Federico Bonaddio, 2007 Lorca icon and polymath in all his manifestations *Federico García Lorca* Simon Breden, 2024-08-26 Lauded as one of the most important poets and playwrights of the twentieth century Federico García Lorca was also an accomplished theatre director with a clear process and philosophy of how drama should be staged Directing both his own work and that of others Lorca was also closely involved in the rehearsals for productions of many of his plays and from his own writings and those of his collaborators a determined agenda to stimulate audiences and renovate theatre can be seen This is the first book in English to fully consider Lorca as a director and his rehearsal methodology The book combines A biographical account of Lorca's work as a director and rehearsal leader revealing his techniques and methods of approach texts An exploration of his key writings on and around theatre drawing on his talks play introductions and some of the dramatic works themselves The first translation into English of his fragment *Dragón* A detailed discussion of Lorca's key productions *Lope de Vega's Fuente Ovejuna* 1933 for La Barraca and his own *Yerma* 1934 Specific focus on the practical applications that we can draw from Lorca's methods both from what survives of his own work and from the accounts of his close collaborators As a first step towards critical understanding and as an initial exploration before going on to further primary research Routledge Performance Practitioners offer unbeatable value for today's student The Creative Process of Els Joglars and Teatro de La Abadía Simon Breden, 2014 The rehearsal processes of theatre companies are an oft neglected area of research in Drama and Performance Studies This work on the Catalan devising collective Els Joglars and the Madrid producing venue Teatro de la Abadía seeks to redress the balance with a close analysis of methodologies employed in rehearsal In effect both companies have created distinctive rehearsal processes by applying ideas and techniques from a wider European context to a Spanish theatre scene which had been seen to follow rather than develop

trends and techniques visible in theatre across France Italy and Germany Critically their hybrid rehearsal processes generate heightened theatrical results for the audience Thus the book shifts the focus of academic study away from product and towards process demonstrating how an understanding of process assists in the reading of the theatrical product

The Galician Works of Ramón Del Valle-Inclán Ann Frost,2010 Ram n del Valle Incl n 1866 1936 was undoubtedly the most controversial literary figure of his generation Whilst his genius was recognised by fellow writers the reading public was slow to accept his work and his theatre taxed directors and audiences alike One of the harshest criticisms levelled against him concerned his use of repetition This study shows how the reuse recycling and development of material becomes one of the hallmarks of Valle Incl n s writing during the first three decades of his literary career linking one genre with another and blurring the borders between different aesthetics The repetition of themes and motifs characters and stylistic devices reveals an underlying interdependence among works that on the surface appear unconnected or even contradictory Many of Valle Incl n s works have been studied in isolation rather than as pieces of a whole This book examines the elements that provide significant links in his writing between 1889 and 1922 most of which shares the common backdrop of Galicia

and demonstrates that apparently unrelated works are part of a larger picture Despite changes in perspective and genre there are constants that relate individual works to those that precede and follow creating a unifying pattern of continuity
