O Jerusalem The Contested Future Of The Jewish Covenant:

O, Jerusalem! Marc H. Ellis, The peril and promise of contemporary Jewish identity **Failing Peace** Sara Roy, 2006-10-20 Discussion of Israeli policy toward Palestinians is often regarded as a taboo subject with the result that few people especially in the US understand the origins and consequences of the conflict This book provides an indispensable context for understanding why the situation remains so intractable The book focuses on the Gaza Strip an area that remains consistently neglected and misunderstood despite its political centrality Drawing on more than two thousand interviews and extensive firsthand experience Sara Roy chronicles the impact of Israeli occupation in Palestine over nearly a generation Exploring the devastating consequences of socio economic and political decline this is a unique and powerful account of the reality of life in the West Bank and Gaza Written by one of the world's foremost scholars of the region it offers an unrivalled breadth of scholarship and insight Conceptions of God, Freedom, and Ethics in African American and Jewish Theology K. Buhring, 2008-05-12 This book is a consideration of major contemporary Black and Jewish understanding of God examining how profound faith in a just God is sustained and even strengthened in the face of particularly horrific and long standing evil and suffering in a community **Remembering for the Future** J. Roth, E. Maxwell, 2017-02-13 Focused on The Holocaust in an Age of Genocide Remembering for the Future brings together the work of nearly 200 scholars from more than 30 countries and features cutting edge scholarship across a range of disciplines amounting to the most extensive and powerful reassessment of the Holocaust ever undertaken In addition to its international scope the project emphasizes that varied disciplinary perspectives are needed to analyze and to check the genocidal forces that have made the Twentieth century so deadly Historians and ethicists psychologists and literary scholars political scientists and theologians sociologists and philosophers all of these and more bring their expertise to bear on the Holocaust and genocide Their contributions show the new discoveries that are being made and the distinctive approaches that are being developed in the study of genocide focusing both on archival and oral evidence and on the religious and cultural representation of the Holocaust **Modern Musar** Geoffrey D. Claussen, Louis E. Newman, 2022-04 How do modern Jews understand virtues such as courage humility justice solidarity or love In truth they have fiercely debated how to interpret them This groundbreaking anthology of musar Jewish traditions regarding virtue and character explores the diverse ways seventy eight modern Jewish thinkers understand ten virtues honesty and love of truth curiosity and inquisitiveness humility courage and valor temperance and self restraint gratitude forgiveness love kindness and compassion solidarity and social responsibility and justice and righteousness These thinkers from the Musar movement to Hasidism to contemporary Orthodox Reform Conservative Reconstructionist Renewal Humanist and secular Jews often agree on the importance of these virtues but fundamentally disagree in their conclusions The juxtaposition of their views complemented by Geoffrey Claussen's pointed analysis allows us to see tensions with particular clarity and sometimes to recognize multiple compelling ways of viewing the same virtue By expanding the category

of musar literature to include not only classic texts and traditional works influenced by them but also the writings of diverse rabbis scholars and activists men and women who continue to shape Jewish tradition Modern Musar challenges the fields of modern Jewish thought and ethics to rethink their boundaries and invites us to weigh and refine our own moral ideals

The New Diaspora and the Global Prophetic Susanne Scholz, Santiago Slabodsky, 2021-05-06 For four decades Marc H Ellis has sought to rethink the Jewish tradition in light of the prophetic imperative especially with regard to the need for geopolitical justice in the context of Israel Palestine Here twenty two contributors offer intellectual theological political and journalistic insight into Ellis s work connecting his theological scholarship to the particularities of their own contexts Some contributors reflect specifically on Israel Palestine while others transfer Ellis s theopolitical discussions to other geopolitical cultural or religious concerns Yet all of them rely on Ellis s work to understand the connections of prophetic discourses religious demands social movements and projects of social justice Paying particular attention to global racism sexism ethnocentrism white supremacy and current neocolonial practices the contributors also address minoritized liberation theologies the role of memory exile and forgiveness biblical hermeneutics and political thought In diverse and powerful ways the contributors ground their scholarship with the activist drive to deepen enrich and strengthen intellectual work in meaningful ways

Israel and Palestine - Out of the Ashes Marc H. Ellis, 2002-10-20 As the world watches with horror the unfolding events in Palestine and Israel Marc Ellis a Jewish American scholar examines what he sees as a crisis point in Jewish identity In this book Ellis offers a vision of Judaism that testifies to an ethical life in our era based on the principles of justice and community upon which the Jewish faith was founded Only by addressing the way in which those original principles are being squandered by a militarised state of Israel and a complicit Jewish establishment in America he argues can there be hope for peace in the future Israel and Palestine Out of the Ashes is a deeply personal philosophical account of contemporary Jewish identity Looking beyond the legacy of the Holocaust and beyond the portrayal of Jews as either victims or persecutors Ellis forges a new vision of what it means to be Jewish today

