Quest For Power Hobbes Descartes And The Emergence Of Modernity:

The Quest for Power Piotr Hoffman, 1996 This work examines two thinkers who can lay claim to be the founding fathers of modern philosophy Hobbes and Descartes Although worlds apart on some issues both thinkers take the same point of departure Hobbes in political and moral philosophy and Descartes in epistemology and metaphysics Dichotomy of Power Richard A. Matthew, 2002-01-01 Dichotomy of Power studies the future of the nation state as the world's basic political organization and the foundation of modern international relations Richard A Matthew argues that this Hegelian construct once championed as the rational and preferred basis for global order developed through a series of dichotomies the cut and thrust of realism mediated by idealism coercive power politics balanced by a constitutive mode of power and a collaborative search for a just society The book analyzes the conceptualization of the nation state in the Western tradition of political thought from the classical bifurcation of politics to the postmodern debate about the nation state as the ideal mechanism for organizing power in a new global age *The Force of Reason and the Logic of Force* R. Lee, 2004-08-20 The Force of Reason and the Logic of Force investigates the concept of force through various episodes in the history of philosophy The author argues that force arises on the basis of the distinction of reality and mere appearance The book looks at figures who reduce force to something other than itself as well as figures who develop a logic of force that allows them to trace the operation of force without such a reduction **After the Fall** George N. Katsiaficas, 2001 First Published in 2001 Routledge is an imprint of Taylor Francis an informa company Knowledge and Human Liberation Ananta Kumar Giri, 2014-11-01 Human liberation has become an epochal challenge in today's world requiring not only emancipation from oppressive structures but also from the oppressive self It is a multidimensional struggle and aspiration in which knowledge self social and spiritual can play a transformative role Knowledge and Human Liberation Towards Planetary Realizations undertakes such a journey of transformation and seeks to rethink knowledge vis vis the familiar themes of human interest critical theory enlightenment ethnography democracy pluralism rationality secularism and cosmopolitanism The volume also features a Foreword by John Clammer United Nations University Tokyo and an Afterword by Fred Dallmayr University of Notre Dame **Violence Inevitable** Rick Parrish, 2006-01-01 Taking persons as the creators of meaning and value in the world Violence Inevitable explores the inevitability of violence within any system of justice and examines the paradoxes that lie at the core of justice itself These themes are illuminated through original and interwoven readings of Jacques Derrida Friedrich Nietzsche Thomas Hobbes Isaiah Berlin and other important figures from ancient Chinese spirituality to contemporary American politics *What Moves Man* Annette Freyberg-Inan, 2012-02-01 The realist theory of international relations is based on a particularly gloomy set of assumptions about universal human motives Believing people to be essentially asocial selfish and untrustworthy realism counsels a politics of distrust and competition in the international arena What Moves Man subjects realism to a broad and deep critique Freyberg Inan argues first that realist psychology is incomplete and suffers from a

pessimistic bias Second she explains how this bias systematically undermines both realist scholarship and efforts to promote international cooperation and peace Third she argues that realism s bias has a tendency to function as a self fulfilling prophecy it nurtures and promotes the very behaviors it assumes predominate human nature Freyberg Inan concludes by suggesting how a broader and more complex view of human motivation would deliver more complete explanations of international behavior reduce the risk of bias and better promote practical progress in the conduct of international affairs

A Polite Exchange of Bullets Stephen Banks,2010 Explores why minor slights to certain kinds of gentlemen led to duels in order for honour to be satisfied and how such ideas about honour changed over time This book the most comprehensive study of the English pistol duel yet undertaken examines what it meant to be a man of honour in eighteenth and nineteenth century England A thorough survey of the incidence and distribution of duelling both socially and geographically identifies those sub groups of gentlemen most likely to duel The author considers the mores and manners of such groups and asks why it was that within specific professions minor slightscould only be requited by a demand for satisfaction In doing so the author rejects those traditional histories of duelling which have failed to engage with the internal dynamics and internal logic of the phenomenon itself Too often historians have explained the rise of opposition to duelling in terms of social and cultural change whilst at the same time treating the duel as though its ideological content had become irrevocably fixed in the early seventeenth century Honour culture too had a social and an intellectual history and the author outlines those conflicts of ideas within the culture of honour itself that did much to hasten the demise of the English duel *A Polite Exchange of Bullets* will be welcomed as a fresh approach to an important social phenomenon by all those interested in duelling and in English social and cultural history STEPHEN BANKS is a lecturer in criminal law at Reading University Law School and co director of The Forum of Legal and Historical Research

Encyclopedia of Government and Politics Mary Hawkesworth,Maurice Kogan,2013-11-07 This is a brand new edition of the critically acclaimed Encyclopedia of Government and Politics which has been fully revised and updated to provide a systematic account of politics and political studies at the beginning of the new millennium Providing a penetrating analysis of government and politics at a global regional and nation state level the Encyclopedia assesses both traditional and contemporary approaches and projects the paths of future research The articles provide a degree of critical analysis far beyond a simple descriptive outline of the subject Internationally respected contributors have been carefully selected to present contending approaches to related topics both to clarify the political implications of the various methodologies and to enrich the portrayal of political life With its expanded revised and updated coverage Encyclopedia of Government and Politics is more than ever an indispensable tool for students teachers professional analysts and policy makers

