Room For Doubt:

Room for Doubt Ben Young, 2017-09-01 Many people have questions about faith Ben Young knows what it's like to feel as if you're alone in your doubts In Room for Doubt Ben offers An honest look at hard questions about God the Bible and faith Examples of spiritual giants in Scripture and history who doubted Insight into how to process uncertainty suffering and disappointment with God Clarity on the difference between uncertainty and mystery Encouragement about how doubt and faith go together Ben invites you to let doubt become your ally rather than your enemy Discover how your questions can lead to a deeper richer faith

Room for Doubt Wendy Lesser, 2008-04-01 Room for Doubt is Wendy Lesser's account of three separate but interlocking occasions for doubt her stay in Berlin a city she had never expected to visit her unwritten book on the philosopher David Hume and her long friendship with the writer Leonard Michaels which constantly broke down and yet endured Through this unusual journey Lesser in the end shows us how once examined things are never quite what she thought they were

No Room for Doubt Angela Dove, 2009 When a young woman is murdered the lives of those in her immediate circle are thrown into chaos as the mother becomes obsessed with keeping the authorities interested in the case and the husband falls into despair after being convicted in the court of public opinion Original *The Wisdom to Doubt* J. L. Schellenberg, 2012-05-15 The Wisdom to Doubt is a major contribution to the contemporary literature on the epistemology of religious belief Continuing the inquiry begun in his previous book *Prolegomena to a Philosophy of Religion* J L Schellenberg here argues that given our limitations and especially our immaturity as a species there is no reasonable choice but to withhold judgment about the existence of an ultimate salvific reality Schellenberg defends this conclusion against arguments from religious experience and naturalistic arguments that might seem to make either religious belief or religious disbelief preferable to his skeptical stance In so doing he canvasses virtually all of the important recent work on the epistemology of religion Of particular interest is his call for at least skepticism about theism the most common religious claim among philosophers The Wisdom to Doubt expands the author's well known hiddenness argument against theism and situates it within a larger atheistic argument itself made to serve the purposes of his broader skeptical case That case need not on Schellenberg's view lead to a dead end but rather functions as a gateway to important new insights about intellectual tasks and religious possibilities

The Lockean Mind Jessica Gordon-Roth, Shelley Weinberg, 2021-08-30 John Locke 1632 1704 is considered one of the most important philosophers of the modern era and the first of what are often called the Great British Empiricists His major work *An Essay Concerning Human Understanding* was the single most widely read academic text in Britain for fifty years after its publication and set new limits to the scope and certainty of what we can claim to know about ourselves and the natural world The Declaration of Independence and the United States Constitution were both highly influenced by Locke's libertarian philosophical ideas and Locke continues to have an impact on political thought both conservative and liberal It is less commonly known that Locke was a practicing physician an influential interpreter of the

Bible and a policy maker in the English Carolina colonies The Lockean Mind provides a comprehensive survey of Locke's work not only placing it in its historical context but also exploring its contemporary significance Comprising almost sixty chapters by a superb team of international contributors the volume is divided into twelve parts covering the full range of Locke's thought Historical Background Locke's Interlocutors Locke's Epistemology Locke's Philosophy of Mind Locke on Philosophy of Language and Logic Locke's Metaphysics Locke's Natural Philosophy Locke's Moral Philosophy Locke on Education Locke's Political Philosophy Locke's Social Philosophy Locke on Religion Essential reading for students and researchers in philosophy Locke's work is central to epistemology metaphysics philosophy of mind philosophy of language natural philosophy ethical legal political and social philosophy as well as philosophy of education and philosophy of religion This volume will also be a valuable resource to those in related humanities and social sciences disciplines with an interest in John Locke

The Baroque Night Spencer Golub, 2018-09-15 In *The Baroque Night* authorial idiosyncrasy hybridizes the concepts of baroque and noir across the fields of film theater literature and philosophy arguing for mental function as form as an impossible object a container in which the container itself is the thing contained The book is an experiment in thinking difference and thinking differently an ethics of otherness and the abstract Spencer Golub inverts the unreality of the real and the reality of fiction exposing the tropes of memory identity and authenticity as a scenic route through life that ultimately blocks the view *The Baroque Night* draws upon materials that have not previously been included in studies of either the baroque or film noir while offering new perspectives on other more familiar sources Leibniz's concepts of the monad and compossibility provide organizing thought models and death fear and mental illness cast their anamorphic images across surfaces that are deeper and closer than they at first appear Key characters and situations in the book derive from the works of Alfred Hitchcock Henri Georges Clozot Jean Pierre Melville Oscar Wilde Georges Perec Patricia Highsmith William Shakespeare Jean Racine Pierre Corneille and Arthur Conan Doyle among many others This is virtuality and reality for the phobic making it a fascinating and viable document of and episteme for the anxious age in which we always find ourselves living though not yet fully alive This performance of suspect evidence speaks to and in the ways we are organically inauthentic the cause of our own causality and our own worst eyewitnesses to all that appears and disappears in space and time

