

Poetics

*You know the old story Ann Landers tells
About the housewife in her basement doing the wash?
She's wearing her nightie, and she thinks, "Well, hell,
I might's well put this in as well," and then
Being dripped on by a leaky pipe puts on
Her son's football helmet; whereupon
The meter reader happens to walk through
and "Lady," he gravely says, "I sure hope your team wins."*

*A story many times told in many ways,
The set of random accidents redeemed
By one more accident, as though chaos
Were the order that was before the creation came.
That is the way things happen in the world:
A joke, a disappointment satisfied,
As we walk through doing our daily round,
Reading the meter, making things add up.*

Poetics In The Poem:

Bodies of Poems Lennart Nyberg, 2009 The traditional borders between the arts have been eroded to reveal new connections and create new links between art forms Cultural Interactions is intended to provide a forum for this activity It will publish monographs edited collections and volumes of primary material on points of crossover such as those between literature and the visual arts or photography and fiction music and theatre sculpture and historiography **The Poetics of Aristotle, tr. by Twining [ed. by H. Hamilton].** Aristotle, 1851 **The Art of Poetry** Shira Wolosky Weiss, 2001 The book includes a superb two chapter discussion of the sonnet's form and history and represents the first poetry guide to introduce gender as a basic element of analysis Jacket Edgar Allan Poe: Poems and Poetics Edgar Allan Poe, 2003-10-13 Poe thought of himself as fundamentally a poet even though he felt that economic pressures had prevented him from devoting himself fully to what under happier circumstances would have been the field of my choice In his poems can be found the most distilled expression of that quest for supernal realities that he took as his aesthetic credo Richard Wilbur has collected here the whole canon of Poe's mature poetry along with a selection of prose writings that illuminate his poetic goals BOOK JACKET **The Poetics of the Occasion** Marian Zwerling Sugano, 1992 Although Mallarmé is commonly viewed as the high priest of the autonomous work of art by far the bulk of his actual poetic writing was occasional verse With few exceptions the works written after 1873 manifest a reinvestment in the world subsequent to the metaphysical crises of the 1860's In addition to the Tombeaux the toasts and certain of the Eventails Mallarmé composed the Vers de circonstance more than 450 quatrains and distichs inscribed on envelopes postcards calling cards Easter eggs small stones photographs and jugs of Calvados This is the first comprehensive reading and analysis of the neglected late poetry heretofore dismissed as of marginal interest This book has a dual purpose By exploring the occasional verse of Mallarmé which itself thematizes the problematics of the occasion the author seeks to rehabilitate such writing for critical study She does this not by proclaiming its high seriousness but by insisting on its casual amenable public nature Unlike previous critics who have often apologized for straying into the fringes of the canon the author delights in the marginal insisting that in a poetics of the occasion traditional oppositions such as center margin become skewed and break down The author's second purpose is to come to a better understanding of Mallarmé in light of what he actually wrote rather than the work projected in his correspondence and prose articles which has claimed so much critical attention Each of the chapters of the book highlights one aspect of occasional poetry through an investigation of representative texts both canonical and occasional The author also discusses the relationship between Mallarmé's poetics and the plastic arts tracing the changing conception of the representation of the monument from the nineteenth to the twentieth century as well as the correspondences between the more radical aspects of Mallarmé's practice of writing and the contemporary arts Far more than a study of a single writer this book is the first to propose a pragmatic definition of occasional literature to undertake a broad study of the problem of occasion in literature

and to trace the historical trajectory of occasional writing as a specific discourse The book is illustrated with 27 halftones

