Greenleaf,1998-09-04 Based on the seminal work of Robert K Greenleaf a former AT T executive who coined the term almost thirty years ago servant leadership emphasizes an emerging approach to leadership one which puts serving others including employees customers and community first The Power of Servant Leadership is a collection of eight of Greenleaf s most compelling essays on servant leadership These essays published together in one volume for the first time contain many of Greenleaf s best insights into the nature and practice of servant leadership and show his continual refinement of the servant as leader concept In addition several of the essays focus on the related issues of spirit commitment to vision and wholeness Servants and Paternalism in the Works of Maria Edgeworth and Elizabeth Gaskell Julie Nash,2017-11-30 Writing during periods of dramatic social change Maria Edgeworth and Elizabeth Gaskell were both attracted to the idea of radical societal transformation at the same time that their writings express nostalgia for a traditional paternalistic ruling class The author shows how this tension is played out especially through the characters of servants in short fiction and novels such as Edgeworth s Castle Rackrent Belinda and Helen and Gaskell s North and South and Cranford Servant characters the author contends enable these writers to give voice to the contradictions inherent in the popular paternalistic philosophy of their times because the situation of domestic servitude itself embodies such inconsistencies Servants whose labor was essential to the economic and social function of eighteenth and nineteenth century British society made up the largest category of workers in England by the nineteenth century and yet were expected to be socially invisible At the same time they lived in the same houses as their masters and mistresses and were privy to the most intimate details of their lives Both Edgeworth and Gaskell created servant characters who challenge the social hierarchy thus exposing the potential for dehumanization and corruption inherent in the paternalistic philosophy the author s study opens up important avenues for future scholars of women s fiction in the nineteenth century Power House ,1929 **Female Servants in Early Modern England** Charmian Mansell,2024-03-19 Excavating experiences of over a thousand women in service from church court testimony Mansell argues that early modern

service was unstable but finely graded fluid and contingent Intervening in histories of labour gender freedom and law *Female Servants in Early Modern England* rethinks our understanding of the institution of service *The Servants of Power, a History of the Use of Sicoal Science in American Industry* Loren Baritz,1965 **The Great Issues** Wharton Barker,1902

Power, Legal Education, and Law School Cultures Meera Deo,Mindie Lazarus-Black,Elizabeth Mertz,2019-10-10

There is a myth that lingers around legal education in many democracies That myth would have us believe that law students are admitted and then succeed based on raw merit and that law schools are neutral settings in which professors also selected and promoted based on merit use their expertise to train those students to become lawyers Based on original empirical research this book investigates this myth from myriad perspectives diverse settings and in different nations revealing that hierarchies of power and cultural norms shape and maintain inequities in legal education Embedded within law school cultures are assumptions that also stymie efforts at reform The book examines hidden pedagogical messages showing how presumptions about theory s relation to practice are refracted through the obfuscating lens of curricula The contributors also tackle questions of class and market as they affect law training Finally this collection examines how structural barriers replicate injustice even within institutions representing themselves as democratic and open revealing common dynamics across cultural and institutional forms The chapters speak to similar issues and to one another about the influence of context images of law and lawyers the political economy of legal education and the agency of students and faculty *Power* ,1917
