David Goldberg

Real Heat Gender And Race In The Urban Fire Service:

Real Heat Carol A. Chetkovich, 1997 In the struggle over affirmative action no employment setting has seen more friction than urban fire departments Thirty years of legal and political efforts have opened the doors of this historically white male preserve but men of color have yet to consolidate their gains and women s progress has been even more tenuous In this unique and compelling account of affirmative action at the street level Carol Chetkovich explores the ways in which this program has succeeded and failed Chetkovich follows the men and women of the Oakland Fire Department Class 1 91 through their academy training and eighteen month probation In vivid and sometimes surprising narratives newcomers tell of their first battle with a full fledged fire their reactions to hazing rituals and their relationships with veterans and fellow trainees *Real Heat* explores how the process of becoming a firefighter interacts with the dimensions of race and gender to support some and discourage others The book examines the implications of these interactions for public policy and social justice

Men, Masculinities and Disaster Elaine Enarson, Bob Pease, 2016-06-17 In the examination of gender as a driving force in disasters too little attention has been paid to how women s or men s disaster experiences relate to the wider context of gender inequality or how gender just practice can help prevent disasters or address climate change at a structural level With a foreword from Kenneth Hewitt an afterword from Raewyn Connell and contributions from renowned international experts this book helps address the gap It explores disasters in diverse environmental hazard political and cultural contexts through original research and theoretical reflection building on the under utilized orientation of critical men s studies This body of thought not previously applied in disaster contexts explores how men gain maintain and use power to assert control over women Contributing authors examine the gender terrain of disasters through men s eyes considering how diverse forms of masculinities shape men s efforts to respond to and recover from disasters and other climate challenges The book highlights both the high costs paid by many men in disasters and the consequences of dominant masculinity practices for women and marginalized men It concludes by examining how disaster risk can be reduced through men s diverse efforts to challenge hierarchies around gender sexuality disability age and culture

Black Firefighters and the FDNY David Goldberg, 2017-10-23 For many African Americans getting a public sector job has historically been one of the few paths to the financial stability of the middle class and in New York City few such jobs were as sought after as positions in the fire department FDNY For over a century generations of Black New Yorkers have fought to gain access to and equal opportunity within the FDNY Tracing this struggle for jobs and justice from 1898 to the present David Goldberg details the ways each generation of firefighters confronted overt and institutionalized racism An important chapter in the histories of both Black social movements and independent workplace organizing this book demonstrates how Black firefighters in New York helped to create affirmative action from the bottom up while simultaneously revealing how white resistance to these efforts shaped white working class conservatism and myths of American meritocracy Full of colorful characters and rousing stories drawn

from oral histories discrimination suits and the archives of the Vulcan Society the fraternal society of Black firefighters in New York this book sheds new light on the impact of Black firefighters in the fight for civil rights *Masculinities, Gender Equality and Crisis Management* Mathias Ericson,Ulf Mellström,2016-07-22 The overarching mission of the rescue services comprises three main areas of responsibility protection against disasters and accidents crisis management and civil defence This mission covers a long chain of obligations in trying to improve societal prevention capabilities and manage threats risks accidents and disasters concerning generic as well as individual safety It follows a reactive social chain of threat risk crisis crisis management care rehabilitation The authors in this book show that the interesting occupational characteristics of these societal duties are their connection to gender and crisis management in a wider sense Gendered practices processes identities and symbols are analytical lenses that provide a particular understanding and explanatory base that has received far too little attention in the academic literature This book identifies four major themes in relation to a gendered understanding of the rescue services and more generally emergency work Masculine heroism Intersectional understandings of sexuality class and race Gender and technology Gender equality and mainstreaming processes This book shows how the rescue services constitute a productive ground for contemporary gender studies including feminist theory masculinity and sexuality studies Its critical perspective provides new directions for emergency work and crisis management in a broader sense and in particular for scholars and practitioners in these areas *I Love a Fire Fighter* Ellen Kirschman,2021-06-24 This second edition of *I Love a Fire Fighter* is like the first intended to raise awareness of the psychological consequences of being a fire service family It is my objective to describe the subtle and obvious ways the demands of this unique occupation spill over to home and to suggest strategies that you as a parent a child a sibling a spouse a friend or a significant other can use to manage the spillover and or learn to live with it **Male Femininities** Dana Berkowitz,Elroi J. Windsor,C. Winter Han,2023-02-14 Innovative essays that explore how men perform femininity and what femininity looks like without women What counts as male femininity Is it simply men behaving in effeminate ways or is it the absence of masculinity *Male Femininities* presents a nuanced critical collection of essays that highlight the extent to which male femininities are neither an imitation of femaleness nor an emptying of masculinity These innovative essays focus on both gay and straight men and transmasculine and genderqueer people in their construction and performance of femininity thereby revealing the possibilities that open up when we critically examine femininity without women *Male Femininities* asks What does femininity look like for men The contributors highly regarded scholars and rising stars cover a range of topics including drag queens cosmetic enhancements trans fertility and gender non conforming childhoods *Male Femininities* illuminates what happens when we decouple femininity from female bodies and how even the smallest cracks and fissures in the normative order can disrupt challenge and in some cases reaffirm our existing sex gender regime This volume pluralizes the concept of male femininities and leads readers through an exploration of how gender sex and sexuality are manifested in the United States

