Studies in Medieval Philosophy, Science, and Logic Ernest Addison Moody, 1975 **Readings in Introductory Philosophical Analysis** John Hospers, 1969 The Mental and the Physical Herbert Feigl, 1967-09-25 The Mental and the Physical was first published in 1967 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions Professor Feigl's essay The Mental and the Physical has provoked a great deal of comment criticism and discussion since it first appeared as a part of the content of Volume II of the Minnesota Studies in the Philosophy of Science about ten years ago Now Professor Feigl takes account of the critical discussions and presents his own comments with respect to the most important points raised in the criticisms The essay itself is presented here in full along with the postscript The British Journal for the Philosophy of Science has called the essay a super colossal survey of the mind body problem In its review of the earlier book containing the essay Thought said This essay deserves careful reading by every philosopher concerned with genuine philosophical dialogue

Analysis and Metaphysics Keith Lehrer, 2012-12-06 AND BIOGRAPHICAL SKETCH This collection of essays in honor of Roderick M Chisholm is the work of his former students The book was conceived and the original contributors invited by Richard Taylor We restricted the contributors to former students of Chisholm as a special tribute to his acknowledged as a teacher of philosophy The profundity of his contributions to genius epistemology and metaphysics are acknowledged throughout the philosophical world Those who have been present at his lectures and seminars who have been incited to philosophical cerebration by the clarity and precision of his exposition know that his impact on contemporary philosophy far exceeds the influence of the written word It is we think appropriate that his students should reserve for themselves the privilege of honoring Chisholm in this way as his 60th birthday draws near The tribute paid to Chisholm in Taylor's essay conveys a personal impression I shall consequently refrain from personal reminiscence here and instead mention some of the highlights of an illustrious life Chisholm was born on November 27 1916 in North Attleboro Massachusetts He married Eleanor F Parker in 1943 and raised three children with her He received an A B from Brown in 1938 a Ph D from Harvard in 1942 and served in the U S Army from 1942 to 1946 *Conventionalism in logic* Carlo Borromeo Giannoni, 2017-12-04 No detailed description available for Conventionalism in logic
