Reading Rural Landscapes Robert Stanford, 2015-09-15 Everywhere we go in rural New England the past surrounds us In the woods and fields and along country roads the traces are everywhere if we know what to look for and how to interpret what we see A patch of neglected daylilies marks a long abandoned homestead A grown over cellar hole with nearby stumps and remnants of stone wall and orchard shows us where a farm has been reclaimed by forest And a piece of a stone dam and wooden sluice mark the site of a long gone mill Although slumping back into the landscape these features speak to us if we can hear them and they can guide us to ancestral homesteads and famous sites Lavishly illustrated with drawings and color photos Provides the keys to interpret human artifacts in fields woods and roadsides and to reconstruct the past from surviving clues Perfect to carry in a backpack or glove box A unique and valuable resource for road trips genealogical research naturalists and historians

The Middle-Class City John Henry Hepp, IV, 2018-06-29 The classic historical

interpretation of the late nineteenth and early twentieth centuries in America sees this period as a political search for order by the middle class culminating in Progressive Era reforms In *The Middle Class City* John Hepp examines transformations in everyday middle class life in Philadelphia between 1876 and 1926 to discover the cultural roots of this search for order By looking at complex relationships among members of that city's middle class and three largely bourgeois commercial institutions newspapers department stores and railroads Hepp finds that the men and women of the middle class consistently reordered their world along rational lines According to Hepp this period was rife with evidence of creative reorganization that served to mold middle class life The department store was more than just an expanded dry goods emporium it was a middle class haven of order in the heart of a frenetic city an entirely new way of organizing merchandise for sale Redesigned newspapers brought well ordered news and entertainment to middle class homes and also carried retail advertisements to entice consumers downtown via train and streetcar The complex interiors of urban railroad stations reflected a rationalization of space and rail schedules embodied the modernized specialization of standard time In his fascinating investigation of similar patterns of behavior among commercial institutions Hepp exposes an important intersection between the histories of the city and the middle class In his careful reconstruction of this now vanished culture Hepp examines a wide variety of sources including diaries and memoirs left by middle class women and men of the region Following Philadelphians as they rode trains and trolleys read newspapers and shopped at department stores he uses their accounts as individualized guidebooks to middle class life in the metropolis And through a creative use of photographs floor plans maps and material culture *The Middle Class City* helps to reconstruct the physical settings of these enterprises and recreate everyday middle class life shedding new light on an underanalyzed historical group and the cultural history of twentieth century America
