Problem Of Difference Phenomenology And Poststructuralism:

The Problem of Difference Jeffrey A. Bell, 1998-12-15 Beginning with Plato and Aristotle philosophers throughout history have built their theories around the problem of reconciling a fundamental distinction as for example Plato's distinction between knowledge reality and opinion appearance Descartes' mind/body distinction and Kant's a priori/a posteriori distinction This problem of difference is a classic theme in philosophy and one that has taken especially intriguing turns in recent decades Jeffrey A. Bell here presents a finely constructed survey of the contemporary continental philosophers focusing on how they have dealt with the problem of difference Bell's work centres around three key figures Husserl Merleau-Ponty and Deleuze He also considers the positions of such thinkers as Foucault Derrida and Rorty who have called for an end to the traditional response to the problem of difference an end to the search for any ultimate foundations on which our varied and different experiences of the world might be based and thus in effect an end to traditional philosophy In clarifying the relationship between phenomenology and poststructuralism Bell analyses the role of paradox in both traditions in particular the role it plays in accounting for difference Not only philosophers but also teachers and students in the area of comparative literary theory will benefit from this book

Merleau-Ponty and Derrida Jack Reynolds, 2004 While there have been many essays devoted to comparing the work of Maurice Merleau-Ponty with that of Jacques Derrida there has been no sustained book-length treatment of these two French philosophers Additionally many of the essays presuppose an oppositional relationship between them and between phenomenology and deconstruction more generally Jack Reynolds systematically explores their relationship by analyzing each philosopher in terms of two important and related issues embodiment and alterity Focusing on areas with which they are not commonly associated e.g. Derrida on the body and Merleau-Ponty on alterity makes clear that their work cannot be adequately characterized in a strictly oppositional way Merleau-Ponty and Derrida Intertwining Embodiment and Alterity proposes the possibility of a Merleau-Ponty inspired philosophy that does not so avowedly seek to extricate itself from phenomenology but that also cannot easily be dismissed as simply another instantiation of the metaphysics of presence Reynolds argues that there are salient ethico-political reasons for choosing an alternative that accords greater attention to our embodied situation As the first full-length monograph comparing the philosophers Merleau-Ponty and Derrida will interest scholars and students in European philosophy and teachers of courses dealing with deconstruction

Eric Voegelin's Dialogue with the Postmoderns Eric Voegelin, 2004 This collection of essays endeavors to generate a dialogue between Eric Voegelin and other prominent twentieth-century thinkers and explore some of the more perplexing issues in contemporary political theory Each essay rests on the underlying question is it possible or desirable to construct or discover political foundations without resorting to metaphysical or essentialist constructs The introduction focuses on the two nineteenth-century thinkers Nietzsche and Husserl who have framed the debate about modernity and postmodernity thereafter the book examines Voegelin's ideas as compared to those of other twentieth-century

thinkers Discussed within the volume are Levinas and the precedence of ethics Ricoeur s theory of narrative representation Deleuze and the philosophy of immanence Voegelin s relationship to a speech dimension theory of human behavior and Patocka s theory of pre metaphysical transcendence in Socrates What will impress scholars most about this collection is the provocative dialogue created between Voegelin and other major thinkers of postmodernism that addresses the issue of establishing foundations without foundationalism *Deleuze and Guattari's What is Philosophy?* Jeffrey A Bell,2016-01-31 In their final collaborative work Deleuze and Guattari set out to address the question what is philosophy Their answer is simple enough philosophy is the art of forming inventing and fabricating concepts Following the chapters and themes of What

Deleuze and the Genesis of Representation Joe Hughes,2011-10-20 Deleuze and the Genesis of Representation is a systematic study of three of Deleuze s central works Difference and Repetition The Logic of Sense and with Guattari Anti Oedipus Hughes shows how each of these three works develops the Husserlian problem of genetic constitution After an innovative reading of Husserl s late work Hughes turns to a detailed study of the conceptual structures of Deleuze s three books He demonstrates that each book is surprisingly similar in its structure and that all three function as nearly identical accounts of the genesis of representation In a highly original and crucial contribution to Deleuze Studies this book offers a provocative perspective on many of the questions Deleuze s work has raised What is the status of representation Of subjectivity What is a body without organs How is the virtual produced and what exactly is its function within Deleuze s thought as a whole By contextualizing Deleuze s thought within the radicalization of phenomenology Hughes is able to suggest solutions to these questions that will be as compelling as they are controversial *Thinking between Deleuze and Merleau-Ponty* Judith Wambacq,2018-01-03 Thinking between Deleuze and Merleau Ponty is the first book length examination of the relation between these two major thinkers of the twentieth century Questioning the dominant view that the two have little of substance in common Judith Wambacq brings them into a compelling dialogue to reveal a shared historically grounded concern with the transcendental conditions of thought Both Merleau Ponty and Deleuze propose an immanent ontology differing more in style than in substance Wambacq s synthetic treatment is nevertheless critical she identifies the limitations of each thinker s approach to immanent transcendental philosophy and traces its implications through their respective relationships with Bergson Proust C zanne and Saussure for ontology language artistic expression and the thinking of difference Drawing on primary texts alongside current scholarship in both French and English Thinking between Deleuze and Merleau Ponty is comprehensive and rigorous while remaining clear accessible and lively It is certain to become the standard text for future scholarly discussion of these two major influences on contemporary thought