The Jews as a Chosen People S. Leyla Gurkan, 2008-12-05 The concept of the Jews as a chosen people is a key element of the Jewish faith and identity This book explores the idea of chosenness from the ancient world through modernity and into the Post Holocaust era Analysing a vast corpus of biblical ancient rabbinic and modern Jewish literature the author seeks to give a better understanding of this central doctrine of the Jewish religion She shows that although the idea of chosenness has been central to Judaism and Jewish self definition it has not been carried to the present day in the same form Instead it has gone through constant change depending on who is employing it against what sort of background and for what purpose Surveying the different and sometimes conflicting interpretations of the doctrine of chosenness that appear in Ancient Modern and Post Holocaust periods the dominant themes of Holiness Mission and Survival are identified in each respective period The theological philosophical and sociological dimensions of the question of Jewish chosenness are thus examined in their historical context

as responses to the challenges of Christianity Modernity and the Holocaust in particular This book will be of interest to scholars and students of Jewish Studies the Holocaust religion and theology **Transformed Landscapes** Walid Khalidi, Kamīl Manşūr, Leila Tarazi Fawaz, 2009 A collective look at aspects of the historical background to the continuing Palestinian question The Resurrection of Peace Mary Grey, 2012-11-15 Mary Grey takes the reader on a contemporary Lenten journey through a series of profound theological reflections on the search for peace and reconciliation in Israel Palestine Along the way she explores the core Christian concepts of redemption atonement and resurrection from the perspective of justice making in the real world pursuing a spirituality of perseverance and steadfastness sumud deriving from her work with Middle Eastern Christians The book draws on all four Gospels and the book of Revelation providing biblical inspiration for the quest for peace *The Female Face of God in Auschwitz* Melissa Raphael, 2003 The first full length feminist dialogue with Holocaust theory theology and social history Considers women s reactions to the holy in the camps at Auschwitz Being about Borders Michele Saracino, 2011-05-01 In an age of globalization where borders seem to be disappearing everywhere between nations religions and even within families it is easy to believe our reactions to difference are vanishing as well Bringing together the latest insights from constructive theology contemporary continental theory and trauma studies Michele Saracino shows how deceiving and even deadly this assumption can be She argues that in the post 9 11 era Christians are obligated now more than ever to be vigilant about difference to be attentive to the emotional dissonance that encountering others incites and to acknowledge it before border disputes escalate into violence We are neither so different that we have nothing to talk about nor so similar that we have everything to celebrate Instead for Saracino we are caught in the middle at porous borders at in between spaces which cause consternation fear anger and even rage By embracing these conflicting emotions that accompany border life Saracino claims that Christians can honor the person and work of Jesus Christ and the mystery of the incarnation and perhaps become living memorials to those who have suffered trauma all in the name of their being different Michele Saracino is an associate professor of religious studies at Manhattan College in Riverdale New York She is the author of *On Being Human A Conversation with Lonergan and Levinas* and researches and teaches on the intersections between theology and culture **Christians and a Land Called Holy** Charles P. Lutz, Robert Ora Smith, Fair minded and sympathetic to Jewish Muslim and Christian concerns Lutz and Smith provide a clear account of the Israeli Palestinian situation and a compelling plea for Christian involvement in the area Carefully sorting out the tangled historical and religious roots of the problems they reveal the strong forces at work in the conflict and lay out the driving biblical notions of election and covenant the historical causes of the bitter and divisive clashes of the last 50 years the complex demographic and political issues today how Palestinians particularly Christians have been affected by the turmoil and how finally Christians must engage the future of justice and peace Includes maps and twelve black and white photos *The Will to Arise* Caleb Oluremi Oladipo, 2006 One of the most important developments of

Christianity in the twentieth century was its transformation in South Africa where it became a vibrant religion rooted in African idioms and cultures The church also became engaged in the struggle against social and political injustice and church leaders employed the vocabularies of faith to secure civil liberty This hard hitting book focuses on post apartheid Christian character and establishes the theological and spiritual authority of African Christians calling contemporary Christians to renew their faith and Christian identity It shows too that one cannot seriously consider contemporary Christianity apart from the African experience Sense and Sensitivity Philip R. Ellis, Faith and struggle pain and promise As a post Holocaust Jewish thinker Marc Ellis inhabits the land between homes that we call exile In this intensely personal work he explores how the religious landscape looks from the perspective of an exile and how religious searching continually leads away from the domestic comforts of received Jewish and Christian platitudes and into new struggles for religious authenticity At once a memoir and an examination of conscience Ellis s autobiographical starting points spark reflections on Jewish Christian relations liberation theology religion and politics and issues of justice in Israel and Palestine His experiences also occasion meditations on solitude and solidarity gratitude and alienation memory and responsibility They exemplify how religiously committed persons though exiled forever from yesterday s certitudes can yet practice covenantal fidelity In the end for Ellis and for the reader there is no going back Exile is not simply a fact it is a religious imperative At stake is the integrity of the religious search as a truly ecumenical adventure For Zion's Sake Paul Richard Wilkinson,2008-12-01 By locating Christian Zionism firmly within the Evangelical tradition Paul Wilkinson takes issue with those who have portrayed it as a totally unbiblical menace and as the roadmap to Armageddon Charting in detail its origins and historical development he argues that Christian Zionism lays the biblical foundation for Israel s restoration and the return of Christ No one has contributed more to this cause than its leading architect and patron John Nelson Darby an uncompromising champion for Christ s glory and God s truth This groundbreaking book challenges decades of misrepresentation and scholarship exploding the myth that Darby stole the doctrine of the pre tribulation Rapture from his contemporaries By revealing the man and his message Paul Wilkinson vindicates Darby and spotlights the imminent return of the Lord Jesus Christ as the centerpiece of his theology **O, Jerusalem!** Björn Krondorfer,2000
