## **Romances With Schools A Life Of Education:**

**Romances with Schools** John I. Goodlad, 2016-07-15 John I Goodlad has been an unflagging voice for humanistic ideals in education for more than six decades and has helped reframe the modern discourse on the role and function of schools For Goodlad the goal of public education is to help children become free and full participants in a democratic society by instilling them with a love of learning and a sense of civic responsibility goals that are incompatible with our present system of schooling that teaches to standardized tests In *Romances with Schools* John Goodlad steps out from behind the public persona of distinguished scholar and advocate for public schooling to offer a moving personal account of a life devoted to educating the young He deftly interweaves fascinating personal details with reflections on many of the larger issues in education that he has explored throughout his career John s early encounters with formal schooling began just before the Great Depression in Canada with the humble North Star School From there we are taken through sixty plus years in education starting with John s first teaching job as the sole instructor of a one room schoolhouse through his years as an education activist dean of the UCLA Graduate School of Education and national voice for educational renewal Along the way he treats us to vivid characterizations of the men women and above all children who shaped him as a person and inspired his thinking on education *Romances with Schools* is both a poignant memoir and a persuasive argument for the need to renew public education to fit the demands of a free society Stephen Goodlad John s son has written a moving Prologue to the book that provides behind the scenes insight into John s life An Epilogue by Roger Soder a long time colleague places John s work of school renewal in the context of political change [Encyclopedia of Educational Reform and Dissent](#) Thomas C. Hunt, 2010-01-20 The history of American education is replete with educational reform and to a lesser extent educational dissent Consider the present you have various forms of privatization school choice the No Child Left Behind act home schooling value added accountability alternative teacher preparation programs on line instruction etc This range of activity is not exceptional For instance consider the past progressive education open education the junior high school the middle school Life Adjustment education career education vocational education the comprehensive high school school to work year round schooling behavioral objectives proficiency exams high stakes testing whole language learning packages and self paced instruction modular scheduling site based management all presented as the way to reform American schools at least in part Then you have the reformers themselves such as John Dewey George Counts Herbert Kohl John Holt Charles Silberman Admiral Hyman Rickover James Bryant Conant all the way back to Horace Mann himself Dissenters and dissenting movements while not as numerous and certainly not as well known in educational circles count the various faith based schools and individuals such as Archbishop Hughes of New York Clearly this is an area rich in ideas rife with controversy and vital in its outcome for individuals and the nation as a whole And yet strangely enough there exists no major encyclopedia bringing the varied strands together in one place as a ready reference for scholars teachers school administrators and

students studying to enter the educational profession This two volume work is intended to be that authoritative resource Key themes and topics include biographies of reformers and dissenters theoretical and ideological perspectives key programs and legislation judicial verdicts impacting educational change in America the politics and processes of educational reform and policy making dissent and resistance to reform technology s impact on educational reform A Reader s Guide in the front matter groups entries around such themes to help readers find related entries more easily **America's Public Schools** William J. Reese,2011-04-01 In this update to his landmark publication William J Reese offers a comprehensive examination of the trends theories and practices that have shaped America s public schools over the last two centuries Reese approaches this subject along two main lines of inquiry education as a means for reforming society and ongoing reform within the schools themselves He explores the roots of contemporary educational policies and places modern battles over curriculum pedagogy race relations and academic standards in historical perspective A thoroughly revised epilogue outlines the significant challenges to public school education within the last five years Reese analyzes the shortcomings of No Child Left Behind and the continued disjuncture between actual school performance and the expectations of government officials He discusses the intrusive role of corporations economic models for enticing better teacher performance the continued impact of conservatism and the growth of home schooling and charter schools Informed by a breadth of historical scholarship and based squarely on primary sources this volume remains the standard text for future teachers and scholars of education **School Life** ,1957

