegetables The soothing sound of bubbling fountains often added further to the pleasures of life in the garden Romans constructed gardens in every corner of their empire from Britain to North Africa and from Portugal to Asia Minor Long after their empire collapsed the gardens they had so carefully planted continued to exert influence in the farflung corners of their former world This book describes the variety of Roman gardens throughout the empire from the humblest to the most lavish including such well known places as Hadrian's Villa in Tivoli and the gardens of Pompeii and Herculaneum The continued influence of Roman gardens is traced through Arabic medieval and Renaissance gardens to the present day Many of the lavish illustrations were commissioned for this book **Display of Art in the Roman Palace, 1550-1750** Gail Feigenbaum, 2014-08-01 This book explores the principles

of the display of art in the magnificent Roman palaces of the early modern period focusing attention on how the parts function to convey multiple artistic social and political messages all within a splendid environment that provided a model for aristocratic residences throughout Europe Many of the objects exhibited in museums today once graced the interior of a Roman Baroque palazzo or a setting inspired by one In fact the very convention of a paintings gallery the mainstay of museums traces its ancestry to prototypes in the palaces of Rome Inside Roman palaces the display of art was calibrated to an increasingly accentuated dynamism of social and official life activated by the moving bodies and the attention of residents and visitors Display unfolded in space in a purposeful narrative that reflected rank honor privilege and intimacy With a contextual approach that encompasses the full range of media from textiles to stucco this study traces the influential emerging concept of a unified interior It argues that art history even the emergence of the modern category of fine art was worked out as much in the rooms of palaces as in the printed pages of Vasari and other early writers on art
