### **Imperial Institutions in Ancient Rome and Early China** Michael Loewe, Michael Nylan, T. Corey Brennan, 2025-05-15

Written by the eminent sinologist Michael Loewe and edited for publication by T Corey Brennan and Michael Nylan this book gives an overview of the considerations and practices of two major world empires that together ruled half of the earth's population in the first centuries BCE ancient Rome and Han China Approaching the historical material with a comparative perspective Loewe examines the strengths and weaknesses and the successes and failures which can be seen in the organisation and government of these two political systems Though each empire was largely ignorant of the other the problems they faced were similar given the rudimentary transportation and communication facilities of the time the high mortality rates and the low levels of literacy Yet each empire ruled its people in distinctly different ways with the Roman empire governed largely by military officials in contrast to the Chinese empire whose administration was well stocked with roughly 130 000 highly trained professionals The ten chapters of this book set out to compare the ways that these two contemporary regimes similar in size and population sought to control human activities and impose a set of regulated discipline over those who were ruled Each chapter concerns the degrees and methods of forming a united people the assumptions that lay behind such attempts the reliance that imperial authority placed on religious practices legal impositions and the structure of institutions and the bases of social cohesion and economic co operation The result is an engaging study of two remarkable empires whose rise and fall are contrasted in a way that deepens our understanding of empire and civilisation

**The Oxford Handbook of Social Relations in the Roman World** Michael Peachin, 2011 The study of Roman society and social relations blossomed in the 1970s By now we possess a very large literature on the individuals and groups that constituted the Roman community and the various ways in which members of that community interacted There simply is however no overview that takes into account the multifarious progress that has been made in the past thirty odd years The purpose of this handbook is twofold On the one hand it synthesizes what has heretofore been accomplished in this

field On the other hand it attempts to configure the examination of Roman social relations in some new ways and thereby indicates directions in which the discipline might now proceed The book opens with a substantial general introduction that portrays the current state of the field indicates some avenues for further study and provides the background necessary for the following chapters It lays out what is now known about the historical development of Roman society and the essential structures of that community In a second introductory article Clifford Ando explains the chronological parameters of the handbook The main body of the book is divided into the following six sections 1 Mechanisms of Socialization primary education rhetorical education family law 2 Mechanisms of Communication and Interaction 3 Communal Contexts for Social Interaction 4 Modes of Interpersonal Relations friendship patronage hospitality dining funerals benefactions honor 5 Societies Within the Roman Community collegia cults Judaism Christianity the army and 6 Marginalized Persons slaves women children prostitutes actors and gladiators bandits The result is a unique up to date and comprehensive survey of ancient Roman society

Reading Republican Oratory Christa Gray, Andrea Balbo, Richard M. A. Marshall, Catherine E. W. Steel, 2018-02-09 Public speech was a key aspect of politics in Republican Rome both in theory and in practice and recent decades have seen a surge in scholarly discussion of its significance and performance Yet the partial nature of the surviving evidence means that our understanding of its workings is dominated by one man whose texts are the only examples to have survived in complete form since antiquity Cicero This collection of essays aims to broaden our conception of the oratory of the Roman Republic by exploring how it was practiced by individuals other than Cicero whether major statesmen jobbing lawyers or exceptionally the wives of politicians It focuses particularly on the surviving fragments of such oratory with individual essays tackling the challenges posed both by the partial and often unreliable nature of the evidence about these other Roman orators often known to us chiefly through the tendentious observations of Cicero himself and the complex intersections of the written fragments and the oral phenomenon Collectively the essays are concerned with the methods by which we are able to reconstruct non Ciceronian oratory and the exploration of new ways of interpreting this evidence to tell us about the content context and delivery of those speeches They are arranged into two thematic Parts the first addressing questions of reception selection and transmission and the second those of reconstruction contextualization and interpretation together they represent a comprehensive overview of the non Ciceronian speeches that will be of use to all ancient historians philologists and literary classicists with an interest in the oratory of the Roman Republic

**The triumviral period: civil war, political crisis and socioeconomic transformations** Pina Polo, Francisco, 2020-07-08 Nothing from the subsequent Augustan age can be fully explained without understanding the previous Triumviral period 43 31 BC In this book twenty experts from nine different countries and nineteen universities examine the Triumviral age not merely as a phase of transition to the Principate but as a proper period with its own dynamics and issues which were a consequence of the previous years The volume aims to address a series of underlying structural problems that emerged in that time such as the legal nature of power attributed to the Triumvirs changes and continuity in Republican institutions both in Rome and the provinces of the Empire the development of the very concept of civil war the strategies of political communication and propaganda in order to win over public opinion economic consequences for Rome and Italy whether caused by the damage from constant wars or alternatively resulting from the proscriptions and confiscations carried out by the Triumvirs and the transformation of Roman Italian society All these studies provide a complete fresh and innovative picture of a key period that signaled the end of the Roman Republic

**Rome & Parthia: Empires at War** Gareth C. Sampson, 2020-08-05 A Roman historian examines the motivation and strategy behind Marc Anthony's invasion of Parthia and

the reasons for its ultimate defeat In the mid first century BC the Roman Empire was rivaled only by the Parthian Empire to the east The first war between these two ancient superpowers resulted in the total defeat of Rome and the death of Marcus Crassus When Rome collapsed into Civil War in the 1st century BC the Parthians took the opportunity to conquer the Middle East and drive Rome back into Europe What followed was two decades of war which saw victories and defeats on both sides The Romans were finally able to gain a victory over the Parthians thanks to the great general Publius Ventidius These victories acted as a springboard for Marc Antony's plans to conquer the Parthian Empire which ended in ignominious defeat In this authoritative history Gareth Sampson analyses the military campaigns and the various battles between Rome and Parthia He provides fascinating insight into the war that in many ways defined the Middle East for the next 650 years
