Reading Writing And Romanticism The Anxiety Of Reception:

Reading, Writing, and Romanticism Lucy Newlyn, 2003 Bridging the gulf between materialist and idealist approaches this study informed by an historical awareness of Romantic hermeneutics and its later developments examines how readers are imagined addressed and figured in Romantic poetry

Reading, Writing and Romanticism Lucy Newlyn, *English Romantic Poets and their Reading Audiences* Karsten Runge, 2003-05-25 Thesis M A from the year 2002 in the subject English Language and Literature Studies Literature grade 1 3 A Ruhr University of Bochum Faculty for Philology language English abstract The late eighteenth and early nineteenth centuries were a time of accelerating cultural social economic and political change The outbreak of the French Revolution in 1789 and the passing of the first Reform Bill in 1832 are the political cornerstones of an age that saw the promotion of human rights and civil liberties against established systems of absolutist governments and limited possibilities of political participation Democratic ideas that form the constitutional basis of modern Western societies were developed and circulated in a highly charged political and cultural climate represented defended and contested in a bourgeois public sphere that had only come into being as a space of rational contestation in England in the century between the Glorious Revolution and the French Revolution 1 In philosophy perhaps the most far reaching development in the eighteenth century was the exploration of the individual psyche John Locke s empiricist epistemology was based on the idea that the mind of the infant is like a tabula rasa and that there are no innate ideas or moral principles Instead Locke argued the individual s knowledge springs from his or her own sensory perceptions This epistemology carried with it a serious social problem in effect perceivers were deprived of shared views and isolated in their own perceptions were cut off from the environment that had produced their knowledge Equally isolated from objects and from others Lockian perceivers can be certain of only their individual mental processes Certainty knowledge and truth become at best relational 2 The problem of the individual s position in and relation to a society that was already perceptibly fragmenting as a result of economic developments and increased social mobility was debated by philosophers throughout the eighteenth century David Berkeley the Earl of Shaftesbury and Adam Smith all in their own ways tried to find a solution to the empirical dilemma they had inherited from Locke and sought to relocate the individual in a social context 3 1 Cf Jürgen Habermas Strukturwandel der Öffentlichkeit Untersuchungen zu einer Kategorie der bürgerlichen Gesellschaft Neuwied Luchterhand 1962 2 Regina Hewitt Wordsworth and the Empirical Dilemma New York et al Peter Lang 1990 5f 3 Ibid 7 32

The Domestication of Genius Julian North, 2009-11-19 Focusing on the Lives of Byron Shelley Wordsworth Coleridge Felicia Hemans and Letitia Landon North explores how biographies by writers including Thomas Moore Mary Shelley Thomas De Quincey both perpetuated and by revealing private weaknesses and domestic failures challenged the myth of the Romantic poet

Romantic Readers H. J. Jackson, 2008-10-01 When readers jot down notes in their books they reveal something of themselves what they believe what amuses or annoys them what they have read before But a close examination of marginalia also discloses diverse and fascinating details about the time in which they are written This book explores reading practices in the Romantic Age through an analysis of some 2 000 books annotated by British readers between 1790 and 1830 This period experienced a great increase in readership and a boom in publishing H J Jackson shows how readers used their books for work for socializing and for leaving messages to posterity She draws on the annotations of Blake Coleridge Keats and other celebrities as well as those of little known and unknown writers to discover how people were reading and what this can tell us about literature social history and the history of the book

John Thelwall and the Materialist Imagination Yasmin Solomonescu, 2014-07-17 John Thelwall and the Materialist Imagination reassesses Thelwall s eclectic body of work from the perspective of his heterodox materialist arguments about the imagination political reform and the principle of life itself and his contributions to Romantic era science

Authoring the Self Scott Hess, 2005-01-01 Drawing upon historicist and cultural studies approaches to literature this book argues that the Romantic construction of the self emerged out of the growth of commercial print culture and the expansion and fragmentation of the reading public beginning in eighteenth century Britain Arguing for continuity between eighteenth century literature and the rise of Romanticism this groundbreaking book traces the influence of new print market conditions on the development of the Romantic poetic self

Fellow Romantics Beth Lau, 2009-01-01 Beginning with the premise that men and women of the Romantic period were lively interlocutors who participated in many of the same literary traditions and experiments *Fellow Romantics* offers an inspired counterpoint to studies that emphasize differences between male and female Romantic era writers Linking among others Charlotte Smith

and William Wordsworth Felicia Hemans and Percy Bysshe Shelley the contributors defamiliarize the work of both male and female writers by drawing our attention to frequently neglected aspects of each writer's art

Book-Men, Book Clubs, and the Romantic Literary Sphere Ina Ferris, 2015-08-29 This book re-reads the tangled relations of book culture and literary culture in the early nineteenth century by restoring to view the figure of the bookman and the effaced history of his book clubs As outliers inserting themselves into the matrix of literary production rather than remaining within that of reception both provoked debate by producing writing and circulating books in ways that expanded fundamental points of literary orientation in lateral directions not coincident with those of the literary sphere Deploying a wide range of historical archival and literary materials the study combines the history and geography of books cultural theory and literary history to make visible a bookish array of alternative networks genres and locations that were obscured by the literary sphere in establishing its authority as arbiter of the modern book