*Educated in Romance* Dorothy C. Holland,Margaret A. Eisenhart,2015-07-24 Is romance more important to women in college than grades are Why do so many women enter college with strong academic backgrounds and firm career goals but leave with dramatically scaled down ambitions Dorothy C Holland and Margaret A Eisenhart expose a pervasive culture of romance on campus a high pressure peer system that propels women into a world where their attractiveness to men counts most *Romance for Life* Clint R. Kelly,2010-03 Lines I write to you Are taken from deep in my heart Nothing better can I do Each word is a gift So begins an endearing and loving tribute to Clint Kelly s great love Sue Their story begins in the days of the Great Depression at college in their home state of Illinois A blind date leads to a happy until death do us part But marriage doesn t equal a fairy tale life Jobs are difficult to find so the couple must take what they can get even if that means separation from each other Soon Sue is teaching in a small rural school and Clint is miles away trying his hand at being a salesman before finally locating a job as a teacher Just when the couple is getting settled into life together Clint is drafted for World War II But the two are never apart in spirit After the war the couple locates teaching jobs and settles into a community Life is never without challenges though and the two face many together before finally retiring to a life of leisure in Florida New adventures await them there days filled with sailing and RV travels to all of the contiguous United States Through it all their love grows deeper Join Clint as he falls in love all over again with the woman who stole his heart his wife of sixty two years who brought him Romance for Life You may fall in love with his tale [Life's Real Romance. 1838 to 1883 Arthur N Howard, 2024-01-23 Reprint of the original first published in 1883      **Scientists in the Classroom**

J. Rudolph, 2002-05-02 During the 1950s leading American scientists embarked on an unprecedented project to remake high school science education. Dissatisfaction with the soft school curriculum of the time advocated by the professional education establishment and concern over the growing technological sophistication of the Soviet Union led government officials to encourage a handful of elite research scientists fresh from their World War II successes to revitalize the nation's science curricula. In *Scientists in the Classroom* John L. Rudolph argues that the Cold War environment long neglected in the history of education literature is crucial to understanding both the reasons for the public acceptance of scientific authority in the field of education and the nature of the curriculum materials that were eventually produced. Drawing on a wealth of previously untapped resources from government and university archives, Rudolph focuses on the National Science Foundation-supported curriculum projects initiated in 1956. What the historical record reveals, according to Rudolph, is that these materials were designed not just to improve American science education but to advance the professional interest of the American scientific community in the postwar period as well.      *Journal of Education*, 1883      **Sex Goes to School**

Susan K. Freeman, 2008-06-26 An informed perspective on sex education in the 1940s and 1950s      *Psychodynamic Perspectives on Working with Children, Families, and Schools* Michael O'Loughlin, 2012-12-08 With the push toward accountability and test performance in schools, there has been a decline in emphasis on creativity, imagination, and feelings in schools. *Psychodynamic Perspectives on Working with Children, Families, and Schools* is designed for students and professionals who are interested in restoring such values to their work with children. There is an absence of psychoanalytic ways of thinking in conventional professional discourses of schooling. With a few notable exceptions, the discourses of child development, classroom management, early childhood education, special education, school psychology, and school counseling have constructed notions of children and schooling that are often behaviorist, instrumental, and symptom-focused. Curriculum too often focuses on acquisition of knowledge and behaviors; discipline is conceptualized as compliance, and symptoms such as anger, school resistance, etc. are pathologized and reacted to out of context. Children's special needs are often conceptualized instrumentally, and children with complex psychological symptoms are delimited, depersonalized, or simply removed. Professionals who work with children psychodynamically draw on diverse frameworks, including the work of Anna Freud, the long tradition of the Tavistock Clinic in London, e.g., Anne Alvarez, Susan Reid, Margaret Rustin, Frances Tustin, etc., the writings of Klein, Winnicott, and their colleagues; French analysts, e.g., Piera Aulagnier, Didier Anzieu, Laurent Danon-Boileau, Françoise Dolto, Maud Mannoni, and Catherine Mathelin; and Italian infant-child analyst Alessandro Pontelli. This work is valuable but often inaccessible to school professionals because the writing is somewhat specialized and because there is no tradition of teaching such work in professional preparation in those fields. This collection is theoretically grounded in that the authors share a commitment to valuing children's emotions and understanding the usefulness of psychoanalytic approaches for

enhancing children's lives It is laden with examples to invite into this discussion those students and professionals who value these ideas but for whom this book may be their first introduction to progressive educational ideals and psychodynamic ways of working with children Psychodynamic Perspectives on Working with Children Families and Schools provides an introductory volume to open the door to the possibility of introducing psychodynamic frameworks to education and human service professors and school professionals and professionals working with children

**Family Romance** John Lanchester, 2008-01-29 The author of *The Debt to Pleasure* digs into his family's extraordinary past in a memoir as enthralling as his finest fiction It was only when his mother died that John Lanchester realized how little he really knew about his parents With the cache of letters and papers she left behind he set out to reconstruct just who his parents had been In doing so he did much more than trace the remarkable story of a reluctant international banker a secretive former nun and the life they shared he also gained extraordinary insight into his own nature and a deeper understanding of the universal push pull of family love and family loss Part detective work part evocation of character this is above all compelling storytelling
