While Rome Burned Virginia M. Closs, 2020-05-06 While Rome Burned attends to the intersection of fire city and emperor in ancient Rome tracing the critical role that urban conflagration played as both reality and metaphor in the politics and literature of the early imperial period Urban fires presented a consistent problem for emperors from Augustus to Hadrian especially given the expectation that the princeps be both a protector and provider for Rome's population The problem manifested itself differently for each leader and each sought to address it in distinctive ways This history can be traced most precisely in Roman literature as authors addressed successive moments of political crisis through dialectical engagement with prior incendiary catastrophes in Rome's historical past and cultural repertoire Working in the increasingly repressive environment of the early principate Roman authors frequently employed figured speech and mythopoetic narratives to address politically risky topics In response to shifting political and social realities the literature of the early imperial period reimagines and reanimates not just historical fires but also archetypal and mythic representations of conflagration Throughout the author engages critically with the growing subfield of disaster studies as well as with theoretical approaches to language allusion and cultural memory

Nations of Nothing But Poetry Matthew Hart,2010-04-22 Modernism is typically associated with novelty and urbanity So what happens when poets identify small communities and local languages with the spirit of transnational modernity Are vernacular poetics inherently provincial or implicitly xenophobic How did modernist poets use vernacular language to re imagine the relations between people their languages and the communities in which they live Nations of Nothing But Poetry answers these questions through case studies of British Caribbean and American poetics from the 1920s through the 1990s With a combination of fresh insights and attentive close readings Matthew Hart presents a new theory of a synthetic vernacular writing that

explores the aesthetic and ideological tensions within modernism's dual commitments to the local and the global. The result is an invigorating contribution to the field of transnational modernist studies. Chapters focus on a mixture of canonical and non-canonical writers combining new literary histories such as the story of how Melvin B. Tolson, while a resident of Oklahoma, was appointed Poet Laureate of Liberia with analyses of poems by Gertrude Stein, W. H. Auden, Ezra Pound, and T. S. Eliot. More broadly, the book reveals how the language of modernist poetry was shaped by the incompletely globalized nature of a world in which the nation-state continued to be a primary mediator of cultural and political identity even as its authority was challenged as never before. Through deft juxtaposition, Hart develops a new interpretation of modernist poetry in English, one that disrupts the critical opposition between nationalism and the transnational, paving the way for a political history of modernist cosmopolitanism.

Beneath the Laurel Tree: A Tale from Ancient Rome Timothy Presley, 2025-08-03 In the heart of a crumbling Republic where marble glistens beneath blood-red sunsets and the whispers of betrayal echo through Senate halls, one young Roman finds himself entangled in a dangerous game of loyalty, ambition, and survival. As Rome teeters between tradition and tyranny, secrets buried beneath laurel crowns threaten to unravel the very foundations of power. Shadows fall not only behind emperors and generals but among enslaved people, soldiers, and those who dare to dream of a different kind of future. Through the eyes of a scribe who sees too much, a noblewoman who hides too well, and a soldier who questions too late, the story weaves through the chaos of war, forbidden love, and the delicate threads of identity. Every victory demands a sacrifice, and every truth comes with a cost. Beneath the laurel tree, where honor is declared and lies are buried, destinies are forged in silence, and Rome never forgets.