today **In the Company of Men** James Gruber, Phoebe Morgan, 2005 Despite over twenty years of discussion and study sexual harassment remains a significant problem in the workplace Current research focusing on organizational policy and women's career development often ignores the reality of male dominance prevalent in areas such as the military the police and firefighting occupations that see not only more frequent but also more severe harassment even sexual assault Meanwhile new evidence points to the fact that men are largely responsible not only for the harassment of women but for most harassment of other men as well This landmark collection of original essays investigates the links between male dominance and sexual harassment in light of new research and more complex understandings of masculinity Treated not merely as a matter of worker sex ratios but as an inherent element of workplace culture male dominance is observed from a variety of quantitative and qualitative approaches ranging from criminology and sociology to psychology and gender studies Integrating both men's and women's viewpoints research across occupational groups and studies from both the United States and Europe the chapters provide an invaluable international perspective into two inextricably intertwined problems rooted in cultural constructions of gender and institutional roles and processes On the Frontlines of the Welfare State Barry Goetz, 2017-02-17 Although public safety agencies protect our well being they also shape social problems and community inequities Public safety protections promote what T H Marshall called social rights of equitable citizenship Frontlines of Welfare State shows how public safety agencies function as welfare state agencies responsible for a range of essential public functions including emergency service criminal investigation regulatory oversight and social service outreach Furthermore this volume shows how public safety agencies are being asked to absorb more social welfare functions amidst cut backs in other areas of the welfare state Two areas of public safety are examined arson control and fire prevention especially within the contexts of urban change and gentrification and community policing especially as a mechanism of expanding drug treatment service and prevention programs Facilitating a greater understanding of institutional biases within the state built around organizational structures procedures and cultures and their impact on social outcomes this original and exciting book will be of interest to researchers practitioners and undergraduate and postgraduate students in the fields of Policing and Fire Control Public Policy and Administration Drugs and Substance Abuse and White Collar Crime **Many Faces, One Purpose; A Manager's Handbook on Women in Firefighting**, 1999 **Neoliberalism and Everyday Life** Susan Braedley, Meg Luxton, 2010-03-19 Illuminating the ways in which neoliberal policies such as the deregulation of economies and the transfer of governmental responsibilities to the private sector have been implemented on a global scale the contributors show how neoliberalism has seeped into our social and political fabric and affected our daily lives Drawing attention to the most visible elements of neoliberalism in business government and personal life reveal the ways in which policies designed to ensure market expansion also inevitably expand social inequalities of gender race class and ability Using a variety of methods contributors discuss a range of topics including globalization privatization health care and the welfare

state An intelligent and informative collection that explains and challenges neoliberal policies Neoliberalism and Everyday Life is an important assessment of a political system that makes profit easier and people s lives more difficult
