Paul Kengor, Peter Schweizer

Reagan Presidency Assessing The Man And His Legacy:

The Reagan Presidency Paul Kengor, Peter Schweizer, 2005-04-29 In this important new volume editors Paul Kengor and Peter Schweizer bring together original essays from leading scholars who examine topics as varied as Iran Contra abortion the Cold War governmental management and economic policy Through critical analysis these essays **Debating the Reagan Presidency** John Ehrman, Michael W. Flamm, 2002-09-01 The presidency of Ronald Reagan has become a Rorschach Test for politicians and citizens alike While many conservatives see the Reagan era of the 1980s as the high water mark for their movement and a time of national recovery from the difficulties of the 1970s many liberals maintain that the rosy Reagan legacy is based largely on myth and that in fact his eight years as president caused serious harm to the country John Ehrman and Michael W Flamm give due attention to the lasting controversies surrounding the Reagan record and provide a balanced view of the fortieth president's foreign and domestic policies Students are encouraged to draw their own conclusions by reading key primary documents National Security Entrepreneurs and the Making of American Foreign Policy Vincent Boucher, Charles-Philippe David, Karine Prémont, 2020-11-12 Since the advent of the contemporary US national security apparatus in 1947 entrepreneurial public officials have tried to reorient the course of the nation's foreign policy Acting inside the National Security Council system some principals and high ranking officials have worked tirelessly to generate policy change and innovation on the issues they care about These entrepreneurs attempt to set the foreign policy agenda frame policy problems and solutions and orient the decision making process to convince the president and other decision makers to choose the course they advocate In *National Security Entrepreneurs and the Making of American Foreign Policy* Vincent Boucher Charles Philippe David and Karine Prémont develop a new concept to study entrepreneurial behaviour among foreign policy advisers and offer the first comprehensive framework of analysis to answer this crucial question why do some entrepreneurs succeed in guaranteeing the adoption of novel policies while others fail They explore case studies of attempts to reorient US foreign policy waged by National Security Council entrepreneurs examining the key factors enabling success and the main forces preventing the adoption of a preferred option the entrepreneur's profile presidential leadership major players involved in the policy formulation and decision making processes the national political context and the presence or absence of significant opportunities By carefully analyzing significant diplomatic and military decisions of the Johnson Nixon Reagan and Clinton administrations and offering a preliminary account of contemporary national security entrepreneurship under presidents George W Bush Barack Obama and Donald Trump this book makes the case for an agent based explanation of foreign policy change and continuity *Cowboy Presidents* David A. Smith, 2021-02-11 For an element so firmly fixed in American culture the frontier myth is surprisingly flexible How else to explain its having taken two such different guises in the twentieth century the progressive forward looking politics of Rough Rider president Teddy Roosevelt and the conservative old fashioned character and Cold War politics of Ronald Reagan This is the conundrum at the heart of

Cowboy Presidents which explores the deployment and consequent transformation of the frontier myth by four U S presidents Theodore Roosevelt Lyndon B Johnson Ronald Reagan and George W Bush Behind the shape shifting of this myth historian David A Smith finds major events in American and world history that have made various aspects of the Old West frontier more relevant and more useful for promoting radically different political ideologies and agendas And these divergent adaptations of frontier symbolism have altered the frontier myth Theodore Roosevelt with his vigorous pursuit of an activist federal government helped establish a version of the frontier myth that today would be considered liberal But then Smith shows a series of events from the Lyndon Johnson through Jimmy Carter presidencies including Vietnam race riots and stagflation seemed to give the lie to the progressive frontier myth In the wake of these crises Smith s analysis reveals the entire structure and popular representation of frontier symbols and images in American politics shifted dramatically from left to right and from liberal to conservative with profound implications for the history of American thought and presidential politics The now popular idea that frontier American leaders and politicians are naturally Republicans with conservative ideals flows directly from the Reagan era Cowboy Presidents gives us a new clarifying perspective on how Americans shape and understand their national identity and sense of purpose at the same time reflecting on the essential mutability of a quintessentially national myth the book suggests that the next iteration of the frontier myth may well be on the horizon

Turning Points—Actual and Alternate Histories Rodney P. Carlisle, J. Geoffrey Golson, 2007-09-26 This fascinating work is a series of explorations of key events in the administrations of Ronald Reagan and George H W Bush each of which speculates on what might have happened if events had unfolded differently The Reagan Era explores a time that saw the rise of the political conservatism that has dominated U S politics in recent years as well as the end of the Cold War which drove American foreign policy for nearly a half century What if Jimmy Carter had successfully navigated the energy shortage and the Iranian hostage crisis What if the assassination attempt on Reagan had succeed What if Iran Contra had not become a scandal These are among the specific topics examined in the book which looks at 11 crucial events and speculates on the effects of alternative outcomes By showing how easily the world might be different The Reagan Era reveals the lasting impact of that era s defining moments

