Evans, 2022-11-08 A comprehensive two volume reassessment of the quests for the historical Jesus that details their origins and underlying presuppositions as well as their ongoing influence on today's biblical and theological scholarship Jesus life and teaching is important to every question we ask about what we believe and why we believe it And yet there has never been common agreement about his identity intentions or teachings even among first century historians and scholars Throughout history different religious and philosophical traditions have attempted to claim Jesus and paint him in the cultural narratives of their heritage creating a labyrinth of conflicting ideas From the evolution of orthodoxy and quests before Albert Schweitzer's famous Old Quest to today's ongoing questions about criteria methods and sources A History of the Quests for the Historical Jesus not only chronicles the developments but lays the groundwork for the way forward The late Colin Brown brings his scholarly prowess in both theology and biblical studies to bear on the subject assessing not only the historical and exegetical nuts and bolts of the debate about Jesus of Nazareth but also its philosophical sociological and theological underpinnings Instead of seeking a bedrock of facts Brown stresses the role of hermeneutics in formulating questions and seeking answers Colin Brown was almost finished with the manuscript at the time of his passing in 2019 Brought to its final form by Craig A Evans this book promises to become the definitive history and assessment of the quests for the historical Jesus Volume One covers the period from the beginnings of Christianity to the end of World War II Volume Two sold separately covers the period from the post War era through contemporary debates Ancient Letters and the Purpose of Romans Aaron Ricker, 2020-09-17 Aaron Ricker locates the purpose of Romans in its function as a tool of community identity definition Ricker employs a comparative analysis of the ways in which community identity definition is performed in first century association culture including several ancient network letters comparable to Romans Ricker's examination of the community advice found in Rom 12-15 reveals in this new context an ancient example of the ways in which an inscribed addressee community can be invited in a letter to see and comport itself as a proper association network community The ideal community addressed in the letter to the Romans is defined as properly unified and orderly as well as accommodating to and clearly distinct from cultures outside Finally it is defined as linked to a proper network with recognised leadership i.e. the inscribed Paul of the letter and his network Paul's letter to the Romans is in many ways a baffling and extraordinary document In terms of its community defining functions and strategies however Ricker shows its purpose to be perfectly clear and understandable