Bruns, 2005 Poetry is philosophically interesting writes Gerald L Bruns when it is innovative not just in its practices but before everything else in its poetics that is in its concepts or theories of itself In *The Material of Poetry* Bruns considers the possibility that anything under certain conditions may be made to count as a poem By spelling out such enabling conditions he gives us an engaging overview of some of the kinds of contemporary poetry that challenge our notions of what language is sound poetry visual or concrete poetry and found poetry Poetry's sense and meaning can hide in the spaces in which it is written and read says Bruns and so he urges us to become anthropologists to go afield in poetry's social historical and cultural settings From that perspective Bruns draws on works by such varied poets as Gertrude Stein Ezra Pound Steve McCaffery and Francis Ponge to argue for three seemingly competing points First poetry is made of language but is not a use of it That is poetry is made of words but not of what we use words to produce concepts narratives expressions of feeling and so on Second as the nine sound poems on the CD included with the book demonstrate poetry is not necessarily made of words but is rooted in and in fact already fully formed by sounds the human body can produce Finally poetry belongs to the world alongside ordinary things it cannot be confined to some aesthetic neutral or disengaged dimension of human culture Poetry without frontiers unmoored from expectations and sometimes even written in imaginary languages Bruns shows us why for the sake of all poetry we should embrace its anarchic vitalizing ways **Poetics in the Poem** Dorothy Zayatz Baker, 1997 Focuses on poems that address issues of poetics directly that take them as a primary subject rather than display them merely by being the particular poem it is Among the poets considered are Emily Dickinson Emerson Harlem Renaissanceers Archibald Macleish Karl Shapiro Robert Lowell Denise Levertov Gary Snyder and Wendell Berry Other topics include comparisons rhetoric and 19th century reflections Annotation copyright by Book News Inc Portland OR **The Poetry of Philosophy** Michael Davis, 1999 Although Aristotle's *Poetics* is the most frequently read of his works philosophers and political theorists have for the most part left analysis of the

text to literary critics and classicists In this book Michael Davis argues convincingly that in addition to teaching us something about poetry *Poetics* contains an understanding of the common structure of human action and human thought that connects it to Aristotle's other writings on politics and morality Davis demonstrates that the duality of *Poetics* reaches out to the philosopher writer and political theorist and shows the importance of the ideal in our imaginings of and goals for the future

American Poets in the 21st Century Claudia Rankine, Lisa Sewell, 2007-07-09 The ideal introduction to the current generation of American poets

Philip Larkin's Poetics István D. Rácz, 2015-11-24 In Philip Larkin's *Poetics* István D. Rácz offers a reading of Larkin's credo that systematically discusses the links between his principles and practice a discussion notably absent up to now from the many studies of this outstanding post 1945 British poet While Larkin claimed that his poetry did not need any explication Rácz argues that a careful reading reveals a coherent poetics This thoroughgoing discussion of the oeuvre provides ample evidence that Larkin's poetry of interacting opposites creates a logically organized system based on principles to be found in his poetics

Poetic Closure Barbara Herrnstein Smith, 1968 Explores the question How do poems end This work examines numerous individual poems and examples of common poetic forms in order to reveal the relationship between closure and the overall structure and integrity of a poem

The Poem's Two Bodies David Lee Miller, 2014-07-14 The role of the human body as a poetic and ideological construct in the 1590 *Faerie Queene* provides the point of departure for David Lee Miller's richly detailed treatment of Spenser's allegory In this major contribution to the study of Renaissance literature and ideology Miller finds the poem organized by a fantasy of bodily wholeness that like the marriage of Arthur and Gloriana is both anticipated and deferred in the text Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

[Reading the Modernist Long Poem](#) Brendan C. Gillott, 2020-12-10 How do readers approach the enigmatic and unnavigable modernist long poem Taking as the form's exemplars the highly influential but critically contentious poetries of John Cage and Charles Olson this book considers indeterminacy the fundamental feature of the long poem by way of its analogues in musicology mycology cybernetics and philosophy It addresses features of these works that figure broadly in the long poem tradition such as listing typography archives mediation and mereology while articulating how both poets broke with the longform poetic traditions of the early 1900s Brendan C Gillott argues for Cage's and Olson's centrality to these traditions in developing critiquing and innovating on the longform poetics of the past their work

revolutionized the longform poetry of the 20th and 21st centuries **The Dream and the Dialogue** Alice Templeton,1994

Adrienne Rich's poetry has long engaged critics in questions about the nature of poetic art the character of poetic tradition and the value of poetry as a political and cultural activity At the same time it has attracted many general readers largely because it expresses the personal social and intellectual crises faced by feminists during the last thirty years In this study Alice Templeton looks at the ways in which feminist thinking has influenced Rich's poetics while simultaneously her poetic practice has shaped her feminist conceptions Templeton begins by exploring the tensions between epic eulogistic and lyric claims made in the poems collected in *Diving into the Wreck* 1973 She then examines the strategies Rich uses in subsequent collections to test and refine her feminist thinking Templeton focuses in particular on the dialogic moments of cultural participation that Rich's poetry provides for the poet and the reader These moments Templeton argues can dispel myths of social determinism even as they implicate readers in an ethically charged communal bond By demonstrating the contributions that Rich has made both to feminist thinking and to our ways of reading poetic tradition *The Dream and the Dialogue* treats Rich as a poet of ideas and places her work solidly in the context of contemporary literary theory BOOK