Deleuze Dictionary Revised Edition Adrian Parr,2010-09-13 This dictionary is dedicated to the work of Gilles Deleuze providing an in depth and lucid introduction to a leading figure in continental philosophy **Becoming - An Anthropological Approach to Understandings of the Person in Java** Konstantinos Retsikas,2014-10-01 Becoming An

Anthropological Approach to Understandings of the Person in Java is an ethnographic monograph that examines the ways in which the peoples of a peri urban locality in East Java Indonesia conceive of the person by looking at how their everyday practices relate to understandings of ethnicity kinship Islam and gender The volume is also a thought experiment that aims to make a theoretical contribution to the discipline of anthropology by proposing the concept of the diaphoron person and re deploying the method of total ethnography

Becoming Konstantinos Retsikas, 2012 Becoming An Anthropological Approach to Understandings of the Person in Java is an ethnographic monograph that examines the ways in which the peoples of a peri urban locality in East Java Indonesia conceive of the person by looking at how their everyday practices relate to understandings of ethnicity kinship Islam and gender The volume is also a thought experiment that aims to make a theoretical contribution to the discipline of anthropology by proposing the concept of the diaphoron person and re deploying the method of total ethnography

Deleuze and Ethics Nathan Jun, 2011-05-09 Deleuze is perhaps best known for his influential works in philosophical interpretation epistemology metaphysics and political economy The essays in this collection explore uncover and trace the ethical dimension of Deleuzian philosophy along divers

Entangling Forms Floyd Merrell, 2010-09-27 The volume draws from Charles S Peirce s pragmatic philosophy as well as from diverse areas in contemporary arts and sciences and certain facets of Buddhist philosophy especially regarding notions of interconnectedness self organization and co participation of the knowing subject with her inner world her socio cultural world and her physical environment Contradictory complementary and coalescence are also fundamental watchwords in addition to entanglement Contradictory since conflicts clashes and inconsistencies there will always be in spite attempts to resolve them Complementarity since poles of opposition can at least provisionally be resolved by mediation and moderation however vaguely and ambiguously such that consonance might emerge from dissonance balance from imbalance and accord from discord And coalescence since the union of disparities is an ongoing and always incomplete process it is never fixed product These concepts along with the key word entanglement place Peirce in a new light giving rise to new questions and possible responses from readers who are searching for alternate means of understanding in our increasingly complex rapidly globalizing world

Deleuze and Sex Frida Beckman, 2011-07-07 This collection of essays offers a fresh and new philosophical approach to the study of sex and sexuality as practice in the philosophy of Deleuze

Deleuze's Hume Jeffrey A. Bell, 2008-12-16 This book offers the first extended comparison of the philosophies of Gilles Deleuze and David Hume Jeffrey Bell argues that Deleuze s early work on Hume was instrumental to Deleuze s formulation of the problems and concepts that would remain the focus of his entire corpus Reading Deleuze s work in light of Hume s influence along with a comparison of Deleuze s work with William James Henri Bergson and others sets the stage for a vigorous defence of his philosophy against a number of recent criticisms It also extends the field of Deleuze studies by showing how Deleuze s thought can clarify and contribute to the work being done in political theory cultural studies and history particularly the

history of the Scottish Enlightenment By engaging Deleuze's thought with the work of Hume this book clarifies and supports the work of Deleuze and exemplifies the continuing relevance of Hume's thought to a number of contemporary debates

