Zuckert, Catherine H. Zuckert, 2014-06-30 This critical study of the influential political theorist dispels popular myths and reveals the inner logic of his varied and notoriously complex writings Political theorist Leo Strauss was unexpectedly thrust into the media spotlight for his alleged influence on neoconservative politics With The Truth about Leo Strauss Michael and Catherine Zuckert challenged the many claims and speculations about this complex thinker Now with Leo Strauss and the Problem of Political Philosophy they offer a more comprehensive interpretation of Strauss s thought using the many manifestations of the problem of political philosophy as their touchstone Strauss they argue sought to restore political philosophy to its original Socratic form This is demonstrated through his critique of positivism and historicism two intellectual currents that undermined his Socratic project The authors also explore Strauss s interpretation of both ancient and modern political philosophers including Plato Aristotle Machiavelli and Locke Finally they examine Strauss s thought in the context of the twentieth century when his chief interlocutors were Schmitt Husserl Heidegger and Nietzsche Leo Strauss and the Problem of Political Philosophy is the most in depth treatment of this often misunderstood thinker examining his ideas across his long career It reveals Strauss s overall intellectual project to decode how ancient and modern theory attempted to solve the problem of political philosophy And it shows why Strauss considered the ancient solution both philosophically and politically superior **Yoga - Anticolonial Philosophy** Shyam Ranganathan, 2024-04-18 A decolonial

guide to yoga from an expert in Indian moral philosophy and Yoga with exploration and advice on unlearning colonialism learning the activism of Yoga from various sources such as the Yoga S tra and Bhagavad g t and how to bring authenticity into your daily practice *Solomon* Jennifer Vance, 2015-02-03 King Solomon is considered one of the wealthiest kings in history as well as one of history s wisest rulers During his 40 year reign Solomon built Israel into a regional power and established diplomatic relationships that brought peace to the region However at the end of his life Solomon became corrupted by pride and power His moral decay led to the division of his kingdom and sowed the seeds for Israel s eventual destruction The story of Solomon demonstrates the impact that the actions and decisions of one person whether good or bad can have on others **Mao's America** Xi Van Fleet, 2023-10-31 THE BOOK BEHIND THE VIRAL TUCKER CARLSON

INTERVIEW An inspiring survivor of Mao s Cultural Revolution in China makes a passionate case that history is eerily repeating itself as the Woke Revolution spreads across America Xi Van Fleet lived through the horrors of the Chinese Cultural Revolution as a schoolgirl Forced to the countryside with other young Chinese for re education after high school she later escaped communism and found freedom and new a life in America But more than 30 years later Xi disturbingly sees

signs of the same Cultural Marxism that ravaged her birth country of China threatening to destroy the America she now calls home This is her dire warning to the United States Xi compellingly tells the story of two Cultural Revolutions one driven by Mao during her childhood and the one unfolding in today s America from the progressive left With captivating personal stories and extensive historic research Xi reveals the stunning similarities of these two revolutions This fascinating book shows readers that both revolutions Use Marxist tactics of division indoctrination deception coercion cancelation subversion and violence Aim to destroy the foundation of the traditional culture to replace it with Marxist ideologies Weaponize youth using them as their means to an end Share the same goal of achieving absolute power at the expense of the people Lead to the same ending loss of freedom and totalitarian rule Readers will be captivated by the riveting personal story of a Chinese immigrant to the United States who overcame fear and reluctance to get involved in the movement to save America Her political activism begins with a school board speech in 2021 against Critical Race Theory in Loudoun County Virginia that unexpectedly goes viral and ignites national media attention Xi now devotes her life to educating the American public on the shocking parallels between these two revolutions Because only when Americans understand what is really happening will they rise up and resist the communist takeover of America     *The Wisdom of Our Ancestors* Graham James

McAleer,Alexander S. Rosenthal-Pubul,2023-12-01 In *The Wisdom of Our Ancestors* the authors mount a powerful defense of Western civilization sketching a fresh vision of conservatism in the present age In this book Graham McAleer and Alexander Rosenthal Pubul offer a renewed vision of conservatism for the twenty first century Taking their inspiration from the late Roger Scruton the authors begin with a simple question What after all is the meaning of conservatism In reply they make a case for a political orientation that they call conservative humanism which threads a middle way between liberal universalism and its ideological alternatives This vision of conservatism is rooted in the humanist tradition that is classical humanism Christian humanism and secular humanism which the authors take to be the hallmark of Western civilizational identity At its core conservative humanism attempts to reconcile universal moral values rooted in natural law with local particularist loyalties In articulating this position the authors show that the West contra various contemporary critics does in fact have a great deal of wisdom to offer The authors begin with an overview of the conservative thought world situating their proposal relative to two major poles liberalism and nationalism They move on to show that conservatism must fundamentally take the form of a defense of humanism the master idea of our civilization The ensuing chapters articulate various aspects of conservative humanism including its metaphysical institutional legal philosophical and economic dimensions Largely rooted in the Anglo Continental conservative tradition the work offers fresh perspectives for North American conservatism

