Preconditions of National Revival in Europe Miroslav Hroch, 2000 This classic work on nationalism originally published thirty years ago and now reissued with a new preface by the author provides excellent historical and political background to the profusion of recent nationalist movements in Eastern Europe Amid all the speculation and theorizing about nationalist currents Hroch's empirically based study helps counter the impulse toward easy and spectacular generalizations and provides sound footing for an informed approach to the topic The Routledge Companion to World History since 1914

Religion, Society, and Modernity in Turkey Serif Mardin, 2006-06-30 This book collects Serif Mardin's seminal essays written throughout the span of his prolific career Comprising some of the author's finest and most incisive writings these essays deal with the historical background political travails and socioeconomic metamorphosis of Turkey during a century of modernization With his characteristic sophistication and breadth of vision Mardin provides readers with a remarkably objective analysis of ideology civil society religion urban life and violence in late Ottoman and Republican Turkey Mardin moves easily from sociological topics on violence and class consciousness to the history of the Ottoman Empire and the philosophy and culture of modern Turkey within the greater Middle East These influential pieces collected for the first time in one volume represent an invaluable addition to the field of Middle East studies Ethnonationalism Walker Connor, 2018-06-05 Walker Connor perhaps the leading student of the origins and dynamics of ethnonationalism has consistently stressed the importance of its political implications In these essays which have appeared over the course of the

last three decades he argues that Western scholars and policymakers have almost invariably underrated the influence of ethnonationalism and misinterpreted its passionate and nonrational qualities Several of the essays have become classics together they represent a rigorous and stimulating attempt to establish a secure methodological foundation for the study of a complicated phenomenon increasingly if belatedly recognized as the major cause of global political instability The book opens by reviewing a wide range of scholarship on ethnonationalism Connor examines nineteenth and early twentieth century debate among British scholars on the viability and desirability of the multinational state the American nation building school of thought that dominated the literature on political development in the post World War II era and the recent explosion of literature on ethnonationalism In the second part of the book he shows how progress in the study of ethnonationalism has been hampered by terminological confusion an inclination to perceive homogeneity even where heterogeneity thrives an unwarranted tendency to seek explanation for ethnic conflict in economic differentials and lack of historical perspective The book closes with a consideration of the inherent limitations of rational inquiry into the realm of group identity

Handbook of Historical Sociology Gerard Delanty, Engin F Isin, 2003-06-23 Systematic and informative this book is a complete and authoritative guide to historical sociology in three parts foundations different approaches and major substantive themes

The Mass Psychology of Ethnonationalism Dusan Kecmanovic, 2013-11-11 Throughout the nineteenth and twentieth centuries ethnonationalism has left its indelible mark on Europe and every other continent The latest events in the Balkans in central and eastern Europe and in the former Soviet Union unequivocally testify to the power and influence of ethnonationalism at the end of the second millennium What forces make people so committed to their ethnonational groups that they are ready to ignore all other concerns first and foremost the rights and interests of people of other ethnicities What is the social psychological and anthropological underpinning of ethnonationalism And finally why and how do people adhere to nationalist attitudes and beliefs These questions are virtually impossible to avoid for anyone who has directly felt the impact of ethnonationalism but they also present themselves to anyone who has indirectly experienced the prejudices unleashed by ethnonationalist forces This book attempts to answer all these questions by focusing on national feeling and the social psychological and anthropological foundations that underly the sense of belonging that is essential to nationalism No matter how qualitatively different nationalist attitudes and beliefs are from national sentiment the latter has to be considered in any study of nationalism
