Rational Fog M. Susan Lindee, 2020-09-15 A thought provoking examination of the intersections of knowledge and violence and the quandaries and costs of modern technoscientific warfare Science and violence converge in modern warfare While the finest minds of the twentieth century have improved human life they have also produced human injury They engineered radar developed electronic computers and helped mass produce penicillin all in the context of military mobilization Scientists also developed chemical weapons atomic bombs and psychological warfare strategies Rational Fog explores the quandary of scientific and technological productivity in an era of perpetual war Science is at its foundation an international endeavor oriented toward advancing human welfare At the same time it has been nationalistic and militaristic in times of crisis and conflict As our weapons have become more powerful scientists have struggled to reconcile these tensions engaging in heated debates over the problems inherent in exploiting science for military purposes M Susan Lindee examines this interplay between science and state violence and takes stock of researchers' efforts to respond Many scientists who wanted to distance their work from killing have found it difficult and have succumbed to the exigencies of war Indeed Lindee notes that scientists who otherwise oppose violence have sometimes been swept up in the spirit of militarism when war breaks out From

the first uses of the gun to the mass production of DDT and the twenty first century battlefield of the mind the science of war has achieved remarkable things at great human cost Rational Fog reminds us that for scientists and for us all moral costs sometimes mount alongside technological and scientific advances *Exile War: The Second Boxed Set* Bowen Greenwood,2025-02-09 The Archon Dominion crushes all dissent Mercy Hail wants change no matter the cost to herself But freak accidents keep happening around her and she can t explain why So when she lights the fuse on an uprising it s not exactly a surprise when everything goes wrong at once Reviewers have called this a grittier Star Wars with a slow burn enemies to lovers romance The three books in this digital boxed set are perfect for readers who ve never read any other book in this series *The War In Heaven* Austin Hepworth,2018 The Book of Revelation in the Bible mentions a War in Heaven a war that took place prior to this earth s existence This War was waged by Lucifer against God and has already included many spiritual casualties in its wake including many who chose to follow Lucifer instead of God Little is known about the actual details of this War yet it offers potential to teach so much about the things of God we often struggle to understand One soldier in the War is born into a world of hardship a world where darkness penetrates the depths of his soul It is only through gaining an understanding of the War his own pre mortal history and principles such as faith and sacrifice that he can finally gain the strength he needs to overcome the darkness inside and rejoin the battle for God s most prized possession **Exile War: The First Boxed Set** Bowen Greenwood, Mutants Genetically engineered telepaths Star crossed lovers Interstellar war When pig human hybrids and mind controlling telepaths come roaring back from exile war erupts in the Union of Human Space where peaceful colony worlds have forgotten armed conflict altogether Langston Wheeler one of the Union s order of genetically engineered peacekeepers plunges hip deep into the conflict while on a mission to the wealthy world known as Felicitas Tia Dynn Executive of the planet fights on the front lines to save her people from mind controlled slavery Raysen Pilak pilot and smuggler rises to lead the free people of Human Space in their battle against the Exiles And Cleo Sable Langston s one time love faces a choice that can change the course of the war and of history The Exile War is a tale of heroism and sacrifice violence and love Epic high fantasy set in space martial artistry and deep back story make this a space opera of interplanetary proportions *Shooting Up* Lukasz Kamienski,2016-02-10 Shooting Up A Short History of Drugs and War examines how intoxicants have been put to the service of states empires and their armies throughout history Since the beginning of organized combat armed forces have prescribed drugs to their members for two general purposes to enhance performance during combat and to counter the trauma of killing and witnessing violence after it is over Stimulants e g alcohol cocaine and amphetamines have been used to temporarily create better soldiers by that improving stamina overcoming sleeplessness eliminating fatigue and increasing fighting spirit Downers e g alcohol opiates morphine heroin marijuana barbiturates have also been useful in dealing with the soldier s greatest enemy shattered nerves Kamienski s focuses on drugs prescribed by military authorities but also documents the widespread unauthorised consumption by soldiers

themselves Combatants have always treated with various drugs and alcohol mainly for recreational use and as a reward to themselves for enduring the constant tension of preparing for Although not officially approved such self medication is often been quietly tolerated by commanders in so far as it did not affect combat effectiveness This volume spans the history of combat from the use of opium coca and mushrooms in pre modern warfare to the efforts of modern militaries during the Cold War in particular to design psychochemical offensive weapons that can be used to incapacitate rather than to kill the enemy Along the way Kamienski provides fascinating coverage of on the European adoption of hashish during Napoleon s invasion of Egypt opium use during the American Civil War amphetamines in the Third Reich and the use of narcotics to control child soldiers in the rebel militias of contemporary Africa

Film Criticism, the Cold War, and the Blacklist Jeff Smith, 2014-03-26 Film Criticism the Cold War and the Blacklist examines the long term reception of several key American films released during the postwar period focusing on the two main critical lenses used in the interpretation of these films propaganda and allegory Produced in response to the hearings held by the House Committee on Un American Activities HUAC that resulted in the Hollywood blacklist these films ideological message and rhetorical effectiveness was often muddled by the inherent difficulties in dramatizing villains defined by their thoughts and belief systems rather than their actions Whereas anti Communist propaganda films offered explicit political exhortation allegory was the preferred vehicle for veiled or hidden political comment in many police procedurals historical films Westerns and science fiction films Jeff Smith examines the way that particular heuristics such as the mental availability of exemplars and the effects of framing have encouraged critics to match filmic elements to contemporaneous historical events persons and policies In charting the development of these particular readings Film Criticism the Cold War and the Blacklist features case studies of many canonical Cold War titles including The Red Menace On the Waterfront The Robe High Noon and Invasion of the Body Snatchers
