Rome & Parthia: Empires at War Gareth C. Sampson, 2020-08-05 A Roman historian examines the motivation and strategy behind Marc Anthony's invasion of Parthia and the reasons for its ultimate defeat In the mid first century BC the Roman Empire was rivaled only by the Parthian Empire to the east The first war between these two ancient superpowers resulted in the total defeat of Rome and the death of Marcus

Crassus When Rome collapsed into Civil War in the 1st century BC the Parthians took the opportunity to conquer the Middle East and drive Rome back into Europe What followed was two decades of war which saw victories and defeats on both sides The Romans were finally able to gain a victory over the Parthians thanks to the great general Publius Ventidius These victories acted as a springboard for Marc Antony's plans to conquer the Parthian Empire which ended in ignominious defeat In this authoritative history Gareth Sampson analyses the military campaigns and the various battles between Rome and Parthia He provides fascinating insight into the war that in many ways defined the Middle East for the next 650 years

Ancient Rome as a Museum Steven Rutledge, 2012-04-26 Ancient Rome as a Museum considers how cultural objects from the Roman Empire came to reflect, construct and challenge Roman perceptions of power and identity Rutledge argues that Roman cultural values are indicated in part by what sort of materials Romans deemed worthy of display and how they chose to display, view and preserve them

Rome's Enemies Within John S McHugh, 2024-10-30 The greatest danger to Roman emperors was the threat of deadly conspiracies arising among the Senate, the imperial court or even their own families All the emperors that reigned from Augustus to the end of the first century AD faced such efforts to overthrow or assassinate them John McHugh uncovers these conspiracies narrating them and seeking to explain them The underlying cause in many cases was the decline in influence, patronage and status granted by emperors to the Senatorial class leading some to seek power for themselves or a more generous candidate Attempted assassinations or coups led the emperors to mistrust the Senate and rely more on freedmen causing more resentment Paranoid emperors often reacted to the merest hint of treason, real or imagined, with punishments and executions leading more of those around them to consider desperate measures out of self-preservation And of course amid this vicious circle of poisonous mistrust there were ambitious family members promoting their own or their offspring's claims to the purple and the duplicitous Praetorian Guard John McHugh brings to light a century of assassination conspiracy and betrayal exploring the motives and aims of the plotters and the bloody cost of success or failure

The Nisibis War John S. Harrel, 2016-02-29 This study of the Roman Empire's combat with its rivals to the east examines the evolution of ancient military strategy and tactics During the Perso Roman wars of 337-363 Roman forces abandoned their traditional reliance on a strategic offensive to bring about a decisive victory Instead the Emperor Constantius II adopted a defensive strategy and conducted a mobile defense based upon small frontier forces defending fortified cities These forces were then supported by limited counteroffensives by the Field Army of the East These methods successfully checked Persian assaults for twenty-four years However when Julian became emperor his access to greater resources tempted him to abandon mobile defense in favor of a major invasion aimed at regime change in Persia Although he reached the Persian capital he failed to take it In fact he was defeated in battle and killed The Romans subsequently resumed and refined the mobile defense allowing the Eastern

provinces to survive the fall of the Western Empire In this fascinating study John Harrel applies his personal experience of military command to a strategic operational tactical and logistical analysis of these campaigns and battles highlighting their long term significance **Rome's Empire** Patricia Southern,2023-06-15 With parallels to today a significant new account of the Roman empire as a place of migration diversity and commerce as well as its traditional image as a military power

Greece Against Rome Philip Matyszak,2020-07-30 The acclaimed ancient world historian examines the centuries long decline of Greek powers in the face of the growing Roman threat Towards the middle of the third century BC the Hellenistic kingdoms were near their peak In terms of population economy and military power each was vastly superior to Rome not to mention in fields such as medicine architecture science philosophy and literature But over the next two and a half centuries Rome would eventually conquer these kingdoms while adopting so much of Hellenistic culture that the resultant hybrid is known as Graeco Roman In Greece Against Rome Philip Matyszak relates this epic tale from the Hellenistic perspective At first the Romans appear to be little more than another small state in the barbarian west as the Hellenistic powers are consumed by war amongst themselves It is a time of assassinations double crosses dynastic incest and warfare By the time they turn their attention to Rome it is already too late The Exposed City Nadia Amoroso,2010-04-30 There is a vast amount of information about a city which is invisible to the human eye crime levels transportation patterns cell phone use and air quality to name just a few If a city was able to be defined by these characteristics what form would it take How could it be mapped Nadia Amoroso tackles these questions by taking statistical urban data and exploring how they could be transformed into innovative new maps The unseen elements of the city are examined in groundbreaking images throughout the book which are complemented by interviews with Winy Maas and James Corner comments by Richard Saul Wurman and sections by the SENSEable City Lab group and Mark Aubin co founder of Google Earth **The Hutchinson Atlas of Battle**

Plans John Pimlott,1999 This book contains battle plans with their actual outcome from the Romans to World War II Each in depth essay on a particular battle is complemented by original maps in the service of before and after producing fresh insights into important battles that have in many cases dictated the course of history The battles analyzed by a team of distinguished military historians are the classic ploys Cannae Chancellorsville Alamein surprise Crecy Cambrai Blitzkrieg misunderstanding Waterloo Balaklava Gallipoli mission impossible Kunersdorf First Day of Somme Battle of the Bulge underestimating the enemy Austerlitz Isandawana Singapore narrow margins Gettysburg First Battle of Ypres Crete

Hunger and the Sword Paul Erdkamp,2023-01-16 Roman wars like those of later times took place in a landscape a landscape not only consisting of mountains plains and rivers but also of men tilling the soil travelling across sea or land or employing other means in their struggle for survival and even happiness This book undertakes to examine Roman wars in this context of the natural and human environment Roman warfare is generally examined from the viewpoint of the ancient authors on whose narratives our understanding depends As a consequence however Roman wars seem to have become

events that took place on the pages of a book rather than in the environment of the Mediterranean world The way Roman wars were fought was determined by the geography and climate of the Mediterranean peninsulas by the ecological restraints on agriculture and transport and by the economic and social structures of the society of which the armies were a significant part This book relates warfare to one of the main conditions of survival it examines on the one hand the food supply of the many thousands that manned the Roman armies and on the other the impact of war on the food supply of those people not waging war *Computerworld* ,1982-09-27 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network Cumberland River O&M, Mile 0 to Mile 381.0 (KY,TN) ,1976
