Saint Sergius of Radonezh, His Trinity Monastery, and the Formation of the Russian Identity David B.

Miller, 2010-11-05 When Sergius of Radonezh founded a monastery near Moscow his example spawned a movement of monastic foundations throughout Russia Within three decades of his death in 1392 Sergius was recognized as a saint and by 1450 many considered him the intercessor for the Russian land who freed its people from Mongol rule Over the next century and a half thousands sought St Sergius intercession with gifts to the monastery Moscow's rulers made Sergius patron saint of their dynasty and of the Russian tsardom By 1605 the Trinity Sergius monastery was the biggest house in Russia Miller presents Trinity's dramatic history from the fourteenth century to the beginning of the Time of Troubles Using extensive archival materials he traces the evolution of Trinity's relationship to Sergius venerators and its traditions governance social composition and the lifestyle of its members In lucid prose Miller argues that St Sergius cult and monastery became integrating forces on a national scale and vital elements in the forging of a Russian identity economy and cohesive society The power of religion to shape national identity is a lively topic today and Miller's study will interest both medievalists and modern historians as well as readers of Orthodox Church history

This volume builds upon the new worldwide interest in the global Middle Ages It investigates the prismatic heritage and eclectic artistic production of Eastern Europe between the fourteenth and seventeenth centuries while challenging the temporal and geographical parameters of the study of medieval Byzantine post Byzantine and early modern art Contact and interchange between primarily the Latin Greek and Slavic cultural spheres resulted in local assimilations of select elements that reshaped the artistic landscapes of regions of the Balkan Peninsula the Carpathian Mountains and further north The specificities of each region and in modern times politics and nationalistic approaches have reinforced the tendency to treat them separately preventing scholars from questioning whether the visual output could be considered as an expression of a shared history The comparative and interdisciplinary framework of this volume provides a holistic view of the visual culture of these regions by addressing issues of transmission and appropriation as well as notions of cross cultural contact while putting on the global
