Francis Blomefield,1805      The Real Estate Market in the Roman World Marta García Morcillo,Cristina Rosillo-López,2023-03-22 As it is today the property market was a key and dynamic economic sector in Ancient Rome Its study demands a deep understanding of Roman society of the normative frameworks and the notions of wealth value identity and status that shaped individual and collective mentalities This book takes a multisided insight into real estate as the

subject of short and long term economic investments of speculative businesses ventures of power abuses and inequalities of social aspirations but also of essential housing needs The volume discusses thoroughly relevant and new literary legal epigraphic papyrological and archaeological evidence and incorporates comparative historical perspectives and methodologies including economic theory and current critical sociological debates about the functioning of modern real estate markets and issues linked to its commodification and regulation In pursuing this line of enquiry the contributions that make up the book investigate the impact of ideas such as profit risk security and trust in transfers management and use of residential houses commercial buildings and productive estates in urban and rural contexts The work further evaluates the legal responses to and the public enforcement strategies concerning such activities the high mobility of fortunes and unstable property rights that resulted from one off but also structural political financial economic and institutional crises that marked the history of the Roman Republic and Principate This book aims to demonstrate the relevance of the study of pre modern real estate markets today and will be of significant interest to readers of economic history as well as Roman law Roman archaeology the history of urbanism and social history     *Pliny the Younger* Rex Winsbury,2013-11-28 Pliny the Younger who lived c 100 AD left a large collection of letters thanks to which we know him better than almost any other Roman He is best known as witness to the eruption of Vesuvius in 79 that destroyed Pompeii and for his dealings with the early Christians when a regional governor He was not an emperor or general but a famous lawyer of his time specialising in private finance and later a senior state official specialising in public finance His life straddled both a bad emperor Domitian and a good emperor Trajan so his life and letters are relevant to perennial political questions like how an honourable man could serve an absolute autocracy such as Rome and how justice could live alongside power His letters also give a unique insight into social literary and domestic life among the wealthy upper classes of the empire He knew most of the famous writers of his time and wrote love letters to his wife But there are serious controversies about how honest and truthful a man he was did he use his letters to rewrite history his own history and cover up questionable aspects of his career This general biographical account of Pliny is the first of its kind and covers all aspects of his life in a systematic way This accessible title tackles key issues including his political anxieties and issues his relationship with women and his literary style in a roughly chronological order It covers his life as a lawyer both in private practice and in state prosecutions his literary circle his career in state office and his working relationships with two very different emperors his background his property and his family life     **Early Medieval Architecture as Bearer of Meaning** Gunter Bandmann,2005-07-06 At last available in English this classic text was originally published in Germany in 1951 and has been continuously in print since then Gunter Bandmann analyzes the architecture of societies in western Europe up to the twelfth century that aspired to be the heirs to the Roman Empire He examines the occurrence and recurrence of basic forms not as stylistic evolutions but as meaningful expressions of meta material content and develops an architectural iconography of symbolic historical and aesthetic elements     The Whole
