Millennium Eyewitness:

Millennium Eyewitness, 1997 Presents over 250 eyewitness accounts of historical events that have taken place over the course of the second millennium **Created Equal** Joshua Berman, 2011-08-12 In *Created Equal* Joshua Berman engages the text of the Hebrew Bible from a novel perspective considering it as a document of social and political thought. He proposes that the Pentateuch can be read as the earliest prescription on record for the establishment of an egalitarian polity. What emerges is the blueprint for a society that would stand in stark contrast to the surrounding cultures of the ancient Near East: Egypt, Mesopotamia, Ugarit, and the Hittite Empire, in which the hierarchical structure of the polity was centered on the figure of the king. Berman shows that an egalitarian ideal is articulated in comprehensive fashion in the Pentateuch and is expressed in its theology, politics, economics, use of technologies of communication, and in its narrative literature. Throughout, he invokes parallels from the modern period as heuristic devices to illuminate ancient developments. Thus, for example, the constitutional principles in the Book of Deuteronomy are examined in the light of those espoused by Montesquieu, and the rise of the novel in 18th-century England serves to illuminate the advent of new modes of storytelling in biblical narrative. **Journalism and Eyewitness Images** Mette Mortensen, 2014-12-17 Building on the vast research conducted on war and media since the 1970s, scholars are now studying the digital transformation of the production of news. Little scholarly attention has been paid, however, to non-professional eyewitness visuals, even though this genre holds a still greater bearing on the way conflicts are fought, communicated, and covered by the news media. This volume examines the power of new technologies for creating and disseminating images in relation to conflicts. Mortensen presents a theoretical framework and uses case studies to investigate the impact of non-professional images with regard to essential issues in today's media landscape, including new media technologies and democratic change, the political mobilization and censorship of images, the ethics of spectatorship, and the shifting role of the mainstream news media in the digital age. **The Psychology of Eyewitness Identification** James M. Lampinen, Jeffrey S. Neuschatz, Andrew D. Cling, 2012 This volume reviews and evaluates the scientific research on the accuracy and reliability of eyewitness identification. The implications of this research for psychological theory and for social and legal policy are explored. The book will appeal to Cognitive Psychologists and those in Legal Studies and Forensics. **The Mammoth Book of How it Happened in Britain** Jon E. Lewis, 2012-03-01 From Julius Caesar's arrival in 55 BC to the dawn of the third millennium, here are 300 accounts of exciting and important moments from first-hand sources. Featuring snapshots of wartime, political, and social unrest, natural disasters, and great individual achievements, plus vignettes of social life from cockfighting in Tudor inns to a Victorian Sunday in the country. Includes the Battle of Hastings in 1066, the execution in 1649 of Charles I, an account of the Great Fire of London in 1666, the death of Lord Nelson at Trafalgar in 1805, Wellington's triumph at Waterloo in 1815, the 1912 Antarctic Expedition, the last letters of Captain Scott, Frank Richards' 1914 account of Christmas in the trenches, the Battle of Britain in 1940, England winning the World

great interest to practitioners in the judicial system Ancient Israel: What Do We Know and How Do We Know It? Lester L. Grabbe, 2017-02-23 In *Ancient Israel* Lester L. Grabbe sets out to summarize what we know through a survey of sources and how we know it by a discussion of methodology and by evaluating the evidence. The most basic question about the history of ancient Israel: how do we know what we know? leads to the fundamental questions of Grabbe's work: what are the sources for the history of Israel and how do we evaluate them? How do we make them speak to us through the fog of centuries? Grabbe focuses on original sources including inscriptions, papyri and archaeology. He examines the problems involved in historical methodology and deals with the major issues surrounding the use of the biblical text when writing a history of this period. *Ancient Israel* provides an enlightening overview and critique of current scholarly debate. It can therefore serve as a handbook or reference point for those wanting a catalogue of original sources, scholarship and secondary studies. Grabbe's clarity of style makes this book eminently accessible not only to students of biblical studies and ancient history but also to the interested lay reader. For this new edition the entire text has been reworked to take account of new archaeological discoveries and theories. There is a major expansion to include a comprehensive coverage of David and Solomon and more detailed information on specific kings of Israel throughout. Grabbe has also added material on the historicity of the Exodus and provided a thorough update of the material on the later bronze age.

Historical Evidence and Argument David Henige, 2006-01-20 Historians know about the past because they examine the evidence. But what exactly is evidence? how do historians know what it means and how can we trust them to get it right? Historian David Henige tackles such questions of historical reliability head on in his skeptical, unsparing and acerbically witty *Historical Evidence and Argument*. Systematic doubt is his watchword and he practices what he preaches through a variety of insightful assessments of historical controversies for example over the dating of artifacts and the textual analysis of translated documents. Skepticism, Henige contends, forces us to recognize the limits of our knowledge but is also a positive force that stimulates new scholarship to counter it.
