## **Ron Browns Body:**

**Ron Brown's Body** Jack Cashill, 2004 The mysterious death of Ron Brown has caused much controversy and suspicion and in this investigative book Cashill takes a close look at Brown's checkered career as Clinton fund raiser and commerce secretary and consequently exposes the Clintons' dirty relentless practices for getting financial backing. Cashill answers the most trenchant questions surrounding Brown's rise and fall: Why did his plane crash? Why did the White House suppress an investigation? What was the purpose of Brown's trade missions? And what larger forces caused the Clintons to seek international cash? Using the case of Ron Brown's untimely death as a touchstone for the Clintons' unseemly and unsavory practices in the White House, Cashill explores the seedy depths of the most corrupt administration in American history during its two most desperate years and focuses directly on the machinations of the direst threat to today's political scene: Hillary Clinton.

**Cover Up** Damien Comerford, 2014-10-05 Cover Up is an in-depth exposé of the botched investigations of five major tragic events of the twentieth century: the death of Princess Diana and Dodi Al Fayed, the death of Pope John Paul I, the death of US politician Ron Brown, the loss of the 101st Airborne and the assassination of Rwandan President Habyarimana. Author Damien Comerford dives headlong into the stories, bringing to light intriguing details about events leading up to each tragedy and then challenging the methods employed in each investigation. In this book, he shows that while the people in authority appeared to be conducting investigations and leaving no stone unturned, in reality, nothing could be further from the truth. Experts had no real interest in turning over every clue, and Comerford reveals the places where investigators went wrong: from overlooked forensic details and ignored eyewitness reports to facts too coincident to be accidents. An experienced journalist, Comerford uses his considerable talent to dig deep into historical records and expertly reconstruct each event exactly as it occurred. The result is a compelling read that will leave even the most stalwart skeptic believing in the truth of cover-ups.