Phenomenology of Space and Time Anna-Teresa Tymieniecka, 2014-02-03 This work celebrates the investigative power of phenomenology to explore the phenomenological sense of space and time in conjunction with the phenomenology of intentionality the invisible the sacred and the mystical It examines the course of life through its onto-poietic genesis opening the cosmic sphere to logos The work also explores on the one hand the intellectual drive to locate our cosmic position in the universe and on the other the pull toward the infinite It intertwines science and its grounding principles with imagination in order to make sense of the infinite This book is the second of a two part work that contains papers presented at the 62nd International Congress of Phenomenology The Forces of the Cosmos and the Onto-poietic Genesis of Life held in Paris France August 2012 It features the work of scholars in such diverse disciplines as biology anthropology pedagogy and psychology who philosophically investigate the cosmic origins of beingness Coverage in this second part includes Communicative Virtues of A T Tymieniecka's Phenomenology of Life Intentionality of Time and Quantum Phenomenological Sense of Space Consciousness of the Cosmos A Thought Experiment Through Philosophy and Science Fiction The Cosmos and Bodily Life on Earth Elucidated within the Historicity of Human Existence Novel as Path Mamardashvili's Lectures on Proust and Comments on Max Scheler's Thought and Philosophical Counseling *Expanding Curriculum Theory* William M.

Reynolds, Julie A. Webber, 2004-05-20 This book brings together some of the newest work in curriculum studies to explore central questions that swirl inside and out of the field What counts as curriculum research What procedures are considered legitimate for the production of knowledge What forms shape the making of explanations What constitutes proof It forefronts work by curriculum theorists who are interested in looking at educational problems from a vantage point that questions current models of research one that suggests adopting lines of flight or multiplicities that offer promise to disentangle curriculum theory from traditional research hierarchies and methods driven dependence on formalities In *Expanding Curriculum Theory* Dispositions and Lines of Flight The essays are connected by their shared concern for combining alternative methodologies such as textual analysis discourse theory hermeneutics and post structuralism with perspectives on race class gender and sexual orientation Disciplinary boundaries are blurred as curriculum theory is interwoven with cultural studies political theory psychoanalysis dance technology and other fields To assist readers in understanding the various essays as well as comparing contrasting and connecting them with each other each chapter opens with a Thinking Beyond section The questions posed are designed to make the text engaging and pedagogically friendly By doing all this within an overall poststructural framework that encourages and demonstrates creativity multidisciplinary and new lines of flight this volume makes a unique contribution to expanding curriculum theory It is a stimulating text for students faculty and researchers in the field **Beyond the Analytic-Continental Divide** Jeffrey A. Bell, Andrew Cutrofello, Paul M.

Livingston,2015-08-27 This forward thinking collection presents new work that looks beyond the division between the analytic and continental philosophical traditions one that has long caused dissension mutual distrust and institutional barriers to the development of common concerns and problems Rather than rehearsing the causes of the divide contributors draw upon the problems methods and results of both traditions to show what post divide philosophical work looks like in practice Ranging from metaphysics and philosophy of mind to political philosophy and ethics the papers gathered here bring into mutual dialogue a wide range of recent and contemporary thinkers and confront leading problems common to both traditions including methodology ontology meaning truth values and personhood Collectively these essays show that it is already possible to foresee a future for philosophical thought and practice no longer determined neither as analytic nor as continental but instead as a pluralistic synthesis of what is best in both traditions The new work assembled here shows how the problems projects and ambitions of twentieth century philosophy are already being taken up and productively transformed to produce new insights questions and methods for philosophy today **Women on the Verge of Home** Bilinda Straight,2005-03-03 This book explores the idea of home Using feminist scholarship and ethnographically grounded readings of historical literary and cultural texts contributors interrogate the comfortable and stable contours of home and ask what it means to women in different social class sexual ethnic and racial contexts in different times and places Giving voice to diverse women s understandings of home the book includes stories of elite white U S and Canadian women rural poor and peasant white women in the United States and France a British Caribbean freed slave woman and others **BOOK JACKET Title** Summary field provided by Blackwell North America Inc All Rights Reserved ***Ibss: Sociology: 1999*** ,2000-12-07 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge on the social sciences **Redefining Reason** Bradley W. Patterson,2018-11-16 Throughout the twentieth century Western thinkers engaged in a politically charged often highly personal and acrimonious debate over the mental and rational capacity of people from traditional nonliterate societies The issue was a question of whether or not humanity was at bottom psychologically and rationally unified and equal as a species Redefining Reason offers the first in depth critical history of that debate and its repercussions in modern Western thought and society Divided into three sections this book first sets the twentieth century primitive mentality debate within its historical context so that it may be better understood It then focuses on some of the highlights of the debate The next section suggests that this debate was in reality a chapter itself in or in an aspect of a much larger story the story of what may be appropriately referred to as the hyperrationalization of human society To conclude this book follows the debate into the twenty first century and offers the clarification and resolutions developed in earlier chapters to contemporary students scholars and educated lay readers **The Cultural Turn in Late Ancient Studies** Philip Rousseau,2005-04-28 Collection of essays that focuses on questions of gender and culture in early Christianity