Hume, Holism, and Miracles David Johnson, 2018-09-05 David Johnson seeks to overthrow one of the widely accepted tenets of Anglo American philosophy that of the success of the Humean case against the rational credibility of reports of miracles In a manner unattempted in any other single work he meticulously examines all the main variants of Humean reasoning on the topic of miracles Hume's own argument and its reconstructions by John Stuart Mill J L Mackie Antony Flew Jordan Howard Sobel and others Hume's view set forth in his essay *Of Miracles* has been widely thought to be correct Johnson reviews Hume's thesis with clarity and elegance and considers the arguments of some of the most prominent defenders of Hume's case against miracles According to Johnson the Humean argument on this topic is entirely without merit

its purported cogency being simply a philosophical myth An Introduction to the Philosophy of Mind D. Cockburn, 2001-05-04 The book is an introduction to the philosophy of mind While a number of such introductions are available this book differs from others in that while rejecting the dualist approach associated in particular with Descartes it also casts serious doubt on the forms of materialism that now dominate English language philosophy Drawing in particular on the work of Wittgenstein a central place is given to the importance of the notion of a human being in our thought about ourselves and others **The Faith to Doubt** Stephen Batchelor, 2015-04-01 Kierkegaard said that faith without doubt is simply credulity the will to believe too readily especially without adequate evidence and that in Doubt can Faith begin All people involved in spiritual practice of whatever persuasion must confront doubt at one time or another and find a way beyond it to belief however temporary But faith is not equivalent to mere belief Faith is the condition of ultimate confidence that we have the capacity to follow the path of doubt to its end And courage In this engaging spiritual memoir Stephen Batchelor describes his own training first as a Tibetan Buddhist and then as a Zen practitioner and his own direct struggles along his path It is most uncanny that we are able to ask questions for to question means to acknowledge that we do not know something But it is more than an acknowledgement it includes a yearning to confront an unknown and illuminate it through understanding Questioning is a quest Batchelor is a contemporary Buddhist teacher and writer best known for his secular or agnostic approach to Buddhism He considers Buddhism to be a constantly evolving culture of awakening rather than a religious system based on immutable dogmas and beliefs Buddhism has survived for the past 2 500 years because of its capacity to reinvent itself in accord with the needs of the different Asian societies with which it has creatively interacted throughout its history As Buddhism encounters modernity it enters a vital new phase of its development Through his writings translations and teaching Stephen engages in a critical exploration of Buddhism's role in the modern world which has earned him both condemnation as a heretic and praise as a reformer **Department of Defense Appropriations for 1972** United States. Congress. House. Committee on Appropriations, 1971 **Secretary of Defense, Chairman, Joint chiefs of staff, overall financial statements, Service secretaries and Chiefs of staff** United States. Congress. House. Committee on Appropriations, 1971 Humanist Heroes Rev. Douglas Kenneth Peary, 2004-04-08 Each of the 17 chapters of this book is an introduction to the life and beliefs of a great scientist philosopher poet or thinker who rejects faith in theistic concepts of religion developed by primitive people They run from Voltaire Thomas Paine and Robert Ingersoll to Walt Whitman Isaac Asimov and Carl Sagan These thinkers expound on their views of the natural world and on what we can hope and believe based on the scientific method and discoveries They fill us with overwhelming sense of wonder and awe by what they teach about how to view our wonderful world They teach us to thrill to evolving life and to be at peace with ourselves despite the limits of our lives Past President of the Humanist Association of Central Connecticut Dr David Schafer said For several years among the talks most consistently popular with our members have been those in Doug Peary's long running series Humanist

Heroes One reason seems to be the emotional intensity Doug brings to his research on each of his subjects an intensity that continues to reward him and us deeply with each of his subjects with each new biography he touches These are not just interesting stories from and about the lives of Humanists they are intimate glimpses of more meaningful insights into living working loving and dying profoundly inspirational for Doug and his audiences

