Strikes and Solidarity Roy A. Church,Quentin Outram,2002-05-09 In this important contribution to the study of industrial relations Roy Church and Quentin Outram present research into the strike activity of British coalminers from the late nineteenth century to the mid 1960s The authors consider not only the major national strikes and lock outs which made the industry a byword for industrial militancy but also the multitude of small scale strikes which formed a routine part of British colliery lifes *Strikes and Solidarity* first published in 1998 is multi disciplinary in approach and views coalfield conflict from the perspectives offered by sociologists industrial relations specialists and economists as well as social and economic historians Church and Outram have successfully blended quantitative and qualitative investigations to explain the long standing issues presented by industrial relations in the coalfields **Forthcoming Books** Rose Arny,1996-10 **The**

Women Saying No Maria Fyfe,2014-08-18 If a majority of us decide to vote YES on 18 September 2014 then that divorce from the rest of the UK is easy to do No expensive lawyers No cost except the travel to the polling station No need to lift a finger Just a cross on a ballot paper But before you say that s great think on This is a decision we will live with for the rest of our lives and our children s and grandchildren s for maybe centuries to come MARIA FYFE It s been noted over and over again that women are more likely to vote NO in Scotland s Referendum 2014 There has been endless speculation as to why this may be but until now little expression of their views has been heard In a series of essays arguing for a NO vote at the forthcoming Scottish independence referendum 14 women varying in age ethnicity political views and life experience including Maria Fyfe Johann

Lamont MSP Sarah Boyack MSP and Fiona O'Donnell MP come together to make a positive case against independence. With contributions from leading current and former politicians and citizens, *Women Saying No* presents the arguments against independence from a female perspective in an attempt to widen the debate. *Praise for Maria Fyfe*: The book she has written is a gem. It zips along on a skilful mix of genuinely funny anecdotes, telling vignettes and perceptive political analysis. It serves future historians well too for it will serve as a necessary counterbalance to the leadership-centric books and diaries which have followed the Tony Blair-Peter Mandelson years. But it has a more immediate attraction than that. The Nats gets a good pre-referendum kicking from Oor Maria. Recalling that the Nats used to call the Scots Labour MPs the feeble fifty, she points out the SNP were nowhere to be seen the night a last-ditch Tory filibuster failed to halt the Minimum Wage Bill. ALASDAIR BUCHAN, *TRIBUNE* on A Problem Like Maria. A feisty irrepressible red-flag idealist, the only woman Scottish MP in a gang of fifty. She could not be bullied, bamboozled or bribed. She did not fit comfortably in to the Procrustean bed of a biddable Blair babe. PAUL FLYNN, *THE HOUSE MAGAZINE* on A Problem Like Maria. *Books In Print 2004-2005* Ed Bowker. Staff, Staff Bowker, Ed, 2004. *Rivals* Geoff Harvey, Vanessa Strowger, 2004-06. *Rivals* is both the ultimate directory of football derbies and a collection of the stats that really matter for the English League Clubs. Forget the dry and oft-quoted football facts. *Rivals* arms the reader with a completely new set of fan-based stats. Find out which club has the highest nuttiness rating, arrests per 1,000 attendance or the worst. Your ground's too big for you, ranking which club offers their supporters the worst. Fans' value for money, admission price as a ratio of 5-year league position. There are many intriguing, often funny stories behind the web of little publicised though frequently intense rivalries between clubs and fans. With many contributions from supporters, the book examines the extraordinary cult of British Football Derbies, looking at the inter-town and regional biases, stereotypes and opinions that fans have about their footballing rivals. At 240pp, *Rivals* is a light-hearted collection of statistics, fans' testimony and boundless trivia. The book uncovers the amusing, bizarre and sometimes alarming portraits of the intensity of fans' feelings and the way in which they perceive other teams, towns and cities. It has a clear format, pulling together diverse facts. Attractively designed, with information given under headings, allowing the reader to compare various facts on a club-to-club basis, the text can be read from cover to cover or dipped into. **The Black Diamond**, 1915. Labor's News, 1926.

The Toughest Half Elizabeth Stewart, 2021-07-01. Lasting barely two centuries throughout the 1700s and 1800s, the Industrial Revolution in Britain propelled the country into the role of the world's premier industrial nation. Known as the midwife of the Industrial Revolution, coal was literally the driving force behind this power. Although referred to as the black diamond, coal is not a thing of beauty; yet like the true diamond, it is representative of power and wealth. Coal mining usually evokes images of tough men glistening with the sweat of underground toil. We talk about man power and manual labour; the industry has become synonymous with men. Rarely, if ever, do women come to mind, yet until an Act of 1942 banned them from working down the mines, women worked alongside men, their toil equally as gruelling in conditions just as appalling. Forbidden

by Victorian prudery from working underground they were replaced at much greater expense to the mine owners by ponies. The efforts of these women every bit as responsible as men for creating Britain's once greatest industry have rarely been acknowledged. During the 1926 general strike and lockout Herbert Smith, President of the Miners Federation of Great Britain, reported that half the attendees at union meetings were women. And these, he insisted, are always the toughest half. This book tells of the history of coal and coal mining from mediaeval times to the demise of the industry in Britain in the 1990s and describes women's role in this history and how it affected their lives. Through a combination of historical narrative, fiction and biography, the book gives a voice to these diminished others: wives, mothers and daughters whose persistence, courage, pride and sacrifice also contributed to the profits of wealthy mine owners. Their stories are told through the prism of historical events: the frightened little girl forced to work alone in subterranean darkness; the poverty-stricken young woman confronting an unwanted pregnancy; those enduring the loss of sons and partners to a deadly occupation; and women who, through adversity, took the opportunity to publicly reveal their collective strength. Gentle and gruff, warm-hearted and implacable, these battlers against grime, beaters of carpets, painters, decorators and cooks, activists and staunch supporters of strikes and lockouts underpinned the foundations of Britain's coal industry. Woven through this book is the true story of the author's mother, a miner's daughter. Her life too was hard and closely entwined with coal mining to which she made over many years a considerable contribution, not only to the industry but to the mining communities in which she worked.

Army, Navy, Air Force Journal & Register, 1948 **World Affairs Report** California Institute of International Studies, 1985 **The History of the American Working Class** Antanas Bimba, Anthony Bimba, 1927 **Liberators, Patriots and Leaders of Latin America** Jerome R. Adams, 2010-03-08

This book features biographies of 32 of the most notable figures in Latin American history. To the 23 individuals from the first edition, consisting mostly of revolutionary political and military figures of the past, are added nine new biographies of contemporary Latin American presidents, providing an updated view of the region's leadership. Several patterns run through the individual biographies. The concept of native identity is an important aspect in the stories of Malinche, Juarez, Sandino and Zapata, profoundly affecting the politics of modern Brazil, Mexico and Nicaragua. One also sees a continuing compulsion to rebel against overwhelming odds in the cases of Manuela Saenz, Che Guevara and Daniel Ortega.
