1950s Science Fiction Films and 9/11 Melvin E. Matthews, 2007

1950s Cold War era monsters meet 21st century terrorists this exploration of sci fi movies examines the similarities and differences between the political environment and popular culture of two eras This examination and appreciation of 1950s science fiction films includes behind the scenes tales about their production and many quotes from those who produced and starred in the films The author draws parallels between the Cold War fears of the 1950s and 60s and the constant terrorism alerts of the September 11th era exploring how the politics and the psychological climate of the times influences and is reflected in this vehicle of popular culture This book is the first of its kind studying the pop culture genre in the wake of the September 11th tragedy It shows that whatever the era and whatever the challenges and crises confronting America many entertainment themes remain the same reflecting their respective times and the relevant issues For instance Godzilla the only Fifties era monster to remain a movie star beyond that era could be fashioned to reflect whatever issues dominate the times be they nuclear war in the Fifties when Godzilla originated to a Seventies Godzilla film about environmental pollution Conceivably a Godzilla for the age of terrorism is possible Them the 1954 atomic mutation classic is the spiritual ancestor of the 2002 film Eight Legged Freaks The alien invaders of the Fifties signified a Russian invasion of America while other films of the genre such as Invaders from Mars depicted aliens utilizing mind control to manipulate humans to commit acts of sabotage signifying Communist enslavement If such a film were made now such invaders could be seen as terrorist masterminds using human slaves to commit terrorist acts Finally several Fifties films depicted the end of the world at a time

when Americans expected a nuclear war with Russia The immediate pre September 11th era witnessed films presenting galactic threats to mankind s existence Independence Day Deep Impact Armageddon while the early 2000s witnessed the popularity of the Left Behind Christian films dramatizing the Tribulation period in the Book of Revelation **The Message on My Arm** HERMANELI TORREVILLAS,2014-09-26 This new book sheds light on the existence of Extraterrestrial Beings Author H Torrevillas M D invites readers to embark on a fascinating journey to unlock some of lifes greatest mysteries The author shares his many encounters that made him lean towards the study of intuitive feelings as well as psychic phenomena that relate to the mystifying world of the unknown From the cradle to the grave our parents peers institutions and society form our values and behavior but this process has been hijacked This book opens our minds to the fact that unknown to us for generations we have allowed dictators power brokers and corporate puppeteers to profit from our ignorance and enslavement From the anvil of compulsory schooling to media and entertainment we are being kept in bondage to ideas that shape our actions But the author is optimistic that we can overcome negative forces that control our minds and those of our leaders He had been in a quandary in his early years regarding paranormal happenings in his life Rather than ignore them as skeptics are inclined to do Dr Torrevillas regarded them as significant in his life