The Electronic Communications Code and Property Law Falcon Chambers, 2018-10-11 Life now without access to electronic telecommunications would be regarded as highly unsatisfactory by most of the UK population Such ready access would not have been achieved without methodical and ultimately enforceable means of access to the land on which to install the infrastructure necessary to support the development of an electronic communications network Successive governments have made such access a priority regarding it as a principle that no person should unreasonably be denied access to an electronic communications network or electronic communications services The enactment of the Telecommunications Act 1984 and its revision by the Communications Act in 2003 have played their role in the provision of an extensive electronic infrastructure in the UK while their reshaping by means of the Digital Economy Act 2017 will continue that process Throughout that process a little publicised series of struggles has taken place between telecommunications operators and landowners as they seek to interpret the Electronic Communications Code by which their rights and obligations have been regulated This book describes the problems that accompanied the Old Code which will continue to regulate existing installations and agreements and the intended solutions under the New Code The eminent team of authors explain the background provisions and operation of the old code and the new one providing practical and jargon free guidance throughout It is sure to become the reference on this topic and is intended as a guide for telecommunications operators land owners and of course for their advisers in the legal and surveying professions All members of Falcon Chambers comprising nine Queen s Counsel and 30 junior barristers specialise in property law and allied topics including the various incarnations of the Electronic Communications Code Members of Falcon Chambers including all the authors of this new work have for many years lectured and written widely on the code and have appeared acting for both operators and landowners in many of the few reported cases on the subject of the interface between property law and the code including for example *Geo Networks Ltd v The Bridgewater Canal Co Ltd* 2010 *Geo Networks Ltd v The Bridgewater Canal Co Ltd* 2011 *Crest Nicholson Operations Ltd v Arqiva Services Ltd* 2015 *Brophy v Vodafone Ltd* 2017

The Muslim Speaks Khurram Hussain, 2020-10-29 The Muslim Speaks reimagines Islam as a strategy for investigating the modern condition Rather than imagining it as an issue external to a discrete West Khurram Hussain constructs Islam as internal to the elaboration and expansion of the West In doing so he reveals three discursive traps that of freedom reason and culture that inhibit the availability of Islam as a feasible critical interlocutor in Western deliberations about moral intellectual and political concerns Through close examination of this inhibition Hussain posits that while Islamophobia is clearly a moral wrong depoliticization more accurately describes the problems associated with the

lived experience of Muslims in the West and elsewhere Weaving together his conclusions in the hope of a common world Khurram Hussain boldly and quite radically deems that what Islam needs is not depoliticization but infact repoliticization

Sermons Henry Alexander Douglas,1861 *Faith in the Shadows* Austin Fischer,2018-09-11 People don t abandon faith because they have doubts People abandon faith because they think they re not allowed to have doubts Even as a pastor Austin Fischer has experienced the shadows of doubt and disillusionment Leaning into perennial questions about Christianity he shows that doubt is no reason to leave the faith instead it s an invitation to a more honest faith **Together** Robert Herrick,2020-07-16 Reproduction of the original Together by Robert Herrick *Enlightenment East and West* Leonard Angel,1994-08-04 This book shows that mysticism is incomplete without scientific rationalism and that our current social and political projects cannot be completed without assimilating the values and practices of mysticism It discusses cross cultural ethics mysticism and value theory mysticism and metaphysics mysticism and the theory of knowledge ethics and religion parapsychology patriarchy and social and political history [An Introduction to Epistemology - Second Edition](#) Jack S. Crumley II,2009-07-30 The second edition of Jack Crumley s *An Introduction to Epistemology* strikes a balance between the many issues that engage contemporary epistemologists and the contributions of the major historical figures He shows not only how philosophers such as Descartes Hume Locke Berkeley and Kant foreground the contemporary debates but also why they deserve consideration on their own terms A substantial revision of the first edition the second edition is even more accessible to students The new edition includes recent work on contextualism evidentialism externalism and internalism and perceptual realism as well the chapter on coherence theory is substantially revised reflecting recent developments in that area New to this second edition is a chapter on feminist epistemology which includes discussions of major positions and themes such as feminist empiricism feminist standpoint epistemology postmodern epistemology and feminist critiques of objectivity It presents the important contributions of philosophers such as Sandra Harding Helen Longino Genevieve Lloyd and others Each chapter ends with a list of study questions and readings for further study **The Witch of Pungo** Scott O. Moore,2024-05-22 The authoritative cultural history of Virginia s most famous accused witch In 1706 Grace Sherwood was ducked after her neighbors in Princess Anne County accused her of witchcraft Binding and throwing her into the Lynnhaven River they waited to see whether she would float to the top evidence of her guilt or sink proof of her innocence Incredibly she survived This bizarre spectacle became an early piece of Virginia folklore as stories about Sherwood the Witch of Pungo spread Her legend still looms large in Tidewater In 2006 Governor Tim Kaine even issued an informal pardon of Sherwood read aloud by the mayor of Virginia Beach before the annual reenactment of Sherwood s ducking This is the first book to explore Grace Sherwood s life and cultural impact in depth Anyone interested in colonial Virginia American folklore and the history and legacy of witch trials will find much to enjoy in this spellbinding book
