**Reformulation and Acquisition of Linguistic Complexity** Claire Martinot,Tomislava Bošnjak Botica,Sonia Gerolimich,Urszula Paprocka-Piotrowska,2019-03-04 Reformulation and Acquisition of Linguistic Complexity proposes a new answer to the question of the appropriation or acquisition of a mother tongue a complex object one that is both stable and perpetually evolving This answer is based on the reformulating principle that children spontaneously apply a principle that is illustrated here with children retelling the same story These children are all 6 8 or 10 years old and speak French Italian Croatian or Polish as a first language This book demonstrates that the acquisition of any mother tongue is explained by the application of various reformulation procedures between source predications and reformulated predications These procedures are comparable from one language to another and different from one age group to another This book also studies certain complex phenomena at the lexical and syntactical levels and analyzes how children depending on their age treat these phenomena Finally we show that the acquisition of a mother tongue is a fundamentally linguistic activity

**Unearthing the Real Process Behind the Event Data** Gert Janssenswillen,2021-04-07 This book is a revised version of the PhD dissertation written by the author at Hasselt University in Belgium This dissertation introduces the concept of process realism Process realism is approached from two perspectives in this dissertation First quality dimensions and measures for process discovery are analyzed on a large scale and compared with each other on the basis of empirical experiments It is shown that there are important differences between the different quality measures in terms of feasibility

validity and sensitivity Moreover the role and meaning of the generalization dimension is unclear Second process realism is also tackled from a data point of view By developing a transparent and extensible tool set a framework is offered to analyze process data from different perspectives From both perspectives recommendations are made for future research and a call is made to give the process realism mindset a central place within process mining analyses In 2020 the PhD dissertation won the BPM Dissertation Award granted to outstanding PhD theses in the field of Business Process Management
