Reaffirming Rehabilitation Francis T. Cullen, Karen E. Gilbert, 2012-11-13 Reaffirming Rehabilitation 2nd Edition brings fresh insights to one of the core works of criminal justice literature This groundbreaking work analyzes the rehabilitative ideal within the American correctional system and discusses its relationship to and conflict with political ideologies Many researchers and policymakers rejected the value of rehabilitation after Robert Martinson's proclamation that nothing works Cullen and Gilbert's book helped stem the tide of negativism that engulfed the U S correctional system in the years that followed the popularization of the nothing works doctrine Now Cullen traces the social impact on U S corrections policy This new edition is appropriate as a textbook in corrections courses and as recommended reading in related courses It also serves as a resource for researchers and policymakers working in the field of corrections

Stohr,Anthony Walsh,Craig Hemmens,2012-03-20 Corrections A Text Reader Second Edition is designed for undergraduate and or graduate corrections courses Organized like a traditional corrections text it offers brief authored introductions in a mini chapter format for each key Section followed by carefully selected and edited original articles by leading scholars This hybrid format ensuring coverage of important material while emphasizing the significance of contemporary research offers an excellent alternative which recognizes the impact and importance of new directions and policy in this field and how these advances are determined by research *Criminal Justice Theory, Volume 26* Cecilia Chouhy,Joshua C. Cochran,Cheryl Lero Jonson,2020-02-14 Criminal Justice Theory Explanations and Effects undertakes a systematic study of theories of the criminal justice system which historically have received very little attention from scholars This is a glaring omission given the risk of mass imprisonment the increasing presence of police in inner city communities and the emergence of new policy initiatives aimed at improving the quality and effectiveness of the administration of justice Fortunately however a number of disparate theoretical works have appeared that seek to provide insight into the nature and impact of criminal justice Based on 13 original essays by influential scholars this volume pulls together the most significant of these perspectives thus creating a state of the art assessment of contemporary criminal justice theory Criminal justice theory can be divided into two main categories The first includes works that seek to explain the operation of the criminal justice system Most of these

contributions have grappled with the core reality of American criminal justice its rising embrace of punitiveness and the growth of mass imprisonment The second category focuses on works that identify theories that have often guided efforts to reduce crime The issue here focuses mainly on the effects of certain theoretically guided criminal justice interventions The current volume is thus organized into these two categories explanations and effects The result is an innovative and comprehensive book that not only serves researchers by advancing scholarship but also is appropriate for advanced undergraduate or graduate classroom use

*The Right to Be Punished* Gabriel Hallevy, 2012-10-12 Does an offender have the right to be punished The right to be punished may sound like an oxymoron but it is not necessarily so With the emergence of modern criminal law the offender gained the right to be punished by rational criminal law rather than being lynched by an angry mob The present day offender may have the right to be punished by doctrinal sentencing rather than being subjected to verdicts based on vague unclear and uncertain principles In modern criminal law the imposition of criminal liability follows accurate and strict rules whereas there are no similar rules for the imposition of punishment The process of sentencing is vague and obscure as are the considerations used for the imposition of punishments The objective of the present book is to propose a comprehensive general and legally sophisticated theory of modern doctrinal sentencing The challenges of such a legal theory are plenty and complex In addition to increasing clarity and certainty modern doctrinal sentencing must deal with modern types of delinquency e g organized crime recidivism corporate offenders high tech offenses etc and modern principles of criminal law Modern doctrinal sentencing must serve to ensure optimal sentencing
