Seminars in General Adult Psychiatry George Stein, Greg

Wilkinson, 2007-04 This second edition of *Seminars in General Adult Psychiatry* provides a highly readable and comprehensive account of modern adult psychiatry. Key features of the first edition that have been retained are the detailed clinical descriptions of psychiatric disorders and historical sections to give the reader access to the classic studies of psychiatry as well as the current evidence. Additional topics covered here for the first time include liaison psychiatry, psychosexual medicine, clinical epidemiology and international and cultural psychiatry. Clinical management is given due prominence with extensive accounts of modern drug management, cognitive therapy, the main psychosocial approaches and current guidelines such as those published by the National Institute for Health and Care Excellence. An essential text for trainees studying for their MRCPsych, this book is also a one-stop reference work for established practitioners providing comprehensive coverage of the whole of adult psychiatry.

Aging, 1961 *Confronting Challenges in English Language*

Teacher Education Salah Troudi, Omid Mazandarani, 2024-09-04 This edited volume presents an inter- and multidisciplinary approach towards language teacher education, confronting the issues that have continued to pervade the field for the last two decades. Featuring contributions from researchers and teacher educators located within a truly international spread of countries (Mexico, Palestine, Tunisia, Cyprus, and Kuwait), to name a few, chapters adopt an ecologically globalised approach to understand how English language teaching is theorised and practised in different educational contexts across the world. Research gathered from interviews, meta-analysis, and international case studies is showcased as chapters consider both pedagogical and online issues, as well as critical approaches to language teacher education. Professional development and evaluation programmes across different educational contexts are discussed in depth, along with guidance and insights for the future of the field. The book will be of interest to scholars, researchers, and postgraduate students working in the fields of English language teacher education, TESOL, applied linguistics, and continuing professional development.
