Dominic Janes is at pains here to highlight the role played by Christianity in the history of homosexuality in Britain His story deals not merely with genital relations but also with identities both embraced and refused Necessarily coded expressions of desire as well as creative blurrings between religious idealism and queer gender and sexuality are integral to Janes s account A special focus for Janes is the way in which visual images and imaginary visions of suffering in ecclesiastical contexts were used to develop concepts of male same sex desire that projected the self as dutiful and penitent rather than shameful And so a model and in ways a substitute for same sex relationships was readily available in idealizations of the person and body of Christas unmarried queer martyr Homosexual desires and identities prove to have unfolded in creative dialogue with religion during and since the 19th century Various figures enter into Janes s history from Cardinal Newman and Oscar Wilde to artists such as Simeon Solomon and Frederick Rolfe and the plot thickens with forays into Victorian monasteries that functioned as queer families with fascinating side trips into Rolfe s Christmas cards as expressions of queer aesthetic identity He brings the account full circle with a concluding chapter on the life and works of Derek Jarman Janes uses this case to show that the experience of the AIDS epidemic led to a reconnection with older modes of queer self expression specifically concerned with the endurance of suffering The religious roots of queer creativity are a vital resource for modern churches and openly gay men and women to learn from The Routledge Companion to Australian Literature Jessica Gildersleeve, 2020-12-22 In recent years Australian literature has experienced a revival of interest both domestically and internationally The increasing prominence of work by writers like Christos Tsiolkas heightened through television and film adaptation as well as the award of major international prizes to writers like Richard Flanagan and the development of new high profile prizes like the Stella Prize have all reinvigorated interest in Australian literature both at home and abroad This Companion emerges as a part of that reinvigoration considering anew the history and development of Australian literature and its key themes as well as tracing the transition of the field through those critical debates It considers works of Australian literature on their own terms as well as positioning them in their critical and historical context and their ethical and interactive position in the public and private spheres With an emphasis on literature s responsibilities this book claims Australian literary studies as a field uniquely positioned to expose the ways in which literature engages with produces and is produced by its context provoking a critical re evaluation of the concept of the relationship between national literatures cultures and histories and the social function of literary texts **Nineteenth-century Literature Criticism** Laurie Lanzen Harris, 1988-02 Excerpts from criticism of the works of novelists poets playwrights short story writers and other creative writers who lived between 1800 and 1900 from the first published critical appraisals to current evaluations **Double**

Telecinematic Stylistics Christian Hoffmann, Monika Kirner-Ludwig, 2020-05-14 Over the last two decades the study of discourse in film and television has become one of the most promising research avenues in stylistics and pragmatics due to the dazzling variety of source material and the huge pragmatic range within it. Meanwhile with the advent of streaming and the box set film and television themselves are becoming separated by an increasingly blurred line. This volume closes a long standing gap in stylistics research bringing together a book level pragmastylistic showcase. It presents current developments from the field from two complementary perspectives looking stylistically at the discourse in film and the discourse of and around film. This latter phrase comes to mean the approaches which try to account for the pragmatic effects induced by cinematography. This might be the camera work or the lighting or the mise en scene or montage. The volume takes a multimodal approach looking at word movement and gesture in keeping with modern stylistics. The volume shows how pragmatic themes and methods are adapted and applied to films including speech acts, im politeness, implicature and context. In this way it provides systematic insights into how meanings are displayed, enhanced, suppressed and negotiated in both film and televisual arts.

Star Trek FAQ 2.0 (Unofficial and Unauthorized) Mark Clark, 2013-06-01 FAQ This book is not endorsed, sponsored or affiliated with CBS Studios Inc, Paramount Pictures or the Star Trek franchise. In the 1980s and 90s Star Trek rose from the ash heap of network cancellation and soared to the peak of its popularity with a series of blockbuster feature films and the smash sequel series Star Trek: The Next Generation. Star Trek FAQ 2.0 picks up where the original Star Trek FAQ left off, chronicling the historic comeback of the failed series and its emergence as a pop culture touchstone. The book provides accounts of the production of every Star Trek movie, including creator Gene Roddenberry's struggle to retain control of the franchise, and every episode of The Next Generation and the conflicts that roiled its writing staff. It also offers profiles of the actors, directors, writers, producers and technicians whose excellence fueled the franchise's success and explores often overlooked aspects of the Star Trek phenomenon, including unofficial fan-made productions. Star Trek FAQ 2.0 represents the final frontier of Trek scholarship.