*Problems of Suffering in Religions of the World* John Bowker,1970 A comparative general study of the problems of suffering as treated by Judaism Christianity Islam Marxism Hinduism and Buddhism     **The Routledge History of the Devil in the Western Tradition** Richard Raiswell,Michelle D. Brock,David R. Winter,2025-05-29 Covering a period of 2000

years this book offers an interdisciplinary exploration of the devil's role in the Western tradition and draws from history religion art literature media studies and anthropology to provide a multifaceted view of the devil over time The Routledge History of the Devil in the Western Tradition examines topics such as the devil's scriptural origins medieval development and role in witch hunting and possession cases as well as the influence of the demonic on contemporary issues like terrorism political polarisation and digital culture Collectively this volume demonstrates that the demonological imagination has served as part of the glue holding Western societies together While contexts misfortunes and anxieties have shifted according to time and place many of the dynamics that underlie the devil's construction and detection have important continuities This book then provides an innovative history of the anti West the West as seen through its anxieties fears and attempts to define and police itself and its boundaries With contributions from 28 leading scholars in the field this volume is of interest to all students and scholars of the devil in the Western world *Postmodern Platos* Catherine H. Zuckert, 1996-06 Catherine Zuckert examines the work of five key philosophical figures from the nineteenth and twentieth centuries through the lens of their own decidedly postmodern readings of Plato She argues that Nietzsche Heidegger Gadamer Strauss and Derrida convinced that modern rationalism had exhausted its possibilities all turned to Plato in order to rediscover the original character of philosophy and to reconceive the Western tradition as a whole Zuckert's artful juxtaposition of these seemingly disparate bodies of thought furnishes a synoptic view not merely of these individual thinkers but of the broad postmodern landscape as well The result is a brilliantly conceived work that offers an innovative perspective on the relation between the Western philosophical tradition and the evolving postmodern enterprise *Ecological Economics for the Anthropocene* Peter G. Brown, Peter Timmerman, 2015-09-01 *Ecological Economics for the Anthropocene* provides an urgently needed alternative to the long dominant neoclassical economic paradigm of the free market which has focused myopically even fatally on the boundless production and consumption of goods and services without heed to environmental consequences The emerging paradigm for ecological economics championed in this new book recenters the field of economics on the fact of the Earth's limitations requiring a total reconfiguration of the goals of the economy how we understand the fundamentals of human prosperity and ultimately how we assess humanity's place in the community of beings Each essay in this volume contributes to an emerging revolutionary agenda based on the tenets of ecological economics and advances new conceptions of justice liberty and the meaning of an ethical life in the era of the Anthropocene Essays highlight the need to create alternative signals to balance one dimensional market price measurements in judging the relationships between the economy and the Earth's life support systems In a lively exchange the authors question whether such ideas as ecosystem health and the environmental data that support them are robust enough to inform policy Essays explain what a taking it slow or no growth approach to economics looks like and explore how to generate the cultural and political will to implement this agenda This collection represents one of the most sophisticated and realistic strategies for neutralizing the threat of our current

Nelson, 2016-04-28 Deliberately eschewing disciplinary and temporal boundaries this volume makes a major contribution to the de traditionalization of political thinking within the discourses of international relations Collecting the works of twenty five theorists this Ashgate Research Companion engages some of the most pressing aspects of political thinking in world politics today The authors explore theoretical constitutions critiques and affirmations of uniquely modern forms of power past and present Among the themes and dynamics examined are textual appropriation and representation materiality and capital formation geopolitical dimensions of ecological crises connections between representations of violence and securitization subjectivity and genderization counter globalization politics constructivism biopolitics post colonial politics and theory as well as the political prospects of emerging civic and cosmopolitan orders in a time of national religious and secular polarization Radically different in their approaches the authors critically assess the discourses of IR as interpretive frames that are indebted to the historical formation of concepts and to particular negotiations of power that inform the main methodological practices usually granted primacy in the field Students as well as seasoned scholars seeking to challenge accepted theoretical frameworks will find in these chapters fresh insights into contemporary world political problems and new resources for their critical interrogation     **Ahimsa in the Indic Traditions** Jeffery D. Academy Bradley C. S. Watson, 2015-09-03 This volume brings together leading thinkers who offer reflections on the place of Western civilization in the academy at a time when there is indifference or even antipathy toward the study of the West at most institutions of higher learning Alternative narratives including multiculturalism diversity and sustainability have come to the fore in the stead of Western civilization The present volume is designed to explore the roots extent and long term consequences of this educational climate How and why did undergraduate education turn its back on what was once an important component of its mission To what extent has such change affected the experience of undergraduates and the ability of colleges to educate citizens of a constitutional republic What are the likely individual and social outcomes of such a shift in educational priorities The volume's theme is and will continue to be the subject of national scholarly and media attention

**The Bloomsbury Research Handbook of Indian Ethics** Shyam Ranganathan, 2016-11-17 Featuring leading scholars from philosophy and religious studies The Bloomsbury Research Handbook of Indian Ethics dispels the myth that Indian thinkers and philosophers were uninterested in ethics This comprehensive research handbook traces Indian moral philosophy through classical scholastic Indian philosophy pan Indian literature including the Epics Ayurvedic medical ethics as well as recent traditionalist and Neo Hindu contributions Contrary to the usual myths about India that Indians were too busy being religious to care about ethics moral theory constitutes the paradigmatic differentia of formal Indian philosophy and is reflected richly in popular literature Many of the papers make this clear by an analytic explication that draws critical comparisons and contrasts between classical Indian moral philosophy and contemporary contributions to ethics By critically addressing ethics as a sub discipline of philosophy and acknowledging the mistaken marginalization of Indian moral philosophy this handbook reveals how Indian contributions can illuminate contemporary philosophical research on ethics Unlike previous approaches to Indian ethics this volume is organized in accordance with major topics in moral philosophy The volume contains an extended introduction exploring topics in moral semantics the philosophy of thought metaethical and normative ethical theory and the politics of scholarship which serve to show how the diversity of Indian moral philosophy is a contribution to the discipline of ethics With an overview of Indian moral theory and a glossary this is a valuable guide to understanding the past present and future research directions of a central component of Indian philosophy
