Jackson, 2016-03-31 First published in 1980 This title provides a critical and historical account of poetry written between 1780 and 1835 The author has been especially concerned to place the great poems and poets of the age in the context of the conventions and traditions in which they wrote offering new perspectives on familiar works Poems still famous are examined often in relation to works of a similar kind fashionable at the time but now neglected and these unconventional groupings throw fresh light on Romantic poetry as a whole An appendix is included designed to be read as a supplement to the main text serving both as a chronology and as a brief guide to works that do not fall within the scope of the main argument This title will be of interest to students of literature *The New Anthology of American Poetry* Steven Gould Axelrod, Camille Roman, Thomas Travisano, 2003 Volume 1 of this comprehensive anthology features a generous selection of Native American materials then spans the years from the establishment of the American colonies to about 1900 a world on the brink of World War I and the modern era *Poems of T.
