*Roots of Afrocentric Thought* Clovis E. Semmes, 1998-02-12. The uniqueness, sweeping content and timing of *Negro Digest* and *Black World* give it enormous historical and scholarly importance. The most influential and widely read Black literary magazine in the 1960s, *Negro Digest* played a critical role in the era's Black Arts and Black Consciousness movement and is the most complete voice of that movement. Renamed *Black World* in 1970, the magazine gave voice to scholars coining and developing the concept of Afrocentric and African-centered analysis. An analysis of Afrocentric methods and discourse would not be complete without an examination of this magazine. This reference guide provides easy access to this valuable publication. Part One includes chapters on Literature and Literary Criticism, History, Mass Media and the Arts, and Social and Political Analysis, which provide annotations on original articles and speeches. Part Two indexes original materials, including poetry, short stories, and plays, reviews, and interviews.

*Immigrants in American History* Elliott Robert Barkan, 2013-01-17. This encyclopedia is a unique collection of entries covering the arrival, adaptation, and integration of immigrants into American culture from the 1500s to 2010. Few topics inspire such debate among American citizens as the issue of immigration in the United States. Yet it is the steady influx of foreigners into America over 400 years that has shaped the social character of the United States and has favorably positioned this country for globalization. *Immigrants in American History: Arrival, Adaptation, and Integration* is a chronological study of the migration of various ethnic groups to the United States from 1500 to the present day. This multivolume collection explores dozens of immigrant populations in America and delves into major topical issues affecting different groups across time periods. For example, the first author of the collection profiles African Americans as an example of the effects of involuntary migrations. A cross-disciplinary approach derived from the contributions of leading scholars in the fields of history, sociology, cultural development, economics, political science, law, and cultural adaptation introduces a comparative analysis of customs, beliefs, and character among groups and provides insight into the impact of newcomers on American society and culture.

**Ralph Ellison and Kenneth Burke at the Roots of the Racial Divide** Bryan Crable, 2012 Ralph Ellison and Kenneth Burke focuses on the little known but important friendship between two canonical American writers The story of this fifty year friendship however is more than literary biography Bryan Crable argues that the Burke Ellison relationship can be interpreted as a microcosm of the American racial divide Through examination of published writings and unpublished correspondence he reconstructs the dialogue between Burke and Ellison about race that shaped some of their most important works including Burke's *A Rhetoric of Motives* and Ellison's *Invisible Man* In addition the book connects this dialogue to changes in American discourse about race Crable shows that these two men were deeply connected intellectually and personally but the social division between white and black Americans produced hesitation embarrassment mystery and estrangement where Ellison and Burke might otherwise have found unity By using Ellison's nonfiction and Burke's rhetorical theory to articulate a new vocabulary of race the author concludes not with a simplistic healing of the divide but with a challenge to embrace the responsibility inherent to our social order
