Theodore Roosevelt in the Field Michael R. Canfield, 2022-12-22 Never has there been a president less content to sit still behind a desk than Theodore Roosevelt. When we picture him, he is on horseback or standing at a cliff's edge or dressed for safari. And Roosevelt was more than just an adventurer; he was also a naturalist and campaigner for conservation. His love of the outdoor world began at an early age and was driven by a need not to simply observe nature but to be actively involved in the outdoors, to be in the field. As Michael R. Canfield reveals in *Theodore Roosevelt in the Field*, throughout his life Roosevelt consistently took to the field as a naturalist, hunter, writer, soldier, and conservationist, and it is in the field where his passion for science and nature, his belief in the manly strenuous life, and his drive for empire all came together. Drawing extensively on Roosevelt's field notebooks, diaries, and letters, Canfield takes readers into the field on adventures alongside him. From Roosevelt's early childhood observations of ants to his notes on ornithology as a teenager, Canfield shows how Roosevelt's quest for knowledge coincided with his interest in the outdoors. We later travel to the Badlands after the deaths of Roosevelt's wife and mother to understand his embrace of the rugged freedom of the ranch lifestyle and the Western wilderness. Finally, Canfield takes us to Africa and South America as we consider Roosevelt's travels and writings after his presidency. Throughout, we see how the seemingly contradictory aspects of Roosevelt's biography as a hunter and a naturalist are actually complementary traits of a man eager to directly understand and experience the environment around him. As our connection to the natural world seems to be more tenuous, *Theodore Roosevelt in the Field* offers the chance to reinvigorate our enjoyment of nature alongside one of history's most bold and restlessly curious figures. *Recreation Sites in*

Launched in 1939, the Civilian Pilot Training Program (CPTP) was one of the largest government-sponsored vocational education programs of its time. In *To Fill the Skies with Pilots*, Dominick A. Pisano explores the successes and failures of the program from its conception as a hybrid civilian-military mandate in peacetime through the war years and into the immediate postwar period. As originally conceived, the CPTP would serve both war-preparedness goals and New Deal economic ends. Using the facilities of colleges, universities, and commercial flying schools, the CPTP was designed to provide a pool of civilian pilots for military service in the event of war. The program also sought to give an economic boost to the light plane industry and the network of small airports and support services associated with civilian aviation. As Pisano demonstrates, the CPTP's multiple objectives ultimately contributed to its demise. Although the program did train tens of thousands of pilots who later flew during the war, mostly in noncombat missions, military leaders faulted the project for not being more in line with specific recruitment and training needs. After attempting to adjust to these needs, the CPTP then faced a difficult and ultimately unsuccessful transition back to civilian purposes in the postwar era. By charting the history of the CPTP, Pisano sheds new

light on the politics of aviation during these pivotal years as well as on civil military relations and New Deal policy making

Rough Writing Aviva F. Taubenfeld, 2008-11 As the United States struggled to absorb a massive influx of ethnically diverse immigrants at the turn of the twentieth century the question of who and what an American is took on urgent intensity It seemed more critical than ever to establish a definition by which Americanness could be established transmitted maintained and judged Americans of all stripes sought to articulate and enforce their visions of the nation s past present and future central to these attempts was President Theodore Roosevelt Roosevelt fully recognized the narrative component of American identity and he called upon authors of diverse European backgrounds including Israel Zangwill Jacob Riis Elizabeth Stern and Finley Peter Dunne to promote the nation in popular written form With the swell and shift in immigration he realized that a more encompassing national literature was needed to express and guide the soul of the nation *Rough Writing* examines the surprising place and implications of the immigrant and of ethnic writing in Roosevelt s America and American literature *Energy Research Abstracts* ,1980 *Country Life Illustrated* ,1902 *Journal of the Assembly of the State of New York*; ...
