Theological Education that Makes a Difference Henry G. Church, 2002 The Free Methodist Church became a phenomenon in Malawi around the time of independence when in the spirit of the times and in the wake of a hundred years of Christian missionaries new churches and missions were becoming popular Since inception this Church has grown by about ten percent a year The author of this book attributes its success to a particular approach of theological education Writing from a committed insider perspective he outlines the missionaries Chilinde approach in Malawi The purpose of this educational philosophy is that the church should grow and that the growth of the faith is best mediated through its bible school allowing both the Church and its theological school to mutually strengthen one another