The War on Welfare Marisa Chappell, 2012-02-02 Why did the War on Poverty give way to the war on welfare Many in the United States saw the welfare reforms of 1996 as the inevitable result of twelve years of conservative retrenchment in American social policy but there is evidence that the seeds of this change were sown long before the Reagan Revolution and not necessarily by the Right The War on Welfare Family Poverty and Politics in Modern America traces what Bill Clinton famously called the end of welfare as we know it to the grassroots of the War on Poverty thirty years earlier Marshaling a broad variety of sources historian Marisa Chappell provides a fresh look at the national debate about poverty welfare and economic rights from the 1960s through the mid 1990s In Chappell s telling we experience the debate over welfare from multiple perspectives including those of conservatives of several types liberal antipoverty

experts national liberal organizations labor government officials feminists of various persuasions and poor women themselves During the Johnson and Nixon administrations deindustrialization stagnating wages and widening economic inequality pushed growing numbers of wives and mothers into the workforce Yet labor unions antipoverty activists and moderate liberal groups fought to extend the fading promise of the family wage to poor African Americans families through massive federal investment in full employment and income support for male breadwinners In doing so however these organizations condemned programs like Aid to Families with Dependent Children AFDC for supposedly discouraging marriage and breaking up families Ironically their arguments paved the way for increasingly successful right wing attacks on both welfare and the War on Poverty itself

Stranger in a Strange State Christopher J. Galdieri, 2019-05-01 Examines why some politicians take the drastic step of becoming a carpetbagger and how that shapes their campaigns and chances for victory Candidates normally run for office in the places where they live Occasionally however a politician will run as a carpetbagger someone who moves to a new state for the express purpose of running or who runs in one state after holding office in another Stranger in a Strange State examines what makes some politicians take this drastic step and how that shapes their campaigns and chances for victory Focusing on races for the US Senate from 1964 forward Christopher J Galdieri analyzes the campaigns of nine carpetbaggers including nationally known figures such as Robert F Kennedy and Hillary Rodham Clinton and less well known candidates like Elizabeth Cheney and Scott Brown These case studies draw on archival research contemporaneous accounts of each campaign and scholarship on campaigns and representation While the record reveals that it generally takes national political stature for a carpetbagger to win an election some recent campaigns suggest that in today's polarized political era both politicians and state political parties might want to be more open to the prospect of carpetbagging Galdieri's book brings both life and systematic analysis to his case studies It also takes on the concept of political ambition seriously engaging the role of political parties in shaping and mitigating ambition Highly recommended for anyone interested in American parties and elections Julia R Azari coeditor of *The Presidential Leadership Dilemma Between the Constitution and a Political Party* This will be the go to book any time prominent politicians strike out for new territory

Ross K Baker author of *Is Bipartisanship Dead A Report from the Senate*

The Oxford Handbook of Prevention in Counseling Psychology Elizabeth Vera, 2012-10-18 The Oxford Handbook of Prevention in Counseling Psychology presents a lifespan approach to prevention that emphasizes strengths of individuals and communities integrates multicultural and social justice perspectives and includes best practices in the prevention of a variety of psychological problems in particular populations

New Directions in American Political Parties Jeffrey M. Stonecash, 2010-06-10 Our portraits of voters have changed significantly within the last 10 to 15 years In a short period of time we have gone from concern that parties are not responsive or sufficiently different to whether polarization has become too great This volume with contributions from some of the most noted scholars of political parties brings together assessments of these changes to provide a comprehensive

overview of current trends in the field *The Conservative Century* Gregory L. Schneider, 2009-11-16 This concise history focuses on the development of American conservatism in the twentieth century up to the present Gregory L Schneider traces the course of a once reactionary movement opposed to progressive reform and the New Deal and describes how it came to advance alternative policies and programs that revolutionized the shaping of domestic politics foreign policy and economic policy Along the way he profiles such influential thinkers as William F Buckley Frank Meyer Henry Regnery and Barry Goldwater He also details how the decline of liberalism after the 1960s helped conservatives gain political power and how their energized activism and organization culminated in the election of Ronald Reagan in 1980 Schneider also describes how the years since the Reagan Revolution have been decidedly mixed for American conservatives

The Enigmatic Realm of **Reagan Presidency Assessing The Man And His Legacy**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing short of extraordinary.
