s presumptuous but if you're reading this you probably know my usual obsessions and preoccupations The world both the word and what it stands for and time Which is or isn't real depending on my mood I've always hated poems about philosophy and I hope I still do But since I don't know what that means anymore here I am musing on my ends and my beginnings one more time In *Beyond Belief* John Koethe poses eternal and essential questions about the rhythms of time language and literature and the space between attention and belief The eleventh book of poetry from America's philosopher poet is an intimate searching collection that gives life to the mundane and lends words to our most interior and abstract musings What makes a life real Words on a page the accumulation of moments and memories or nothing at all And what is a life worth Locked inside have we lost our future and its promises or are we merely pressed to inhabit our present and ourselves The award-winning poet invites us into his consideration of our world as An ordinary person sitting on his balcony on a summer afternoon Waiting patiently for someone to explain it to and meanwhile Living quietly in his imagination imagining the afterlife

(Re)Writing Craft Tim Mayers, 2005-06-10 *Re Writing Craft* focuses on the gap that exists in many English departments between creative writers and compositionists on one hand and literary scholars on the other in an effort to radically transform the way English studies are organized and practiced today In proposing a new form of writing he calls craft criticism Mayers himself a compositionist and creative writer explores the connections between creative writing and composition studies programs which currently exist as separate fields within the larger and more amorphous field of English studies If creative writing and composition studies are brought together in productive dialogue they can in his view succeed in inverting the common hierarchy in English departments that privileges interpretation of literature over the teaching of writing

Wordplay and Powerplay in Latin Poetry Phillip Mitsis,Ioannis Ziogas,2016-07-28 The political allegiances of major Roman poets have been notoriously difficult to pin down in part because they often shift the onus of political interpretation from themselves to their readers By the same token it is often difficult to assess their authorial powerplays in the etymologies puns anagrams telestichs and acronyms that feature prominently in their poetry It is the premise of this volume that the contexts of composition performance and reception play a critical role in constructing poetic voices as either politically favorable or dissenting and however much the individual scholars in this volume disagree among themselves their readings try to do justice collectively to poetry s power to shape political realities The book is aimed not only at scholars of Roman poetry politics and philosophy but also at those working in later literary and political traditions influenced by Rome s greatest poets *Coleridge's Later Poetry* Morton D. Paley,1999 The poems that Coleridge wrote after his golden period are seldom studied or anthologized Yet many of these later poems are of quality and interest addressing such universal themes as the nature of self and the experience of unrequited love Paley examines the later verse in the context of Coleridge s oeuvre He discusses its distinguishing characteristics and looks at why the poet felt he had to develop distinctively different modes of writing for these works *Poetry as a representative art; an essay in comparative aesthetics* George Lansing Raymond,1899