Psychiatry, 1995 Current Contents. Arts & Humanities Institute for Scientific Information, 1998 **Spinoza's Modernity** Willi Goetschel, 2004-01-15 Spinoza's Modernity is a major original work of intellectual history that reassesses the philosophical project of Baruch Spinoza uncovers his influence on later thinkers and demonstrates how that crucial influence on Moses Mendelssohn G E Lessing and Heinrich Heine shaped the development of modern critical thought Excommunicated by his Jewish community Spinoza was a controversial figure in his lifetime and for centuries afterward Willi Goetschel shows how Spinoza's philosophy was a direct challenge to the theological and metaphysical assumptions of modern European thought He locates the driving force of this challenge in Spinoza's Jewishness which is deeply inscribed in his philosophy and defines the radical nature of his modernity **The Meanings of Love** Bob Wagoner, 1997-05-21 This introductory text offers a clear concise look at the philosophy of love The author's presentation assumes no previous knowledge of philosophy providing the humanities student with an insightful introduction to some of the most prominent writers and philosophers both ancient and modern From the dialogues of Plato to the writings of feminist philosopher Luce Irigaray Wagoner presents six major ideas of love erotic love Christian love romantic love moral love love as power and mutual love This study asserts that even though we have only one word for love six fundamentally different meanings can be distinguished erotic love Christian love romantic love moral love love as power and mutual love Wagoner identifies each of these ideas of love in terms of the special meaning it brings to experience No one meaning is comprehensive Each is shown to have a logic and legitimacy of its own Why each view seems real and compelling is the focus of separate discussions as well as the price that may be exacted by each idea The extent to which these ideas throw light on actual experience is striking but the book is not an empirical or psychological inquiry How one self finds itself in another is first defined and then explored further to see how this shapes the rational and sexual aspects of life **Religarnos** Elías González Gómez, 2023-01-25 La crítica a la religión se ha convertido en un lugar común Abundan tanto las denuncias a sus abusos históricos e institucionales como las propuestas que apelan por una espiritualidad sin religión De lo que no se ha hablado suficientemente es de su papel en la crisis civilizatoria Este libro denuncia la dimensión religiosa de la crisis actual Desvela la religión como el monopolio radical que secuestra las capacidades personales y colectivas para relacionarnos con el Misterio enajenándonos de la realidad en aras de un proyecto de mundo puramente artificial El autor se aleja en su análisis tanto de las religiones institucionalizadas como de los rostros de la espiritualidad asimilada por el mercado Busca la recuperación de la relación personal y comunitaria con la misteriosidad de lo real a través de la amistad y el retorno a los sentidos History and Modernity in the Thought of Thomas Hobbes Robert P. Kraynak, 1990 **Tocqueville between Two Worlds** Sheldon S. Wolin, 2009-02-09 Alexis de Tocqueville may be the most influential political thinker in American history He also led an unusually active and ambitious career in French politics In this magisterial book one of America's most important contemporary theorists draws on decades of research and thought to present the first work that fully connects Tocqueville's

political and theoretical lives In doing so Sheldon Wolin presents sweeping new interpretations of Tocqueville's major works and of his place in intellectual history As he traces the origins and impact of Tocqueville's ideas Wolin also offers a profound commentary on the general trajectory of Western political life over the past two hundred years Wolin proceeds by examining Tocqueville's key writings in light of his experiences in the troubled world of French politics He portrays Democracy in America for example as a theory of discovery that emerged from Tocqueville's contrasting experiences of America and of France's constitutional monarchy He shows us how Tocqueville used *Recollections* to reexamine his political commitments in light of the revolutions of 1848 and the threat of socialism He portrays The Old Regime and the French Revolution as a work of theoretical history designed to throw light on the Bonapartist despotism he saw around him Throughout Wolin highlights the tensions between Tocqueville's ideas and his activities as a politician arguing that despite his limited political success Tocqueville was perhaps the last influential theorist who can be said to have truly cared about political life In the course of the book Wolin also shows that Tocqueville struggled with many of the forces that constrain politics today including the relentless advance of capitalism of science and technology and of state bureaucracy He concludes that Tocqueville's insights and anxieties about the impotence of politics in a postaristocratic era speak directly to the challenges of our own postdemocratic age A monumental new study of Tocqueville this is also a rich and provocative work about the past the present and the future of democratic life in America and abroad

Quest For Power Hobbes Descartes And The Emergence Of Modernity Introduction

In today's digital age, the availability of Quest For Power Hobbes Descartes And The Emergence Of Modernity books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Quest For Power Hobbes Descartes And The Emergence Of Modernity books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Quest For Power Hobbes Descartes And The Emergence Of Modernity books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Quest For Power Hobbes Descartes And The Emergence Of Modernity versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Quest For Power Hobbes Descartes And The Emergence Of Modernity books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Quest For Power Hobbes Descartes And The Emergence Of Modernity books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free

eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Quest For Power Hobbes Descartes And The Emergence Of Modernity books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Quest For Power Hobbes Descartes And The Emergence Of Modernity books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement.
